1	Barron Jr., Moss Lee	7/18/19	Written Comment	This important project is needed for the east Dallas & Garland areas. It will improve traffic movement and should open up areas adjacent to the highway for new economic development. Please do not allow our elected officials to postpone it anymore. It has been ridiculous how people in Austin have dictated the terms and repeatedly got this project sidetracked. We would really prefer two tolled lanes in each direction, but we will live with what the idiots negotiated. Make it happen and get on with it!!	Comments noted.
2	Bookhout, Jim City of Garland Council Member	6/20/2019	E-Mailed Comment	Ms Lo, I am writing to express my displeasure with the toll rates that are planned for LBJ east. I do not support the toll lanes being included at all but since they were grandfathered why not just build the one lane which was agreed to and not pay for all the concrete to lay the empty lane next to it. These rates could be much lower if we weren't paying to pave the extra lane. That being said I found that the rates proposed are exceptionally high in my opinion. I do not support these proposed rates and would like to see them lowered. I am not a supporter of the demand charges. They go up past the average person's ability to pay! Best regards, Jim Bookhout	The proposed project will reconstruct the grandfathered one managed lane in each direction to maintain the existing operational condition. The proposed design is consistent with the North Central Texas Council of Governments' (NCTCOG) Mobility 2045 plan. The initial toll rates are set by the Texas Transportation Commission in accordance with the managed lanes policy established by the Regional Transportation Council of the North Central Texas Council of Governments. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. The dynamic pricing toll rates will be based on user demand, and it is done to provide reliable trips. The LBJ East project is fully funded; therefore, the collected toll will not be used to construct the project.
3	Boyd, Bill	7/18/19	Written Comment	Please add 2 nd optional toll lane in each direction, like 635 btw 75 & 35. It is the smart thing to do!	The current proposed project will reconstruct the grandfathered one managed lane in each direction to maintain the existing operational condition. The proposed design is consistent with the NCTCOG's Mobility 2045 plan.
4	Edwards, Steve	7/18/19	Verbal Comment	My comment was in reference to the managed lanes for the whole stretch. As long as a single managed lane exists on each side, you're going to have frustration. You're going to have people wasting time because they're going to be behind 18-wheelers and slower drivers than in the regular lanes. Maintaining a single managed lane on each side of this stretch of interstate is about as useful as putting screen doors on a submarine. I've experienced way too many times where I got in that managed lane and I was wasting time because there were people in there that really didn't belong in there. I don't think 18-wheelers belong in there and I'm sure a lot of these people have experienced the same frustration. So but I understand from Mr. Craig that there is going to be a lot of room in those managed lanes and eventually, somewhere down the line, they may become two lanes on each side. If that's the case, that will be fine. But all I can say to that is the sooner the better.	The proposed project will reconstruct the grandfathered one managed lane in each direction to maintain the existing operational condition. Inside and outside shoulders will also be provided along the managed lanes, and concrete traffic barriers will replace the existing pylons to separate the vehicles on the managed lanes from the I-635 mainlane traffic. The proposed design is consistent with the NCTCOG's Mobility 2045 plan.

I-635 LBJ East Public Hearing Comment Response Matrix

5	Ferguson, Dorothy	7/18/19	Verbal Comment	<p>As this program is a very important program, and quite honestly we have some major difficulties with portions of our transportation area as it is, I think it was poor judgment to plan this without at least advising or sending out something showing possibilities and allowing people to think about it. I think that better things could be done, maybe through our colleges in their design effort so they can try to keep things where we don't have that ridiculous over, high thing down on 35 in downtown. It doesn't make a lot of sense to continue to pour more concrete. They keep telling you to plant more trees, and the only thing I've seen TxDOT do lately is cut trees down. I think that we have some major issues here and we're not anti. We understand that something needs to be done. But the more input and the more we all talk about it and discuss it, the better off we're all going to be. I don't know how else to say that. I don't know how you feel, but just, I drive 635 and 75 every day. And I have, I'm (indiscernible) advertising so I'm on there. And they've got seven on-ramps that feed on right at 75 going south. And it's just - it's not feasible. No wonder you have accidents. And then the off-ramp feeding off 75 to go onto 635 going east causes a major mess over there and then you - everything backs up immediately. And we need to really eliminate a number of the on-ramps and off-ramps and particularly there should never be an off-ramp going up to the traffic light. I guess I can go home now. My dad built highways. H.P. Zachary, in fact, my dad designed the diamond crusher that crushed the gravel for the highways and stuff like that. I've been around highways for a lot. I thought it was almost an insult and I think the state has made a major mess. I think we ought to have a Texas Highway Department and I think a subordinate ought to be highway maintenance and toll roads, I think that without a lot of high paid people running both those areas. And we don't have people working but we can certainly use them at the Texas Highway department going around. We could do that. We could train people to be - have pride in their area. Now they just think everybody else does it. So if we start doing our own work and try to develop a little rapport I think it would be better. We don't make changes and we don't do things to create problems. But when we do, we've got to recognize it. It's probably my husband's fault. My husband died May the 17th. He is probably thinking you just don't have enough to do, but I've always thought things could be better. I don't think to criticize things, I just think things could be better. Thank you. And is there a possibility you can get an account of what goes on here? The only reason is my - the lady that has the PDI that does the highway situation, she works with them for the location of plants and stuff like that in our area, she's on vacation, my city councilman is on vacation. I'd love to see the colleges challenge some of the people, young men, because I think that would be new thinking. Engineers ought to be actually, do something that is already been precise.</p>	<p>Previous public involvement activities include several stakeholder work group meetings, public meetings and public hearings that were held between 2014 and 2017 to provide the public information regarding the I-635 LBJ East Project. All adjacent property owners as well as city and county officials were sent notices regarding the public meetings and public hearings, and advertisements were placed in local newspaper to invite the public to view and comment on the draft designs.</p> <p>Please contact Ms. Grace Lo, P.E., by mail at the TxDOT Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, or by e-mail at grace.lo@txdot.gov with any specific questions or concerns that you may have.</p>
6	Jones, David J.	7/18/19	Verbal Comment	<p>I'm actually a private developer here in Dallas and a broker. I just want to make a couple of comments about the design-build contract itself. One of the things that is obvious if you read the contract is that the staging yard, which is the 21 acres, plus or minus, at the southeast corner of 75 and 635 is going to continue to be used as a staging yard for the next five years. For whatever it's worth, that piece of property is probably one of the most valuable pieces of property for a redevelopment parcel that exists in DFW as we speak. And one of the reasons I know is because I've made two offers on the property to TxDOT in which they basically considered the offers but ultimately ended up saying that they were not going to offer the property for sale because they were going to make it available for the contractor at no cost to basically use as a staging yard for the construction of the east extension of LBJ. The value of that property on the open market through a bid process is well in excess of \$20 million. So I would dare say that that property is going to probably be the most expensive staging yard in the history of construction in Dallas, Texas. I'd like for somebody to review that, take a look at that instead of the fact there's not other alternatives. I actually presented two alternative locations for the consideration and ultimately, I think the contractors looked at it and decided that that really wasn't as beneficial, for whatever reason, I'm not sure, I could guess, but I'm not sure. So that's my concern, and I'd like somebody to take a look at that.</p>	<p>The winning proposer Pegasus Link Constructors (PLC) elected to use the High Five site for construction staging. For alternative staging property opportunity, please contact PLC at 214-442-0789.</p>

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
7	Lawrence, Patricia	7/18/19	Verbal Comment	<p>Our location is an incredibly hectic stop. We have an exit at that location and I'm concerned that at the moment we have a median where it allows us a somewhat safe way to make a left turn heading toward Forest, from our location. The way they've proposed it now, it virtually eliminates a left turn because there's no median, no way to have a safe place to cross six lanes of traffic. So virtually it limits us to a right turn only onto the freeway. And my concern was it's a heavy traffic area. We have 172 units just in my complex alone. There's like four other complexes plus a lot of duplex facilities there. And so anyway, I'm more concerned with how we can exit where we live. Because my guess would be you're talking a thousand cars in that little spot alone, approximately. And we have been – we don't have the option really of a safe left turn from our location. And here's school buses, there's kids, and across is a DART station. So it makes it – and there's little shops and all this other. It makes it really difficult if you want to cross all the way to those locations because there's a tiny distance between our exit and the traffic light and 635. And you've got traffic – if I counted how many lanes of traffic that was when you count north, south, east, west, now we're talking, I don't know, 25 lanes or something. Would it be about that many? We're talking maybe four, there may be four, eight, you know, another two more, that's ten, another one to exit, there's six on ours so that's maybe fifteen lanes coming in all directions in a tiny space. And so I'm really more concerned about how do we enter and exit. Entering is going to be hard. The other problem is there's a bend in the road and from where we exit, there's a bend in the road so there's sort of a blind spot to our left. And so there's a poor visibility which may be a safety hazard as well. And so those are some of my issues. We are in this tiny spot where everybody's making all these decisions in a tiny area. They're all in cars. And so I'll write what I think, and I'll actually send photos as well so they can look at that. And the other thing is I'd love to see it develop. I'm happy that they're doing this. I just want to make sure our spot is safe because it's this tiny, hugely congested area. And with that location, if they could really pretty it up and connect us somehow to the DART station and make it like a Mockingbird station kind of thing, it would be lovely. But right now they're shutting us off basically, or making it – we can't make a left turn. We just won't be able to make a left turn safely. And with the curve in the blind spot, it's going to be really weird. We're happy about this, we really are. We just want to make sure, when I saw that, I was very surprised they didn't put a median between all the three lanes coming one direction and the three going the other direction. I would have put a median there, there's a median now and they're taking it away. We're scared now as it is, but this makes it even harder. And so and there's lot of traffic, believe it or not, going in and out of there. It looks like there isn't, but there really is. You have to live there to know that it's a hugely heavy trafficked area. Thank you so much. We're happy about this though. It's happening because it did need a pretty development and it also just needs to be a safe development.</p>	<p>In the existing configuration, southbound Audelia Road splits into two separate roadways to provide access to Adleta Court and the southbound Skillman Road/westbound I-635 service road intersection. The wide median referenced in the comment is formed by this roadway split. Currently, to access northbound Audelia Road from eastbound Summertree Lane, a vehicle must traverse a total of four southbound lanes plus the mentioned median on Audelia Road.</p> <p>The proposed project will remove the Audelia Road split and will convert the Summertree Lane/Audelia Road intersection to a conventional intersection. Once the proposed improvements are constructed, vehicles wanting to access northbound Audelia Road from eastbound Summertree Lane will only need to traverse a total of three southbound lanes. During final design, an intersection sight distance will be performed to ensure safe crossing for vehicles existing the driveway.</p> <p>Continuous sidewalks will be provided within the project limits along Audelia Road, Skillman Street, and the new westbound I-635 frontage road, along with crosswalks at signalized intersections. These elements will facilitate pedestrian connectivity to/from the DART Skillman Station.</p>
8	Lawrence, Patricia	7/31/19	E-mailed Comment	<p>Hi, Grace...we chatted at the July 18th meeting re: Interstate Highway 635 LBJ East Project...I'm concerned about exiting left from our neighborhood and entering with a left turn to our neighborhood...I don't see that your proposal has a protective lane so that we can safely cross multi-lanes of traffic to make left turns for either direction...enclosed is a video of our entrance to Audelia heading to Forest, 635, or Skillman (to downtown Dallas)...does your proposal include a safe exit from our neighborhood (apx. 900 cars use these exits from our section alone) and a safe left turn to our homes?</p> <p>[Video clip was submitted with comment.]</p>	<p>A dedicated left turn lane will be provided on northbound Audelia Road at the Summertree Lane intersection. See response to Comment #7 for information about traveling to northbound Audelia Road from eastbound Summertree Lane.</p>

I-635 LBJ East Public Hearing Comment Response Matrix

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
9	Lindberg, Eric	7/18/19	Written Comment	<ul style="list-style-type: none"> - Please expand the “grandfathered” managed lanes to two lanes in each direction. It is only a matter of time that these lanes will be necessary. I am happy to contact any state &/or local representatives in order for this to happen & express the need to. - Please share with us the incentives & penalties for Pegasus Link Constructors for early, on time & late completion. Additionally, how can we ensure that during construction that the signage, safety, cones, barricades, etc. is paramount to successful completion of this project. 	<p>The proposed project will reconstruct the grandfathered one managed lane in each direction to maintain the existing operational condition. The proposed design is consistent with the NCTCOG’s Mobility 2045 plan.</p> <p>The contract information developed concerning this project is available upon request for public inspection and copying at the TxDOT Dallas District Office and on the TxDOT website at https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html</p>
10	Lindberg, Eric	7/18/19	Written Comment	During construction, who should citizens contact with safety concerns, compliments, etc.? Please provide a name, email & phone number to the citizens. Thank you!	Questions and comments may be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, or by e-mail to grace.lo@txdot.gov .
11	Lindberg, Sharon	7/18/19	Written Comment	The project purpose slide #8 bullet #4 states “to accommodate projected growth through the region.” Based on the principles of growth instead of the single “grandfathered” lane in the HOV/managed lanes, TxDOT should seek to have two lanes (each way) instead of only one lane. We know the area is growing rapidly and two lanes (or more) will be needed in the future. Do it now instead of later. In consideration, currently between 75 & 35 the managed lanes include 2-3 lanes each way so it would make sense to continue this through the scope of this project too.	The proposed reconstruction of one grandfathered managed lane in each direction to maintain the existing operational condition is approved by the Texas Transportation Commission. The proposed design is also consistent with the NCTCOG’s Mobility 2045 plan approved by the Regional Transportation Council and received concurrence from the Federal Highway Administration.
12	Lindberg, Sharon	7/18/19	Written Comment	There is a huge population of residents who will not be allowed to use the managed lanes and exit efficiently if they are driving home from 635 east towards Ferguson Rd. Currently there is an exit at Ferguson and also La Prada. The new proposed construction does not include an exit from the managed lane and so residents would be forced to exit at Plano Rd or after La Prada which is very far and inefficient.	<p>In the existing condition, an eastbound managed lane exit ramp is provided in the area between Plano Road and Kingsley Road. The eastbound managed lane terminus is then located west of La Prada Drive. No managed lane exit at Ferguson Road is currently provided. Additionally, a continuous frontage road system is not present in the existing configuration.</p> <p>Similar to the existing condition, the proposed project will provide an eastbound managed lane exit ramp in the area between Plano Road and Kingsley Road. An eastbound managed lane exit to the westbound/eastbound I-30 direct connect (DC) ramp will be provided, and the eastbound managed lane terminus will also be extended past the Galloway Avenue underpass. The proposed project will also construct a continuous frontage road system and intersection improvements.</p> <p>To access the Ferguson Road area once the proposed construction is complete, vehicles traveling on the eastbound managed lanes would exit to the I-635 mainlanes by taking the managed lane exit ramp located between the Plano Road and Kingsley Road area (similar to the existing condition). Vehicles would then travel on the I-635 mainlanes for approximately 2.5 miles and then take the eastbound mainlane exit ramp to Centerville Road/Ferguson Road. With the addition of a continuous frontage road system and intersection improvements (including u-turns), the proposed improvements will facilitate accessing the Ferguson Road/La Prada Drive area.</p>

I-635 LBJ East Public Hearing Comment Response Matrix

Comment Number	Commenter Name	Date Received	Source	Comment Topic	Response
13	Lindberg, Sharon	7/31/19	E-mailed Comment	<p>Hi Grace,</p> <p>I hope you are well. I want to email and submit additional comments in regards to the I-635 construction project in Dallas. I was at the hearing earlier this month and submitted my comments but since then have experienced a couple of situations that lend additional support to my original submission that I feel is important to share with you.</p> <p>Last week my family was on our way to our yearly vacation, it was 7am on a Thursday, July 25th morning, we were headed to DFW airport for an international flight. There was a major accident in the West bound 635 section by Greenville Ave.. We entered onto 635 at Ferguson and immediately hit traffic that was backed up from the point of the accident on Greenville.</p> <p>This distance is about 7 miles and in moderate traffic takes about 10-12 minutes. It took over an hour that day due to the severity of the accident (as it was blocking the managed/HOV lane). We used the maps on our phone and originally it said it would take about a half hour to get through the accident site, but as we stayed on, it became longer and longer and we were lucky to figure out a way to jump off the highway at Skillman, take some streets and then get back onto 635 to head to the airport. Had we stayed on, we would have missed our flight as it looked like it would have taken at least another 45 minutes to get through the heavy backup between that section of Skillman to Greenville (2 miles).</p> <p>It is very concerning that one accident in the managed lane would cause that much heavy traffic and a 45 minute backup in a 2 mile distance and a 2 hour backup in a 7 mile distance.</p> <p>Today on my way to our warehouse (which near 35 and Walnut Hill Lane), there was a major 3 car accident at the exact location, on 635 headed West at Greenville, again the vehicle was in the managed lane, again there was heavy traffic (though not as bad as a 7am accident) since traffic is generally lighter at 10:45 in the morning as opposed to earlier. Regardless, it created a backup, and ultimately an EXTREMELY unsafe situation for many people.</p> <p>The vehicle that had the most damage (see attached photos); had a mother and two young children in it. They were OK but they were huddled in the rear passenger seat, shaken up and afraid for their lives given the traffic in the managed lane/HOV and the traffic in the fast lane.</p> <p>This is the 2nd accident in less than a week in the managed lane.</p> <p>I am VERY VERY concerned that TX DOT and the State is not taking the current single managed lane and adding 2 full managed lane (plus an extra shoulder lane for safety). This is very negligent and is lacking foresight.</p> <p>DFW is one of the fastest growing metroplexes in the US and continues to top lists in growth year over year for more than 15 years steadily climbing. Interstate 635 between Mesquite to DFW Airport is a major connector for residents all over the Eastern/Southern section of Dallas, and the surrounding suburbs to the North and East. The thing that perplexes me the most is the expansion of the managed lanes between 75 and 35 and how beautiful that is now, with the managed lanes being 2-3 lanes (built underneath 635) and how this type of construction is not being considered to expand between 75 East towards Mesquite. It would seem more logical for the road to be congruent with the way it was constructed in the new section.</p> <p>Is there anyone else I need to voice this concern with whom has the ability to make this change? This is VERY important and I want to make sure my voice is heard on this issue before the money is spent and the job is not done as it could be done in a better way.</p> <p>Thank you for your time and consideration Grace.</p> <p>(See attached photograph.)</p>	<p>The proposed project will reconstruct the grandfathered one managed lane in each direction to maintain the existing operational condition. The proposed design is consistent with the NCTCOG's Mobility 2045 plan.</p> <p>An inside and outside shoulder will be provided along the proposed managed lanes, which will improve accident management within the facility. The proposed project will also remove the existing pylons currently separating the managed lanes from the I-635 mainlanes and replace them with a concrete traffic barrier, which will further increase the safety of the facility.</p>

14	Morgan, Susan	7/18/19	Verbal Comment	<p>I've been involved with TxDOT and the North Central Texas Council of Governments on this project for quite some time, but many of my neighbors have been involved with it even longer. I'm just here to say I want to appreciate everything that TxDOT has done, working with the engineers, has been really an excellent process for me over the last thirteen years that I've been involved. We've had some difficulties. We've gotten through them. And we are where we are and on behalf of my neighbors and friends and the rest of the community in Lake Highlands, we just want to say we're really excited to get this thing kicked off. So thank you so much.</p>	Comments noted.

Section B. Notices for the I-635 LBJ East Public Hearing

Document	Pages
Public Hearing Notices	10

Newspaper Notices and Affidavits	24

**Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project**

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of a design-build contract (DBC) and the associated capital maintenance agreement (CMA) that includes the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to “grandfather” and permit the reconstruction of the existing one tolled managed lane in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from eight to ten general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635/I-30 interchange. On May 30, 2019, in Minute Order 115486, the Texas Transportation Commission (Commission) determined that the proposal submitted by Pegasus Link Constructors (DB Contractor) provides the apparent best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the DBC and CMA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole option to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 371, subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing. TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling. TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates. The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lane policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 50 mph.

Competing Facilities. TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to competing facilities and there are no penalties associated with their

construction.

Termination for Convenience. TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontracts.

Toll Rates. Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.53

Methodology for increasing toll rates. Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.75/mile. The established rate will be evaluated and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged;
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments. There will be no concession payments.

Public Hearing. TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. An open house will be held from 6:00 p.m. – 8:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, or by e-mail to grace.lo@txdot.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-6643, and can be accessed on TxDOT's website at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>. Copies of the draft DBC also may be purchased from TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Departamento de Transporte de Texas
Aviso de Audiencia Pública Divulgación de Información Financiera
Proyecto Carretera Interestatal 635 (I-635) LBJ East

DIVULGACIÓN DE INFORMACIÓN FINANCIERA: Conforme a la autoridad concedida bajo Código de Transporte de Texas, Capítulo 223, Subcapítulo F, el Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) ha solicitado propuestas y recomendado la selección de un proponente para adjudicar un contrato de diseño y construcción (DBC, por sus siglas en inglés) y el asociado acuerdo de mantenimiento de capital (CMA, por sus siglas en inglés) que incluye el diseño, desarrollo, construcción y mantenimiento potencial de la Carretera Interestatal 635 desde la US 75 hasta la I-30 en el Condado de Dallas (Proyecto I-635 LBJ East). El departamento ha aceptado proteger y permitir la reconstrucción de un carril existente de peaje en cada dirección como parte del alcance del proyecto. El proyecto incluirá la reconstrucción completa y la ampliación de la instalación de ocho a diez carriles de uso general y la reconstrucción completa de los carriles de peaje existentes, para un total de 12 carriles de uso general y de peaje, construcción de vías laterales continuas y mejoramientos al intercambio de la I-635/I-30. El 30 de mayo de 2019, en la Orden de Minutos 115486, la Comisión de Transporte de Texas (Comisión) determinó que la propuesta presentada por Pegasus Link Constructors (Contratista de Diseño y Construcción) proporciona el mejor valor aparente a TxDOT y autorizó a TxDOT para que iniciara y completara las negociaciones necesarias para finalizar el DBC y el CMA.

Bajo el DBC, el trabajo de construcción comenzará a finales de 2019 o principios de 2020 y el proyecto está programado para sustancialmente completarse a finales de 2024. A más tardar de un tiempo especificado antes de la finalización, TxDOT podrá ejercer su única opción de requerir que el Contratista de Diseño y Construcción proporcione servicios de mantenimiento capital para el Proyecto I-635 LBJ East bajo el CMA por hasta tres términos consecutivos de cinco años. El proyecto le pertenece y le seguirá perteneciendo a TxDOT.

Conforme al Código de Transporte, Capítulo 371, subcapítulo D, TxDOT está publicando información financiera sobre el proyecto y proporciona un aviso de una audiencia pública que se llevará a cabo sobre la divulgación financiera.

Financiación de Proyecto. TxDOT tiene la intención de financiar el Proyecto con fuentes de financiación federales y estatales. No se ha asumido ni se asumirá ninguna deuda para adquirir, diseñar, construir, operar y mantener el Proyecto.

Duración de Peaje. TxDOT coleccionará peajes en el Proyecto I-635 LBJ East basado en la directiva más actual del Consejo de Transporte Regional (RTC, por sus siglas en inglés), aunque no hay deuda que pagar.

Método Para Establecer Tarifas de Peaje. Las tarifas iniciales serán establecidas por la Comisión de acuerdo con la directiva de carriles de peaje establecida por el RTC. La directiva establece un precio de horario fijo durante los primeros seis meses y precios dinámicos a partir de ese entonces. Conforme a la directiva de carriles de peaje, peajes para el periodo inicial de 180 días no serán mayores que la tarifa máxima de peaje que se describe a continuación. Después del periodo inicial, las tarifas de peaje se basarán en la demanda del usuario, como se describe a continuación. La tarifa de peaje se establecerá para mantener una velocidad promedio mínima de 50 mph para los carriles de peaje.

Instalaciones Competidoras. TxDOT tiene el derecho de construir cualquier instalación en cualquier momento. No hay términos en el DBC relacionados con las instalaciones de competencia y no hay penalidades asociadas con su construcción.

Terminación por Conveniencia. TxDOT tiene el derecho de poner fin a el DBC en cualquier momento sin causa. Si TxDOT elige ejercer este derecho, TxDOT debe pagar al Contratista de Diseño y Construcción por el trabajo de diseño y construcción ya realizado bajo el DBC y los costos de poner fin a subcontratos.

Tarifas de Peaje. Basado en proyecciones de demanda y sujeto a la adopción de la Comisión, se estima que las tarifas de peaje cobradas serán las siguientes:

Precio por Milla	2023 (en \$ de hoy)	2040 (en \$ de hoy)
Alto	\$0.35	\$0.82
Bajo	\$0.30	\$0.53

Metodología para aumentar las tarifas de peaje. Conforme a la directiva de carriles de peaje, la máxima tarifa inicial de peaje es \$0.75/milla. La tarifa establecida será evaluada y ajustada, si se justifica, con aprobación del RTC. Esta tarifa máxima de peaje no puede ser superada durante los primeros 180 días posteriores al inicio de las operaciones de tráfico en los carriles de peaje. Después de los primeros 180 días, precios dinámicos entran en efecto, según lo requerido por la directiva de carriles de peaje del RTC, lo cual significa que, después de los primeros 180 días:

- Si la demanda es baja, como durante las horas de menor actividad, se cobrará una tarifa de peaje más baja;
- Si la demanda es alta, como durante las horas de altos viajes, se aplicará una tarifa de peaje más alta.

Pagos de Concesión. No habrá pagos de concesión.

Audiencia Pública. TxDOT llevará a cabo una audiencia pública sobre esta divulgación de información financiera para el Proyecto I-635 LBJ East el jueves, 18 de julio de 2019 en Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. Una exhibición abierta al público se llevará a cabo desde 6:00 p.m. – 8:00 p.m., y la presentación formal tomará lugar a partir de las 7:00 p.m.

Preguntas y comentarios sobre la información financiera serán aceptados por TxDOT en la audiencia pública. Preguntas y comentarios también pueden ser enviados a TxDOT por correo dirigido a Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, o por correo electrónico a grace.lo@txdot.gov. Estos comentarios serán aceptados hasta las 5:00 p.m., 1 de agosto de 2019. Copias del borrador del DBC estarán disponibles para su inspección en la audiencia pública y en la oficina del Distrito de Dallas de TxDOT ubicada en 4777 E. Highway 80, Mesquite, Texas 75150-6643, y se puede acceder en el sitio web de TxDOT en <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>. Copias del borrador del DBC también pueden ser compradas en la oficina del Distrito de Dallas de TxDOT al costo de reproducción. TxDOT considerará todas la preguntas y comentarios debidamente entregados y preparará un resumen y análisis de los comentarios recibidos. El resumen y análisis se publicará en el sitio web de TxDOT y estará disponible según se solicite. Personas interesadas en asistir a la(s) audiencia(s) que tienen necesidades especiales de comunicación o alojamiento son recomendadas a comunicarse con la Oficina de Información Pública del Distrito de Dallas de TxDOT al (214) 320-4480. Solicitudes deberían hacerse al menos 72 horas antes de la audiencia pública. La audiencia pública se realizará en inglés y se brindará interpretación en español; cualquier solicitud de otras necesidades especiales de comunicación deberían hacerse al menos 72 horas antes de la audiencia pública. TxDOT hará todos los esfuerzos razonables para satisfacer estas necesidades.

Email notification to elected officials for I-635 LBJ East Financial Public Hearing:

Was sent on Monday, July 8, 2019.

BCC: Elected Official Mailing List and following TxDOT staff: Ceason Clemens, Tony Hartzel and Michelle Raglon.

Subject: Notification of the Interstate Highway 635 (I-635) LBJ East Financial Public Hearing

The Texas Department of Transportation (TxDOT) invites you to join us at the upcoming public hearing regarding the I-635 LBJ East Project in Dallas, Texas.

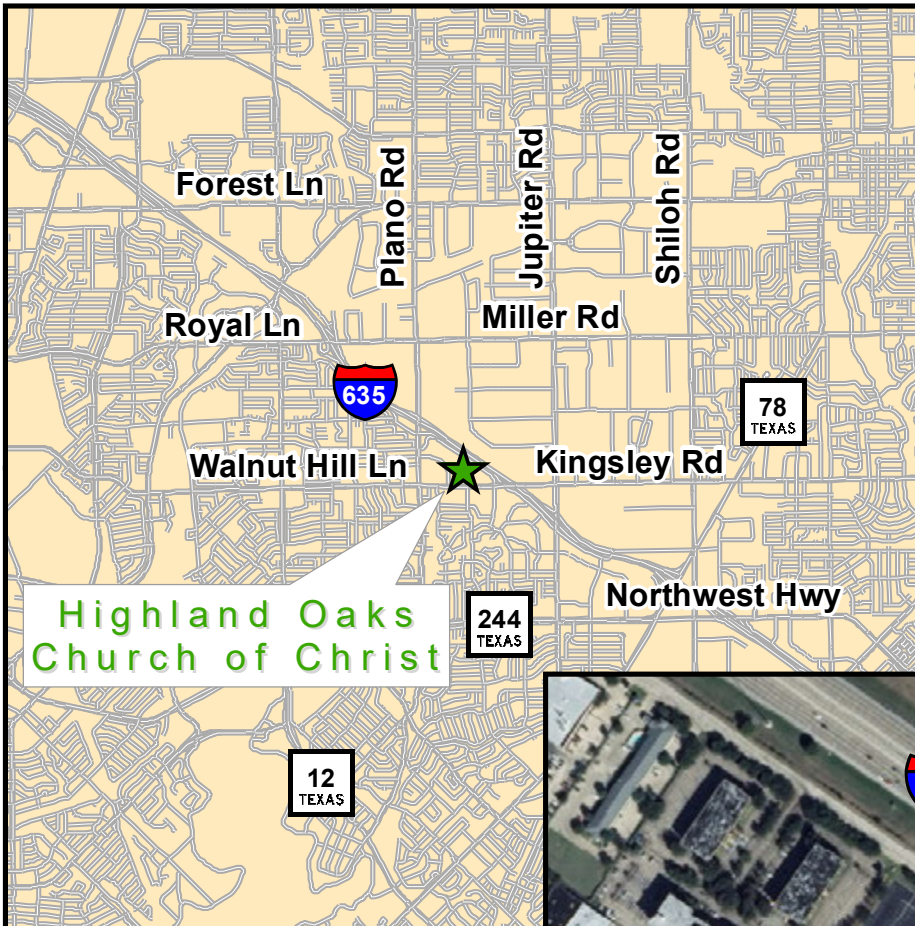

Thursday, July 18, 2019
Highland Oaks Church of Christ
10805 Walnut Hill Lane
Dallas, Texas 75238
Open House: 6:00 – 8:00 p.m.
Formal Presentation: 7:00 p.m.

The purpose of the hearing is to disclose the financial information for the I-635 LBJ East Project to the public. The public hearing will be an open house format that will allow attendees the opportunity to interact with TxDOT staff and the project consultant team. A formal presentation will take place at 7:00 p.m.

Please see the attached public hearing notice and location map with directions to this event. In addition, a paper copy of the notice and map was mailed Wednesday, June 12, 2019. Copies of the draft design-build contract will be available for viewing at the public hearing. These documents can viewed prior to the public hearing at the TxDOT Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-6643, or on TxDOT's website at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>.

We look forward to seeing you at this public hearing.

Thank you,

Highland Oaks Church of Christ

Texas Legislature further loosens state's gun laws

Continued from Page 1B

The bill was filed in response to calls from pro-gun groups who said Texas couldn't arm themselves when Hurricane Harvey hit the Gulf Coast in 2017. Under current state law, Texans who can legally own a firearm don't need an additional license to openly carry a long gun, like an AR-15, but they do need a license to carry a handgun.

Also beginning Sept. 1, landlords won't be able to ban renters from having guns in their apartments, and the state will no longer cap the number of armed marshals that can be designated at each public school campus.

The state's list of gun-free zones will also get a bit shorter that day.

Churches, mosques and synagogues in Texas have been off limits to gun owners, unless the congregation's leader expressly allowed firearms. On Sept. 1, that restriction will be lifted and houses of worship will be required to give notice in order to ban guns. This effort was spurred by the November 2017 massacre of 26 people, including a pregnant woman, at the First Baptist Church of Sutherland Springs.

Abbott also approved several other laws to clear up gun storage rules at fast-food eateries and in cars parked at public schools, and to give legal cover to armed Texans who accidentally enter gun-free zones.

Chris Mies, the regional lobbyist for

AP Photo/Andrew H. Guthrie

Robert Burge held his daughter and his rifle as Marines and members of a swift water rescue team force from Tampa, Fla., responded to victims of flooding after Tropical Storm Harvey in 2017.

the NRA, called this year "highly successful."

"When you get 10 pro-Second Amendment bills to the governor and he signs them all, I would rank it up there with one of the most successful sessions we've had since I've been doing this," Mies said Monday.

This weekend, Abbott also approved the \$20 billion state budget without making any changes. He has the authority to do any single expenditure in the budget, but he approved \$1 million to be used for a public awareness campaign advocating for safe

state gun licensing rules failed to gain traction this year after House Speaker Dennis Bonnen, a Republican, lost his supporters for their pressure tactics. But their other efforts, from banning bump stocks to expanding gun-free zones, failed.

And Elva Mendosa, the deputy leader of the Texas chapter of Moms Demand Action for Gun Sense in America, "worried the new laws Abbott has signed will make people less safe."

"We definitely have our continued work cut out for us," Mendosa said. She hoped lawmakers would keep guns out of the hands of abusive spouses and poor so-called red flag laws to seize firearms from people the courts decide might be a danger to themselves or others, but they did not. "These are things that we are going to be working on next time."

The NRA affiliate in Texas had 100 bills on its watch list this year. While gun control efforts failed, Tripp said she was surprised to see some old favorites of the Democrats, like requiring private sellers to be federally licensed, come back this year.

"It's been a decade since we've seen some of this stuff that's been filed in Texas," she said of the effort to close the gun show loophole.

Rep. Rafael Angelidis knew his legislation had little chance of gaining the approval of the mostly Republican Legislature. But the Dallas Democrat, who filed several gun control bills this

year, did not expect Abbott to kill the bill he filed to restrict guns at airports, which received bipartisan support.

Bill vetoed

The governor vetoed House Bill 1058 because it "would impose an unacceptable constraint on the Second Amendment rights of law-abiding Texans," Abbott wrote in a statement. "The Legislature may have intended simply to keep firearms off the tarmac, but the bill as drafted would newly prohibit carrying in any part of the airport terminal building, even ahead of the TSA inspection checkpoint."

Angelidis said the governor's interpretation of his bill was wrong. It would have made it a crime for unauthorized people to carry guns for 100 yards or closer to boarding ramps, he said, a change officials at DFW International Airport and lawmakers from both parties supported.

Angelidis even worked with gun groups to ensure they wouldn't ask Abbott to veto the bill. "We bent over backwards," Angelidis said. "This is an agreed-to bill that has broad bipartisan support and we couldn't even get this done, so I am highly pessimistic that we can get any reasonable gun safety bills passed in the Texas Legislature with this governor in place."

Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and accomplished selection of a provider for general design-build contract (GBC) and the associated right-of-way maintenance agreement (RMA) that includes the design, development, construction, and operational maintenance of Interstate Highway 635 from 0+75 to 30+30 in Dallas County (I-635 LBJ East Project). The department has approved "grandfather" and permit the reconstruction of the existing site below managed lanes in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from right to left general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous bridge roads, and improvements to the I-635/30 interchange on the north side of the project. The Texas Transportation Commission (Commission) determined that the proposal submitted by Integrated Lane Constructors (ILC Contract) provides the approved best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the GBC and RMA.

Under the GBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole right to require the ILC Contract to provide right-of-way maintenance services for the I-635 LBJ East Project under a GBC for 10-year construction for four years. TxDOT may continue to use the project.

Pursuant to Transportation Code, Chapter 217, Subchapter G, TxDOT is submitting financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing: TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling: TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates: The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lanes policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes travel speed of 30 mph.

Competitive Facilities: TxDOT has the right to build any facilities at any time. There are no terms in the GBC related to competing facilities and there are no penalties associated with their construction.

Termination for Convenience: TxDOT has the right to terminate the GBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the GBC Contractor for the design and construction work already performed under the GBC and the costs of terminating subcontractors.

Toll Rates, based on demand projections and subject to Commission adoption, if it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (on today's \$)	2040 (on today's \$)
High	\$0.35	\$0.80
Low	\$0.30	\$0.53

Methodology for Incremental Toll Rates: Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.70/mile. The maximum rate will be established and adjusted, if warranted, upon RTC approval. This maximum rate cannot be exceeded during the first 180-days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lanes policy, which means that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged.
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Contractor Payments: There will be no contractor payments.

Public Hearing: TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Lakes Club at Chesapeake, 10805 Walnut Hill Lane, Dallas, Texas 75248. An open house will be held from 6:00 a.m. – 8:00 p.m., and the formal presentation will begin starting at 7:30 a.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by e-mail addressed to Mr. Brian La, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-8843, or by email to brla@dotd.texas.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft GBC will be made available for viewing at the public hearing and at TxDOT's Dallas District Office located at 4777 E. Highway 80, Mesquite, Texas 75150-8843, and can be accessed on TxDOT's website at ttdot.com. Copies of the draft GBC also will be furnished from TxDOT's Dallas District Office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the testimony received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing who have submitted questions and comments are encouraged to contact the TxDOT Dallas District Public Information Office at 974-220-4260. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided. Any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Trump amenaza con expulsar indocumentados

Mandatario anuncia deportaciones previo al arranque de su campaña de reelección

ASSOCIATED PRESS

Washington - El presidente de Estados Unidos, Donald Trump, amenazó el lunes con expulsar a millones de personas que viven en el país sin permiso de residencia, un día antes de lanzar de forma oficial su campaña de reelección.

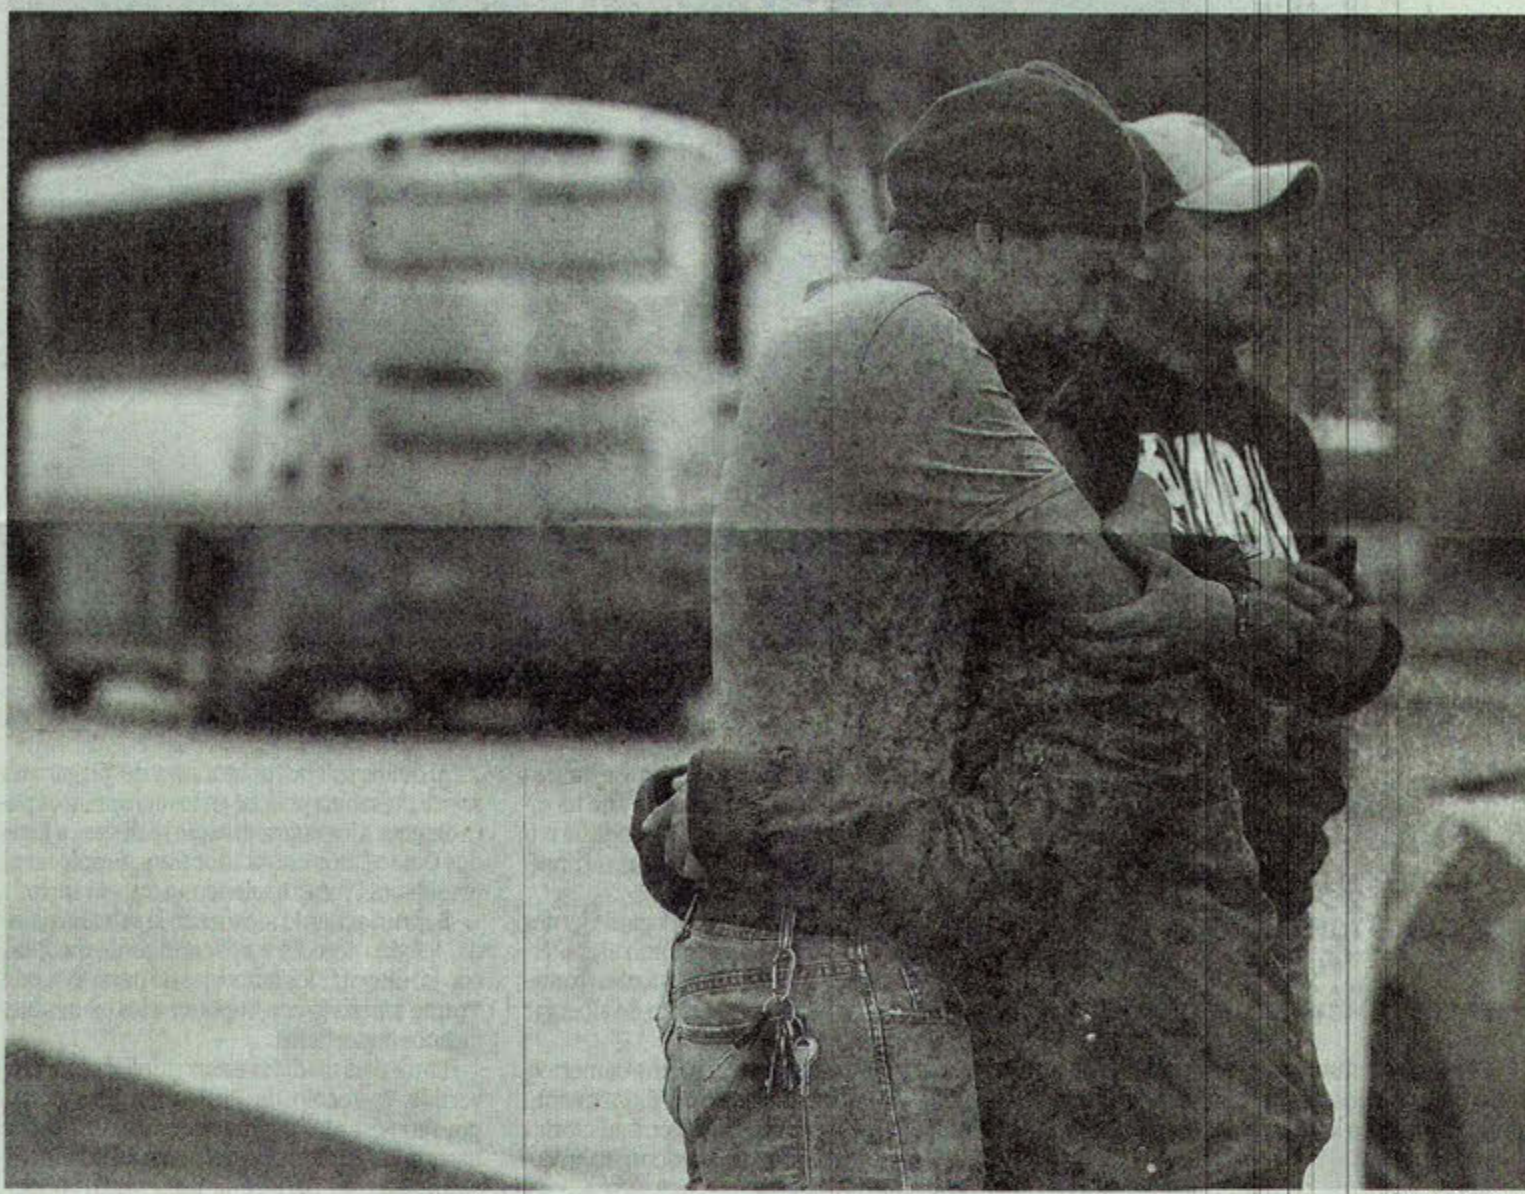

En un par de tuits a última hora, Trump dijo que la Agencia de Control de Inmigración y Aduanas (ICE) comenzará la semana que viene "el proceso de expulsar a los millones de extranjeros ilegales que se abierro paso a Estados Unidos de forma ilícita".

"Los expulsaremos tan rápido como lleguen", dijo a sus seguidores en Twitter.

La campaña se centrará en más de un millón de personas que recibieron órdenes definitivas de deportación de jueces federales pero siguen libres en el país, según una fuente del gobierno. El funcionario habló bajo condición de anonimato para explicar los tuits del presidente.

No es habitual que las agencias de seguridad anuncien redadas antes de realizarse. Algunos miembros del gobierno de Trump creen que las demostraciones de fuerza, como arrestos masivos, pueden servir como disuasorios efectivos, enviando un mensaje a los que se plantean hacer el viaje a Estados Unidos de que no merece la pena.

Trump ha amenazado con varias medidas cada vez más drásticas en su intento de tener el flujo de migrantes centroamericanos que cruzan la frontera sur, que se ha suspendido durante su mandato. Hace poco lanzó una amenaza de imponer aranceles a México después de que el país aceptara desplegar a su guardia nacional y aumentar los esfuerzos de coordinación y control de

migración.

Hace tres semanas llegaban unos 4,200 migrantes diarios a la frontera de Estados Unidos, una cifra que ahora ha bajado a unas 2,600 personas, según un alto cargo

del gobierno mexicano.

Se espera que la inmigración sea un tema central de la campaña de reelección de Trump, que el mandatario empleará con frecuencia para movilizar a sus bases en la

campaña para 2020.

Trump tenía previsto lanzar su campaña el martes por la noche con un mitin en Orlando, Florida, un estado crucial para conseguir otro mandato.

Facebook tendrá su propia moneda

ASSOCIATED PRESS

San Francisco - Facebook lanzará una nueva moneda virtual para hacer el comercio electrónico más accesible a más gente en todo el mundo.

El gigante de las redes sociales presentó Libra, una criptomoneda que está creada con más de dos docenas de socios, incluyendo Uber, PayPal, Visa y Spotify.

La moneda digital estará respaldada por una reserva de divisas de todo el mundo que podrían incluir dólar estadounidense, euro y yen.

La moneda de Facebook, sobre la que había rumores desde hacía tiempo, se lanzará al público a principios del próximo año. Es probable que genere preocupaciones de privacidad entre quienes recelan de ofrecer más información personal a la plataforma.

Pero Facebook dijo que mantendrá sus datos financieros seguros y separados de los de

sus plataformas sociales.

Libra estará gobernada por un grupo sin ánimo de lucro compuesto por las empresas y organizaciones no gubernamentales fundadoras.

Departamento de Transporte de Texas Aviso de Audiencia Pública Divulgación de Información Financiera Proyecto Carretera Interestatal 635 (I-635) LBJ East

DIVULGACIÓN DE INFORMACIÓN FINANCIERA: Conforme a la autoridad concedida bajo Código de Transporte de Texas, Capítulo 223, Subcapítulo F, el Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) ha solicitado propuestas y recomendado la selección de un proponente para adjudicar un contrato de diseño y construcción (DBC, por sus siglas en inglés) y el asociado acuerdo de mantenimiento de capital (CMA, por sus siglas en inglés) que incluye el diseño, desarrollo, construcción y mantenimiento potencial de la Carretera Interestatal 635 desde la US 75 hasta la I-30 en el Condado de Dallas (Proyecto I-635 LBJ East). El departamento ha aceptado proteger y permitir la reconstrucción de un carril existente de peaje en cada dirección como parte del alcance del proyecto. El proyecto incluirá la reconstrucción completa y la ampliación de la instalación de ocho a diez carriles de uso general y la reconstrucción completa de los carriles de peaje existentes, para un total de 12 carriles de uso general y de peaje, construcción de vías laterales continuas y mejoramientos al intercambio de la I-635/I-30. El 30 de mayo de 2019, en la Orden de Minutos 115486, la Comisión de Transporte de Texas (Comisión) determinó que la propuesta presentada por Pegasus Link Constructors (Contratista de Diseño y Construcción) proporciona el mejor valor aparente a TxDOT y autorizó a TxDOT para que iniciara y completara las negociaciones necesarias para finalizar el DBC y el CMA.

Bajo el DBC, el trabajo de construcción comenzará a finales de 2019 o principios de 2020 y el proyecto está programado para sustancialmente completarse a finales de 2024. A más tardar de un tiempo especificado antes de la finalización, TxDOT podrá ejercer su única opción de requerir que el Contratista de Diseño y Construcción proporcione servicios de mantenimiento capital para el Proyecto I-635 LBJ East bajo el CMA por hasta tres términos consecutivos de cinco años. El proyecto le pertenece y le seguirá perteneciendo a TxDOT.

Conforme al Código de Transporte, Capítulo 371, subcapítulo D, TxDOT está publicando información financiera sobre el proyecto y proporciona un aviso de una audiencia pública que se llevará a cabo sobre la divulgación financiera.

Financiación de Proyecto. TxDOT tiene la intención de financiar el Proyecto con fuentes de financiación federales y estatales. No se ha asumido ni se asumirá ninguna deuda para adquirir, diseñar, construir, operar y mantener el Proyecto.

Duración de Peaje. TxDOT colectará peajes en el Proyecto I-635 LBJ East basado en la directiva más actual del Consejo de Transporte Regional (RTC, por sus siglas en inglés), aunque no hay deuda que pagar.

Método Para Establecer Tarifas de Peaje. Las tarifas iniciales serán establecidas por la Comisión de acuerdo con la directiva de carriles de peaje establecida por el RTC. La directiva establece un precio de horario fijo durante los primeros seis meses y precios dinámicos a partir de ese entonces. Conforme a la directiva de carriles de peaje, peajes para el periodo inicial de 180 días no serán mayores que la tarifa máxima de peaje que se describe a continuación. Después del periodo inicial, las tarifas de peaje se basarán en la demanda del usuario, como se describe a continuación. La tarifa de peaje se establecerá para mantener una velocidad promedio mínima de 50 mph para los carriles de peaje.

Instalaciones Competidoras. TxDOT tiene el derecho de construir cualquier instalación en cualquier momento. No hay términos en el DBC relacionados con las instalaciones de competencia y no hay penalidades asociadas con su construcción.

Terminación por Conveniencia. TxDOT tiene el derecho de poner fin a el DBC en cualquier momento sin causa. Si TxDOT elige ejercer este derecho, TxDOT debe pagar al Contratista de Diseño y Construcción por el trabajo de diseño y construcción ya realizado bajo el DBC y los costos de poner fin a subcontratos.

Tarifas de Peaje. Basado en proyecciones de demanda y sujeto a la adopción de la Comisión, se estima que las tarifas de peaje cobradas serán las siguientes:

Precio por Milla	2023 (en \$ de hoy)	2040 (en \$ de hoy)
Alto	\$0.35	\$0.82
Bajo	\$0.30	\$0.53

Metodología para aumentar las tarifas de peaje. Conforme a la directiva de carriles de peaje, la máxima tarifa inicial de peaje es \$0.75/milla. La tarifa establecida será evaluada y ajustada, si se justifica, con aprobación del RTC. Esta tarifa máxima de peaje no puede ser superada durante los primeros 180 días posteriores al inicio de las operaciones de tráfico en los carriles de peaje. Después de los primeros 180 días, precios dinámicos entran en efecto, según lo requerido por la directiva de carriles de peaje del RTC, lo cual significa que, después de los primeros 180 días:

- Si la demanda es baja, como durante las horas de menor actividad, se cobrará una tarifa de peaje más baja;
- Si la demanda es alta, como durante las horas de altos viajes, se aplicará una tarifa de peaje más alta.

Pagos de Concesión. No habrá pagos de concesión.

Audiencia Pública. TxDOT llevará a cabo una audiencia pública sobre esta divulgación de información financiera para el Proyecto I-635 LBJ East el jueves, 18 de julio de 2019 en Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. Una exhibición abierta al público se llevará a cabo desde 6:00 p.m. - 8:00 p.m., y la presentación formal tomará lugar a partir de las 7:00 p.m.

Preguntas y comentarios sobre la información financiera serán aceptados por TxDOT en la audiencia pública. Preguntas y comentarios también pueden ser enviados a TxDOT por correo dirigido a Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, o por correo electrónico a grace_lo@txdot.gov. Estos comentarios serán aceptados hasta las 5:00 p.m., 1 de agosto de 2019. Copias del borrador del DBC estarán disponibles para su inspección en la audiencia pública y en la oficina del Distrito de Dallas de TxDOT ubicada en 4777 E. Highway 80, Mesquite, Texas 75150-6643, y se puede acceder en el sitio web de TxDOT en <https://www.txdot.gov/inside-txdot/division/dbc/strategic-projects/alternative-delivery/tj-east/rfp.html>. Copias del borrador del DBC también pueden ser compradas en la oficina del Distrito de Dallas de TxDOT al costo de reproducción. TxDOT considerará todas las preguntas y comentarios debidamente entregados y preparará un resumen y análisis de los comentarios recibidos. El resumen y análisis se publicará en el sitio web de TxDOT y estará disponible según se solicita. Personas interesadas en asistir a (a) las audiencias que tienen necesidades especiales de comunicación o alojamiento son recomendadas a comunicarse con la Oficina de Información Pública del Distrito de Dallas de TxDOT al (214) 320-4480. Solicitudes deberían hacerse al menos 72 horas antes de la audiencia pública. La audiencia pública se realizará en inglés y se brindará interpretación en español; cualquier solicitud de otras necesidades especiales de comunicación deberían hacerse al menos 72 horas antes de la audiencia pública. TxDOT hará todos los esfuerzos razonables para satisfacer estas necesidades.

AVISO DE AUDIENCIA PÚBLICA DE DART

January 2020 Fare Restructure

La Junta Directiva de DART ha convocado a una audiencia pública, misma que será precedida por un par de reuniones previas a la audiencia pública, para debatir ajustes propuestos a la estructura de tarifas. Estos cambios, que entrarán en vigor el 1 de enero de 2020, incluirían lo siguiente:

- **Introducción de un programa piloto con duración de dos años que expandiría la categoría de Tarifa Reducida con el fin de incluir a personas inscritas en SNAP, TANF, CEAP, Medicaid, y otros grupos de bajos ingresos**
- **Revisión de la política de tarifa para requerir su pago íntegro en Love Link (servicio de enlace entre el aeropuerto Love Field y la estación Inwood/Love) y expansión del servicio de transporte gratuito en Jornadas Electorales (Election Day) con el fin de incluir a clientes de Paratransito**

REUNIONES PREVIAS A LA AUDIENCIA PÚBLICA

Martes, 2 de julio de 2019 - 12:00 p.m. & 6:30 p.m.

Sede de DART (Sala de la Junta)
1401 Pacific Ave., Dallas, Texas 75202

AUDIENCIA PÚBLICA

Martes, 9 de julio de 2019 - 6:30 p.m.

Sede de DART (Sala de la Junta)
1401 Pacific Ave., Dallas, Texas 75202

Para obtener más información Por favor comuníquese con el departamento de Participación de la comunidad de DART (DART Community Engagement) al 214-749-2543 o visite DART.org/meetings para acceder al horario completo de reuniones comunitarias.

Dallas mayor, City Council members sworn in

Special to The Dallas Examiner

In a Monday morning ceremony, the newly elected Dallas mayor and City Council members were officially sworn in at the AT&T Performing Arts Center Margot and Bill Winspear Opera House. The term for Mayor Eric Johnson will run through 2023. The term for the Dallas City Council members will run through 2021.

Until recently, Johnson represented the city of Dallas in the Texas House of Representatives for the past decade.

As the 60th elected mayor of Dallas, he outlined his vision for the city during the inauguration ceremony, focusing on ethics reform, education and workforce development, public safety, and using data to foster innovation.

"Dallas voters did more than cast a vote on June 8, they cast a vision. They made a clear choice about who they want to be and where they want to go. Our mission in the coming years will be to fulfill this vision for our city. To create a brighter future and to build an even better Dallas — a Dallas that works for every person, in every neighborhood," he said.

Johnson also vowed to work with Dallas City Council, the city manager and Dallas chief of police to address building a more unified and safer city.

"I look forward to working with Mayor Johnson and the new council to realize their vision for the city of Dallas," said City Manager T.C. Broadnax. "My hope is their fresh ideas and optimism permeate City Hall and that we

Eric Johnson is sworn in as Dallas' new mayor. — Photo courtesy of the city of Dallas

can challenge each other to improve the lives of Dallas residents."

In addition to the mayor, six new council members join eight council members who were reelected to another term. The new council met at City Hall in Council Chambers for their first meeting, and elected Councilman Adam Medrano as mayor pro tem and Councilman B. Adam McGough as deputy mayor pro tem.

Around the State

Special to The Dallas Examiner

DALLAS

More than 150 Dallas ISD schools will offer students free breakfast and lunch over the summer.

The Summer Food Service Program kicked off June 3 to offer free meals to children and youth 18 years and younger at participating sites throughout Dallas. Any child that arrives for breakfast and/or lunch will receive a healthy meal. No registration is needed.

The program is designed to ensure no child will go hungry, even when school is not in session.

To find a participating location, as well as dates and times meals are offered, visit <https://www.dallasisd.org/fcns>.

DALLAS

To honor this year's Juneteenth celebration of freedom, #BeGolden brought the values of respect, empathy and compassion into focus by contributing 16 "Golden Tables" to Dallas-area community centers, including Martin Luther King Jr. Community Center where the annual Juneteenth Celebration took place.

Golden Tables were painted gold and featured a plaque that stated, "May we always be welcoming and gather around the table in the spirit of the Golden Rule: 'Treat others as you would like to be treated.'"

#BeGolden was designed to help Dallas build a more welcoming community. The tables were meant to be a lasting way to remind everyone that "we are all neighbors" and it's up to everyone to make each other feel welcome.

#BeGolden is based on the Golden Rule, a principle that rings true for every culture and every faith. It began as an initiative of Bishop Edward Burns and the Diocese of Dallas and is supported by the mayor's office, as well as many other civic, faith, business and school leaders.

The initiative exists to build a more welcoming community in the Dallas area and beyond. It aims to educate, inspire and generate action helping to create a world where residents, visitors and immigrants are treated the way everyone wants to be treated, and encourage others to do the same.

Since it was launched in April 2018, the initiative has been a part of conversations in many organizations across Dallas and has spread to San Antonio and Louisville, Kentucky.

DALLAS

UT Southwestern Medical Center and the Association of Persons Affected by Addiction will join forces to host "Recovery Orientated Communities of Care Addressing Mental Health and Substance Use in the Community."

The five-week training is a service presented to promote recovery and wellness in the South Dallas community.

Classes will be held June 15 through July 6, with morning classes from 11 a.m. to noon, and afternoon classes from 1 p.m. to 2 p.m., at APAA, located at 3116 Martin Luther King Blvd. For more information, call 214-634-2222 or visit <http://www.apaarecovery.org>.

DALLAS

The Real Estate Council will present five free monthly workshops, from August to December, to help nonprofits and faith organizations manage their real estate. The course is offered only to senior level nonprofit leaders.

Workshops will include: Real Estate Planning, Leasing vs. Owning, City Planning & Zoning, and Design & Construction.

Registration deadline is June 21. For more information and registration, call 214-692-3604 or visit <http://www.reconcouncil.com/trec-foundation>.

DALLAS

The South Dallas/Fair Park Public Improvement District will host a clean-up effort June 22 from 8:30 a.m. to noon to introduce itself to the community before its annual owners meeting at Southside Studios, located at 2901 Lamar St.

Volunteers are needed. Breakfast, T-shirts and cleaning supplies will be provided. For more information and registration, email candacef@urbanspecialists.org or visit <https://www.eventbrite.com>.

DALLAS

SCORE, a workshop aimed at getting you to understand what it takes to start a small business, hosted by the SCORE Dallas Chapter, a nonprofit comprised of retired business executives, will be held June 22 from 10 a.m. to noon at Bill J Priest Center, Room No. 1215, located at 1402 Corinth St.

Workshops will include: Skill-building, Finances, Market Assessment, Business Goals and Business Planning. SCORE mentors will also be available for support after the

course. For more information and registration, call 214-987-9491 or visit <https://dallas.score.org>.

PRAIRIE VIEW

Youth Summit on Improving the Outcomes of African American and Latinx Males, hosted by the Texas Juvenile Crime Prevention Center and the Minority Achievement Creativity and High Ability Center at Prairie View A&M University, will be held Aug. 5 and Aug. 6.

Stakeholders can exchange ideas and best practices, learn about different processes for organizational development and sustainability, as well as to learn about the current trends and educational changes affecting young Black and Latino males.

"We know that it is often a few hard working people, with limited resources and a mission, who come together to support students and develop these intervention programs. Our purpose for the summit is to provide the leadership of various organizations with the tools they need to sustain their respective programs," said Dr. Fred A. Bonner II, professor and endowed chair in the Department of Educational Leadership and Counseling and executive director of the MACHIII Center.

The keynote speaker will be Dr. Luis Ponjuan, an associate professor in Educational Administration and Human Resources Development Department and research director of the Investing in Diversity, Equity, Access and Learning Research project at Texas A&M University. He is also co-founder of Project MALES, a research and mentoring program.

The first day of the summit will focus on sharing best practices and learning about the various programs and community organizations participating in this event. The second day of the summit will consist of capacity-building training focused on assessment and sustainability.

The summit is designed for organizations that are working to improve African American and Latinx male youth outcomes. Anyone interested should complete a program inventory at <http://bit.ly/2HySppb> for an invitation to attend.

For information, visit <http://www.pvamu.edu/mach-iiicenter/programs-2/summit>.

Texas Department of Transportation Notice of Public Hearing Disclosure of Financial Information Interstate Highway 635 (I-635) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of a design-build contract (DBC) and the associated capital maintenance agreement (CMA) that includes the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to "grandfather" and permit the reconstruction of the existing one tolled managed lane in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from eight to ten general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635/I-30 interchange. On May 30, 2019, in Minute Order 115486, the Texas Transportation Commission (Commission) determined that the proposal submitted by Pegasus Link Constructors (DB Contractor) provides the apparent best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the DBC and CMA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole option to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 371, subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing. TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling. TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates. The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lane policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 50 mph.

Competing Facilities. TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to competing facilities and there are no penalties associated with their construction.

Termination for Convenience. TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontracts.

Toll Rates. Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.53

Methodology for increasing toll rates. Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.75/mile. The established rate will be evaluated and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:

If demand is low, such as during off-peak hours, a lower toll rate will be charged;
If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments. There will be no concession payments.

Public Hearing. TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. An open house will be held from 6:00 p.m. – 8:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, or by e-mail to grace.lo@txdot.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-6643, and can be accessed on TxDOT's website at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>. Copies of the draft DBC also may be purchased from TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Mesquite Main Library meeting room, 300 West Grubb Drive
 • **Teen Lego Club; 3-4 p.m.**
 The Teen Lego Club meets on Saturdays. Come and exercise your creativity and engineering skills. Open to Teens ages 11-18. For more information, call the Main Library at 972-216-6220.
 • **Kids Lego Club; 4-5 p.m.**

JUNE 25 MARTY WESTERMAN MAGIC

2-2:45 p.m.
Mesquite Main Library, 300 West Grubb Drive
 Close-up magic, mime, master balloon artist. Recommended for ages 12 and under. For more information, call the Main Library at 972-216-6220.

IRRIGATION QUICK FIXES

6-7:30 p.m.
Mesquite City Hall, 757 N. Galloway
 This class will explain how your irrigation system works and will cover simple repairs most homeowners can make. It will include how to set your controller and best watering practices for a healthy lawn. Attendees will receive free Irrigation Flags.

STAR

From PAGE TWO
 Henricks graduated with a Bachelor of Business Administration in Finance from Rawls College of Business, Texas Tech University. He was named the Texas Transit Association 2019

Rising Star and graduated as part of the 2018 Texas Transit Leadership Initiative.

Along with the change in Hawkins's role, Sims, has resigned as Deputy Executive Director effective later this summer.

"We are positioned well to take on new challenges and I

look forward to working with Omega and members of our team in the months ahead," said Henricks. "Public transit is of great importance to our quality of life; whether providing rides to jobs to healthcare services to grocery and retail centers or to simply pursue recreational opportunities."

US 80

From PAGE ONE

proximately 2,000 feet wide at the I-635 interchange.

The proposed improvements would require approximately 25 acres of additional ROW and 0.2 acre of permanent easements. The proposed project would also displace four businesses – two fast food restaurants, a vacant office building, and a self-storage facility building.

There are five segments to the corridor; the first section goes from Lawson Road to FM 460, about 1.98 miles, according to Jae Baag, TxDOT Dallas District.

The total construction funding needed is \$133 million; funded is \$117 million and \$16 million is unfunded.

"This project (Phase 1) is needed to meet future travel demands stemming from projected population growth and traffic volumes," Baag said. "This project will improve mobility, bring the roadway up to current design standards, improve access to businesses along the corridor."

The project includes the reconstruction and widening of US 80 from a four-lane divided section to a six- to eight-lane divided section; reconstruction of the I-635/US 80 connections; add continuous frontage roads along I-635 between Town Centre and Gross Road, and construction intersection improvements at the Town Centre and Gross Road intersection.

TxDOT will hold a public hearing and draft environmental assessment for this at the Mesquite Convention Center/Hampton Inn – Salon A, June 25. The public hearing portion begins at 7 p.m.

"This project (Phase 1) is needed to meet future travel demands stemming from projected population growth and traffic volumes."

– JAE BAAG, TxDOT DALLAS DISTRICT

Texas Department of Transportation Notice of Public Hearing Disclosure of Financial Information Interstate Highway 635 (I-635) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of a design-build contract (DBC) and the associated capital maintenance agreement (CMA) that includes the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to "grandfather" and permit the reconstruction of the existing one tolled managed lane in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from eight to ten general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635/I-30 interchange. On May 30, 2019, in Minute Order 115486, the Texas Transportation Commission (Commission) determined that the proposal submitted by Pegasus Link Constructors (DB Contractor) provides the apparent best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the DBC and CMA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole option to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 371, subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing. TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling. TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates. The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lane policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 50 mph.

Competing Facilities. TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to competing facilities and there are no penalties associated with their construction.

Termination for Convenience. TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontracts.

Toll Rates. Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.53

Methodology for increasing toll rates. Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.75/mile. The established rate will be evaluated and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged;
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments. There will be no concession payments.

Public Hearing. TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. An open house will be held from 6:00 p.m. – 8:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, or by e-mail to grace_lo@txdot.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-6643, and can be accessed on TxDOT's website at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>. Copies of the draft DBC also may be purchased from TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

PUBLIC SAFETY BRIEFS

DALLAS

Worker accused of injuring person at autism center

An employee at the Autism Treatment Center in Dallas faces a charge of injury to a disabled person after a fellow employee said he kicked a patient in the stomach, knocking out several teeth. Dallas police issued a warrant Monday for Troy Odell Freeman, 49, who is accused in the June 14 incident. Freeman was suspended until investigators finish the case, executive director Anna Hantley said in a written statement. Police said the center's director, Carolyn Garvor, told them the patient had facial injuries and was missing several teeth, according to the affidavit. She told police that Freeman said the patient had ran into a door. Investigators said they did not find blood on the doorframe and couldn't find the teeth. The victim has autism, is non-verbal and couldn't be interviewed, according to the affidavit. Another employee, however, said he'd heard Freeman say, "Don't you even," and turned around and saw him kick the victim in the face, according to the affidavit. When investigators interviewed Freeman on June 26, he insisted the victim had run into a doorframe, according to the affidavit. Freeman said the victim had previously been "kicked in an incident in October 2015 which caused an injury

to ... [Freeman's] hand," the affidavit said. The facility hasn't received complaints in the last three years, according to state records available online. *Steve Cebal*

FORT WORTH
Mental exam ordered for kidnapping suspect

A man accused of kidnapping a 5-year-old Fort Worth girl is May will undergo a mental evaluation to determine if he's competent to stand trial, federal court records show.

Michael Webb, 52, was ordered by a federal judge on Friday to undergo the exam after his lawyers raised concerns that he is potentially "suffering from a psychological impediment."

Webb is accused of kidnapping the child as she walked with her mother in a Fort Worth neighborhood. He pleaded not guilty last month to a federal kidnapping charge.

Federal prosecutors didn't oppose the motion by Webb's attorneys for the competency exam, and the exam will take place within the next month, according to court documents.

Additional court proceedings are delayed because of the exam.

In addition to his federal kidnapping charge, Webb is also accused of

WEST OAK CLIFF
Bicyclist killed when struck by DART train

A bicyclist was fatally struck Saturday night by a train at a West Oak Cliff station, Dallas Area Rapid Transit officials say.

The train hit the man about 9:30 p.m. at the Westwood Station, in the 2000 block of South Westwood Road, near West Illinois Avenue, DART spokesman Mark Bell said.

The Dallas County Medical Examiner's office identified the man as 33-year-old James Paul Harris. No additional details were available about the incident. The tracks were closed for about an hour after Harris was struck, Bell said. *Maura Elena Viscione*

RED BIRD
Boy fatally struck as he collected sports donations

A 12-year-old boy collecting donations for a youth football team was struck and killed Saturday afternoon while crossing a Red Bird street, Dallas police said.

Lightning is suspected as cause of house fire

A lightning strike may have started a fire at an east Fort Worth home Saturday night, officials say.

Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project

This notice replaces the previous notice that was published in the following newspapers on the following dates:

- The Dallas Morning News - Sunday, June 18, 2017
- El Paso - Wednesday, June 19, 2018
- The Dallas Examiner - Thursday, June 20, 2018
- Mustang News - Sunday, June 21, 2018

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code Chapter 223, Subchapter C, the Texas Department of Transportation (TxDOT) has selected proposals and instrumented selection Chapter 223, Subchapter C. The Texas Department of Transportation (TxDOT) has selected proposals and instrumented selection Chapter 223, Subchapter C. The Texas Department of Transportation (TxDOT) has selected proposals and instrumented selection Chapter 223, Subchapter C. The Texas Department of Transportation (TxDOT) has selected proposals and instrumented selection Chapter 223, Subchapter C.

Under the DSC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified date prior to completion, TxDOT may exercise its sole option to require the DSC Contractor to provide capital expenditure services for the I-635 LBJ East Project under a CMR for up to three consecutive five-year terms. TxDOT is encouraged and strongly encourages necessary to license the DSC and CMR.

Project Financing: TxDOT intends to fund the Project with federal and state funding sources. Its debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Public Hearing: Public will have access to the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) public, even though there is no debt to repay.

Method of Setting Toll Rates: The actual toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The public procedure for that process begins during the first six months and dynamic pricing procedure. Pursuant to the managed lanes policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be determined to maintain a minimum average managed lanes speed of 60 mph.

Commuting Facilities: TxDOT has the right to build stop facilities at any time. There are no terms in the DSC related to transporting facilities and there are no penalties associated with their construction.

Termination for Convenience: TxDOT has the right to terminate the DSC at any time without cause. If TxDOT elects to terminate this right, TxDOT must pay the DSC Contractor for the design and construction work already performed under the DSC and the costs of terminating subcontractors.

Toll Rates: Based on demand projections and subject to Commission approval, it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.42
Low	\$0.30	\$0.33

Methodology for Establishing Toll Rates: Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.35/mile. The actual toll rate will be determined and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing will take effect, as required by the RTC managed lanes policy, which means that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged.
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Commission Payments: There will be no commission payments.

Public Hearing: TxDOT will hold a public hearing concerning the disclosure of financial information for the I-635 LBJ East Project on Thursday, July 15, 2018 at the Highland Lake Church of Christ, 10650 Walnut Hill Lane, Dallas, Texas 75228. An open house will be held from 8:00 p.m. - 1:00 p.m., and the formal presentation will begin starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to the State C.E. Dallas District Office, 477 E. Highway 60, Mesquite, Texas 75150-0643, or by e-mail to grace.robles@txdot.gov. These comments will be accepted from 5:00 p.m. to 5:00 p.m., August 1, 2018. Copies of the draft DSC will be made available for viewing at the public hearing and at a website at www.txdot.gov/dsc (Dallas District Office located at 477 E. Highway 60, Mesquite, Texas 75150-0643), and can be accessed in TxDOT's Dallas District Office website www.txdot.gov/dsc or by email to grace.robles@txdot.gov. Delivery to TxDOT's Dallas District Office will be accepted from TxDOT's Dallas District Office at the cost of reproduction. TxDOT will consider all properly submitted comments and proposals and will conduct a summary and analysis of the comments and proposals. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons proposing to attend the public hearing will be notified via email at least 14 days prior to the public hearing. The public hearing will be conducted from 8:00 a.m. to 4:00 p.m. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided. Any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

La jefa de Policía de Dallas U. Renee Hall aseguró que su departamento debe mantener el más alto nivel de integridad.

DPD investiga varios agentes

Cuatro oficiales suspendidos por haber publicado comentarios ofensivos en Facebook

Por CASSANDRA JARAMILLO, PAUL COBLER AND EMMA RUBY/DMN

Cuatro oficiales de la policía de Dallas fueron puestos en suspensión administrativa y más de 20 están siendo investigados por comentarios que hicieron en Facebook, anunció la policía el viernes.

Los agentes recibieron cartas en las que se les notificaba de la investigación interna el viernes, cerca de un mes después de que The Plain View Project publicara una base de datos de años de comentarios públicos por oficiales de ocho departamentos de policía que según los recopiladores "podrían minar la confianza del público en la policía".

Los investigadores del proyecto registraron comentarios de veintenas de oficiales en activo y retirados de la policía de Dallas y su publicación dio motivo a una pronta reacción de algunos departamentos.

De los más de 5,000 posts archivados en la base de datos del proyecto, más de 300 eran de oficiales de Dallas en activo.

Entre las publicaciones había comentarios islamofóbicos, estereotipos raciales y chistes sobre brutalidad policiaca.

En un comunicado, la comandante de la policía de Dallas U. Renee Hall dijo que las conclusiones preliminares de los investigadores indican que 25 oficiales publicaron o compartieron material "que se determinó constituye una posible contravención" de las órdenes generales del departamento.

El código de conducta del departamento para medios sociales declara que los oficiales "son libres de expresarse como ciudadanos particulares en los medios sociales" siempre y cuando eso "no afecte las relaciones de trabajo del departamento, impida el desempeño de sus obligaciones, socave la disciplina y armonía entre los compañeros de trabajo, o afecte de manera negativa la imagen pública del departamento".

Hall afirmó que la corporación "toma muy en serio estos asuntos y quiere asegurarle a la comunidad que no toleraremos el racismo, el fanatismo o el odio de forma alguna en nuestra institución".

"El Departamento de Policía de Dallas se enorgullece de mantener las más elevadas normas de ética e integridad al brindar su servicio a la comunidad sin prejuicios", declaró Hall en el comunicado.

El departamento no identificó a los cuatro oficiales que fueron puestos en suspensión administrativa.

Bob Gorksy, abogado de la Asociación de Policías de Dallas, dijo antes el viernes que no tenía información sobre los oficiales o comentarios investigados.

Hasta que se sepa más de la indagación, dijo Gorksy, el DPD "habrá de abocarse menos a ser la policía de las ideas y más a las verdaderas necesidades policiales de la ciudad".

Si se determina que los oficiales violaron la política del departamento, podrían ser sometidos a medidas disciplinarias, tales como una amonestación, suspensión o has-

ta despido, según las órdenes generales del departamento.

Terrance Hopkins, presidente de la Asociación de Policías Afroamericanos de Dallas Metropolitana, dijo que algunos comentarios recopilados en el estudio "son verdaderamente perturbadores" y que no deberían ser dichos "por agentes de la ley ni por nadie".

Hopkins dijo que "una completa e imparcial investigación se encargará de separar el odio y los comentarios prejuiciados de los comentarios que simplemente expresan decepción por los actos insensatos y cruentos que los oficiales ven todos los días".

Varios abogados de Filadelfia publicaron la base de datos en junio. El mensaje introductorio del proyecto hace un llamado a la "justicia, tratamiento igualitario e integridad" en el ejercicio de la labor policial.

Algunos departamentos de policía reaccionaron rápidamente a la publicación.

En Filadelfia, más de 70 oficiales fueron retirados de las calles el pasado mes.

La jefa de la policía de Phoenix, Jeri Williams, lamentó los comentarios por agentes de su departamento calificándolos de "bochornosos y perturbadores" poco después de ser publicada la base de datos en línea, de acuerdo con KSAZ-TV de Phenix.

Doce oficiales fueron asignados a actividades no policiales, confirmó el vocero de la policía de Phoenix Tommy Thompson a través de un email.

En una declaración el 7 de junio en Twitter, la policía de Dallas dijo que estaba trabajando con los investigadores para determinar cuales comentarios infringían el código del departamento.

Algunos comentarios de policías de Dallas celebraban el uso de la fuerza; otros critican a grupos como los musulmanes, las mujeres y personas transgénero.

El mes pasado, el Consejo de Relaciones Islámico-Americanas hizo un llamado a dar capacitación sobre diversidad a todos los policías de Dallas en vista de comentarios "que diseminan la islamofobia y glorifican el racismo y la violencia policiaca".

Emily Baker-White, directora ejecutiva de Plain View Project, dijo en una entrevista que su equipo revisó los comentarios de los policías de Dallas en parte para analizar las divisiones raciales en la ciudad a raíz la emboscada del 7 de julio de 2016 en que murieron cinco oficiales.

En ese ataque, un veterano afroamericano del ejército disparó contra oficiales blancos al final de una manifestación por la muerte de hombres afroamericanos desarmados por agentes de policía en otras ciudades.

Baker-White dijo que también quería variedad entre las ciudades analizadas "para que no se vieran igual".

"Queríamos [ciudades] grandes y pequeñas, urbanas y rurales, para darnos una idea de cómo son las relaciones entre la policía y la comunidad", dijo.

Baker-White reveló que ha tenido varias conversaciones con los investigadores de asuntos internos de la policía de Dallas desde la publicación de la base de datos y que dio al departamento información adicional.

"Esperamos que esto aleje el discurso en el departamento de la mentalidad del 'ellos contra nosotros' hacia una mentalidad de vigilancia comunitaria", dijo.

Hall dijo que seguirá informando al público sobre los hallazgos de la investigación.

RYAN MICHALESKO/DMN

El monumento memorial en honor de los agentes caídos el 7 de julio de 2016.

Monumento honra a los agentes muertos en 2016

Se cumplen tres años de la peor tragedia policial en la historia de la ciudad

DMN

Autoridades de la ciudad develaron el lunes una escultura en honor a los cinco agentes de policía asesinados por un francotirador en el centro de Dallas hace tres años.

El domingo se conmemoraron tres años desde que Micah Johnson abrió fuego durante una manifestación pacífica.

Johnson, veterano del ejército, mató a cuatro agentes de la policía de Dallas y a un guardia de transporte público. La poli-

cía ultimó a Johnson con un aparato explosivo montado en un robot.

El 7 de julio de 2016 es considerado el día más cruento para las fuerzas policiales de Estados Unidos, después de los atentados terroristas del 11 de septiembre de 2001.

La escultura en honor a los oficiales Lorne Ahrens, Michael Krol, Michael Smith y Patrick Zamarripa de la policía de Dallas, y el guardia Brent Thompson de Dallas Area Rapid Transit, fue develada el lunes frente a la sede de la policía.

El centro de Dallas una vez más fue escenario de un incidente armado el mes pasado cuando un hombre enmascarado atacó una corte federal. El perpetrador fue el único muerto.

Departamento de Transporte de Texas
 Aviso de Audiencia Pública Divulgación de Información Financiera
 Proyecto Carretera Interestatal 635 (I-635) LBJ East

Este aviso reemplaza los avisos previamente publicados en los siguientes periódicos en las siguientes fechas:

- The Dallas Morning News - martes, 18 de junio de 2019
- Al Día - miércoles, 19 de junio de 2019
- The Dallas Examiner - jueves, 20 de junio de 2019
- Mesquite News - jueves, 20 de junio de 2019

DIVULGACIÓN DE INFORMACIÓN FINANCIERA: Conforme a la autoridad concedida bajo Código de Transporte de Texas, Capítulo 223, Subcapítulo F, el Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) ha solicitado propuestas y recomendado la selección de un proponente para adjudicar un contrato de diseño y construcción (DBC, por sus siglas en inglés) y el asociado acuerdo de mantenimiento de capital (CMA, por sus siglas en inglés) que incluye el diseño, desarrollo, construcción y mantenimiento policial de la Carretera Interestatal 635 desde la US 75 hasta la I-30 en el Condado de Dallas (Proyecto I-635 LBJ East). El departamento ha aceptado proteger y permitir la reconstrucción de un carril existente de peaje en cada dirección como parte del alcance del proyecto. El proyecto incluirá la reconstrucción completa y la ampliación de la instalación de ocho a diez carriles de uso general y la reconstrucción completa de los carriles de peaje existentes, para un total de 12 carriles de uso general y de peaje, construcción de vías laterales continuas y mejoramientos al Intercambio de la I-635-A-30. El 30 de mayo de 2019, en la Orden de Minutos 115486, la Comisión de Transporte de Texas (Comisión) determinó que la propuesta presentada por Pegasus Link Constructors (Contratista de Diseño y Construcción) proporciona el mejor valor aparente a TxDOT y autorizó a TxDOT para que iniciara y completara las negociaciones necesarias para finalizar el DBC y el CMA.

Bajo el DBC, el trabajo de construcción comenzará a finales de 2019 o principios de 2020 y el proyecto está programado para sustancialmente completarse a finales de 2024. A más tardar de un tiempo especificado antes de la finalización, TxDOT podrá ejercer su única opción de requerir que el Contratista de Diseño y Construcción proporcione servicios de mantenimiento capital para el Proyecto I-635 LBJ East bajo el CMA por hasta tres términos consecutivos de cinco años. El proyecto le pertenece y le seguirá perteneciendo a TxDOT.

Conforme al Código de Transporte, Capítulo 371, Subcapítulo D, TxDOT está publicando información financiera sobre el proyecto y proporciona un aviso de una audiencia pública que se llevará a cabo sobre la divulgación financiera.

Financiación de Proyecto. TxDOT tiene la intención de financiar el Proyecto con fuentes de financiación federales y estatales. No se ha asumido ni se asumirá ninguna deuda para adquirir, diseñar, construir, operar y mantener el Proyecto.

Duración de Peaje. TxDOT coleccionará peajes en el Proyecto I-635 LBJ East basado en la directiva más actual del Consejo de Transporte Regional (RTC, por sus siglas en inglés), aunque no hay deuda que pagar.

Método Para Establecer Tarifas de Peaje. Las tarifas iniciales serán establecidas por la Comisión de acuerdo con la directiva de carriles de peaje establecida por el RTC. La directiva establece un precio de horario fijo durante los primeros seis meses y precios dinámicos a partir de ese entonces. Conforme a la directiva de carriles de peaje, peajes para el periodo inicial de 180 días no serán mayores que la tarifa máxima de peaje que se describe por continuación. Después del periodo inicial, las tarifas de peaje se basarán en la demanda del usuario, como se describe por continuación. La tarifa de peaje se establecerá para mantener una velocidad promedio mínima de 50 mph para los carriles de peaje.

Instalaciones Competidoras. TxDOT tiene el derecho de construir cualquier instalación en cualquier momento. No hay términos en el DBC relacionados con las instalaciones de competencia y no hay penalidades asociadas con su construcción.

Terminación por Conveniencia. TxDOT tiene el derecho de poner fin a el DBC en cualquier momento sin causa. Si TxDOT elige ejercer este derecho, TxDOT debe pagar al Contratista de Diseño y Construcción por el trabajo de diseño y construcción ya realizado bajo el DBC y los costos de poner fin a subcontratos.

Tarifas de Peaje. Basado en proyecciones de demanda y sujeto a la adopción de la Comisión, se estima que las tarifas de peaje cobradas serán las siguientes:

Precio por Milla	2023 (en \$ de hoy)	2040 (en \$ de hoy)
Alto	\$0.35	\$0.82
Bajo	\$0.30	\$0.53

Metodología para aumentar las tarifas de peaje. Conforme a la directiva de carriles de peaje, la máxima tarifa inicial de peaje es \$0.75/milla. La tarifa establecida será evaluada y ajustada, si se justifica, con aprobación del RTC. Esta tarifa máxima de peaje no puede ser superada durante los primeros 180 días posteriores al inicio de las operaciones de tráfico en los carriles de peaje. Después de los primeros 180 días, precios dinámicos entran en efecto, según lo requerido por la directiva de carriles de peaje del RTC, lo cual significa que, después de los primeros 180 días:

- Si la demanda es baja, como durante las horas de menor actividad, se cobrará una tarifa de peaje más baja;
- Si la demanda es alta, como durante las horas de altos viajes, se aplicará una tarifa de peaje más alta.

Pagos de Concesión. No habrá pagos de concesión.

Audiencia Pública. TxDOT llevará a cabo una audiencia pública sobre esta divulgación de información financiera para el Proyecto I-635 LBJ East el jueves, 18 de julio de 2019 en Highland Oaks Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. Una exhibición abierta al público se llevará a cabo desde 6:00 p.m. - 8:00 p.m., y la presentación formal tomará lugar a partir de las 7:00 p.m.

Preguntas y comentarios sobre la información financiera serán aceptados por TxDOT en la audiencia pública. Preguntas y comentarios también pueden ser enviados a TxDOT por correo dirigido a Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-6643, o por correo electrónico a grace.lo@txdot.gov. Estos comentarios serán aceptados hasta las 5:00 p.m., 1 de agosto de 2019. Copias del borrador del DBC están disponibles para su inspección en la audiencia pública y en la oficina del Distrito de Dallas de TxDOT ubicada en 4777 E. Highway 80, Mesquite, Texas 75150-6643, y se puede acceder en el sitio web de TxDOT en <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/ij-east/rfp.html>. Copias del borrador del DBC también pueden ser compradas en la oficina del Distrito de Dallas de TxDOT al costo de reproducción. TxDOT considerará todas las preguntas y comentarios debidamente entregados y preparará un resumen y análisis de los comentarios recibidos. El resumen y análisis se publicará en el sitio web de TxDOT y estará disponible según se solicite. Personas interesadas en asistir a la(s) audiencia(s) que tienen necesidades especiales de comunicación o alojamiento son recomendadas a comunicarse con la Oficina de Información Pública del Distrito de Dallas de TxDOT al (214) 320-4480. Solicitudes deberán hacerse al menos 72 horas antes de la audiencia pública. La audiencia pública se realizará en inglés y se brindará interpretación en español; cualquier solicitud de otras necesidades especiales de comunicación deberían hacerse al menos 72 horas antes de la audiencia pública. TxDOT hará todos los esfuerzos razonables para satisfacer estas necesidades.

**Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project**

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of a design-build contract (DBC) and the associated capital maintenance agreement (CMA) that includes the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to "grandfather" and permit the reconstruction of the existing one tolled managed lane in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from eight to ten general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635/30 interchange. On May 30, 2019, in Minute Order 115486, the Texas Transportation Commission (Commission) determined that the proposal submitted by Pegasus Link Constructors (DB Contractor) provides the apparent best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the DBC and CMA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole option to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 371, Subchapter D, TxDOT is publishing financial information regarding the project and holding notice of a public hearing that will be held regarding the financial disclosure.

Project Financing: TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling: TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates: The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lane policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 50 mph.

Competing Facilities: TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to competing facilities and there are no penalties associated with their construction.

Termination for Convenience: TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontracts.

Toll Rates: Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.63
Low	\$0.30	\$0.53

Methodology for increasing toll rates: Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.75/mile. The established rate will be evaluated and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:

If demand is low, such as during off-peak hours, a lower toll rate will be charged.

If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments: There will be no concession payments.

Public Hearing: TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Oaks Church of Christ, 10906 Walnut Hill Lane, Dallas, Texas 75239. An open house will be held from 9:00 p.m. – 1:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 50, Mesquite, Texas 75150-0843, or by e-mail to grace.lo@dotd.texas.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 50, Mesquite, Texas 75150-0843, and can be accessed on TxDOT's website at <https://www.tdotd.gov/inside-tdot/divisions/districts/dallas/projects/interstate-635-delivery/dbc/notice.html>. Copies of the draft DBC also may be purchased from TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Patrick Gaspard to receive prestigious NAACP medal

NW9

BAITIMORE — The National Association for the Advancement of Colored People, the nation's foremost civil rights organization, has announced that Ambassador Patrick Gaspard will be awarded the prestigious Spingarn Medal during the NAACP's 108th annual convention in Detroit, Michigan July 24.

The award recognizes Gaspard's lifelong commitment to equity and civil rights. Gaspard, a native of the Democratic Republic of Congo, moved with his parents to the United States when he was 7 years old. He served as political director for President Barack Obama in the White House and as the executive director of the Democratic National Committee, advancing the party committee's efforts in support of Obama.

In 2013, Obama nominated Gaspard to the post of United States ambassador to South Africa. He worked to strengthen civil society and worked in partnership with the South African government to develop the country's health care infrastructure and support investments in local governance. He also worked to connect South African entrepreneurs to United States markets, develop clean, renewable and efficient energy technologies, and to end wildlife trafficking.

"Ambassador Gaspard's service within the Labor Movement as well as his service as a member of the Obama administration has always leaned in the benefit of all Americans," said Leon W. Russell, chairman

Patrick Gaspard, president of the Open Society Foundations, will be awarded the prestigious Spingarn Medal during the NAACP's 108th annual convention in Detroit, Michigan, July 24. Photo courtesy of NAACP.

of the NAACP national board of directors. "His service in the diplomatic corps as ambassador to South Africa during a challenging period of that nation's development was stellar."

"Patrick Gaspard is a global champion for civil and human rights. His contributions to campaigns to end police brutality, improve access to affordable health care, and increase dignity for working families — is unparalleled," said Derrick Johnson, NAACP president and CEO. For over 100 years, we have honored leaders who have served as pillars in the fight for justice and this year's selection of the Patrick Gaspard is no exception."

The NAACP Spingarn Medal, established in 1914 by the late NAACP board of directors Chairman Just E. Spingarn, is awarded "to the highest or noblest achievement by a living African American during the preceding year or years."

2020 Census,
continued from Front Page

able, according to census reports.

"We'll see who happens," Trump said. "We could start the printing now and maybe do an addendum after we get a positive decision. So we're working on a lot of things, including an executive order."

Census experts say that, among other concerns, such an addendum would likely violate the bureau's strict rules on testing a question, which include considering how the placement of a question on the form affects respondents' likelihood of filling it out.

Trump's comments come as government lawyers scramble to find a legal path to carry out the president's wishes despite their conclusions in recent days that no such avenue exists.

Census officials and lawyers at the Justice and Commerce departments scrapped holiday plans and spent Independence Day seeking new legal avenues for a citizenship question that critics say could lead to steep undercount of immigrants, which could limit federal funding to some communities and skew congressional redistricting to favor Republicans.

"It's kind of shocking that they still don't know what they're doing," Thomas Hane, president and general counsel of the Mexican American Legal Defense and Educational Fund said. MALDEF is representing some of the plaintiffs in the case in Maryland. "We're in this posture because they don't know what the real plan is."

The question had seemed settled after the Supreme Court ruled last week against the Trump administration. As late as Tuesday evening, Commerce Secretary

Wilbur Ross, who oversees the census, said the administration was dropping its effort and was printing the census forms without the citizenship question.

But Trump, it is widely reported, changed his mind Wednesday and Thursday, and he was not giving up. He tweeted Thursday morning, "So important for our Country that the very simple and basic 'Are you a Citizen of the United States?' question be allowed to be asked in the 2020 Census. Department of Commerce and the Department of Justice are working very hard on this, even on the 4th of July!"

The reversal came after Trump asked by phone with conservative allies, who urged him not to give up the fight, according to a senior White House official and a Trump adviser, who both spoke on the condition of anonymity.

In the Supreme Court's upturned ruling last week, Chief Justice John Roberts said the government had provided a "convincing" reason for wanting the information, essentially leaving open the door for the government to offer a new justification and see whether it satisfies the court. An executive order from Trump and a new rationale given by Ross on the basis of that order could give the administration something to take back to the justices.

Trump told reporters Friday that the White House was surprised by the U.S. Supreme Court decision and that he found it "very shocking" that the citizenship question could not be included.

Trump said he believes the rationale provided by Ross "can be expanded very simply."

"He made a statement," Trump said of Ross. "He wrote something out. The judge didn't like it. I have a lot of respect for Justice Roberts, but he didn't like

it, but he did say come back. Essentially, he said come back."

Ross denied the idea that an executive order could brush aside the 15 months of litigation that culminated in the high court's ruling.

"Despite what yesterday's military show may have looked like, the United States is not a Soviet bloc dictatorship," Ross said, referring to the "fate to America" event that Trump staged on Thursday. "Executive orders do not override decisions of the U.S. Supreme Court. Separation of powers remains, as it has been for over 200 years, a critical part of our constitutional scheme."

Earlier Friday, Ken Cuccinelli, Trump's acting U.S. Citizenship and Immigration Services director, said during an appearance on Fox Business Network that there's a "high chance" that Trump would find a way, either through executive order or "another administrative way, to ask the simple census question."

Cuccinelli said he met with Trump this week and the president "was very determined about this."

In litigation earlier this year, the government stressed that firms need to get to the printer by July 1, prompting the U.S. Supreme Court in expediting its consideration of the question.

In a June filing to the court, Solicitor General Noel Francisco noted that witnesses at trial had said changes to the questionnaire after June 2019 "would impair the Census Bureau's ability to timely administer the 2020 census," and that a delay until October would be feasible only with "exceptional resources."

Colby Khorvitz contributed to this report.

Local high schools take advantage of new UIL rule

DEVIN HARRON
Photo: Starbulletin Media

The term summer vacation does not mean what it used to, at least for high school athletes.

Over the years, voluntary activities for their time off have become more organized as programs try to keep their athletes focused and ready for the upcoming school year.

In addition to holding open gymnasiums and weight rooms, many schools have turned to a more regimented strength and conditioning program that often runs for two hours, four days a week.

This summer those programs are taking advantage of a new rule offered by the University Interscholastic League that gives them the opportunity to hold skill-specific sessions for two hours a week, with a one-hour maximum on a given day.

It might not sound like much, but nearly every coach has jumped on board to take advantage of the new rule.

At most camps, when strength and conditioning for incoming seventh through 12th grade is often conducted for two hours in the mornings, athletes now have an opportunity to stay an additional

Patent coaches address a group of local athletes during a workout earlier this summer.

hour to gain valuable experience that was not available in the past.

There are still restrictions. For instance, multi-sport athletes can still only participate in two total hours per week.

And to stress, these workouts are still voluntary. Coaches understand that there are variables during the summer months, such as weather, when work commitments to stay busy being able to find a way up to the school.

But there is no denying that their encouraging athletes to take advantage of as

in the area.

Top said the additional time spent with her West teammates this summer helped bring the pair closer toward a senior celebration that could bring another lengthy postseason run and a shot at a state title.

"I have an impact and respect for Team," she said. "Going through this together definitely brought us closer as a team and makes me for each other, and I trust her with anything now. Her skill and energy is so fun to share the court with, which makes next season even more exciting."

Underneath the pair of local title winners, the next event was a premier finish in the 16 Open division by TAV's 16 Black team, headed by former Loyola head coach Jason Nicholson. This club featured Flower Mound Juniors Karlee Cox and Annetique Oye, Frisco Johnson '2001 Junior Tyrah Ariati, Allen Junior Collin Kempah, West Junior Ashley Le, and Prolog Junior Shakira Thomas.

Shylene 18 Royal out of Plano, which includes Loyola sophomore Averi Carlson and junior Billie Jones, Prolog Juniors Taylor Younsay, Samantha Jacobs, Hailey Brumfield and Nikki Brumfield, and factors like the 16 Black team, took third in the same division, while third place finishes were also recorded in the 16 American division by ECU's 18 National Red out of Carrollton and in the 16 Open division by LoneStar

Texas Department of Transportation Notice of Public Hearing Disclosure of Financial Information Interstate Highway 635 (I-635) LBJ East Project

This notice replaces the previous notices that were published in the following newspapers on the following dates:

- The Dallas Morning News - Tuesday, June 18, 2019
- ATD - Wednesday, June 19, 2019
- The Dallas Observer - Wednesday, June 20, 2019
- Mesquite News - Thursday, June 21, 2019

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 229, Subchapter F, the Texas Department of Transportation (TxDOT) has selected proponent and reapplicant submitter of a proposal for award of a design-build contract (DBC) and the associated contract administration agreement (CAA) that includes the design, construction, and operation and maintenance of Interstate Highway 635 from US 75 to I-50 in Dallas County (I-635 LBJ East Project). The contract has agreed to "grandfather" and permit the reconstruction of the existing and later managed lanes in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from right to left general purpose lanes and the full reconstruction of the existing left managed lanes, for a total of 12 general purpose and left managed lanes, construction of continuous bridge deck and improvements to the I-635-50 interchange. On May 30, 2019, in Minute Order 115485, the Texas Transportation Commission (Commission) determined that the proponent selected by Proponent User Constructors (PUC Contractors) provides the greatest best value to TxDOT and authorized TxDOT to continue and complete negotiated processes to finalize the DBC and CAA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is anticipated to be substantially completed in late 2022. To begin with a competitive bid prior to completion, TxDOT may authorize its own action to secure the PUC Contractor to provide contract maintenance services for the I-635 LBJ East Project under a CAA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Proposal to Amend DBC: Chapter 271, Subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Public Hearing: TxDOT intends to hold the Project with federal and state funding sources. No state tax has been or will be assumed to secure, design, construct, operate and maintain the Project.

Question of Taking: TxDOT will control title on the I-635 LBJ East Project based on the most current National Transportation Climate (NTC) policy, even though there is no state to take.

Method for Setting Toll Rates: The initial toll rates will be set by the Commission at a meeting with the managed lanes policy established by the RTT. The policy provides for fixed, variable pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lanes policy, tolls by the initial 180-day period will be no greater than the current toll rates described below. After that initial period, the toll rates will be based on user demand as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 60 mph.

Construction Payment: TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to preparing facilities and there are no penalties associated with their construction.

Termination by Commission: TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DBC Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontractors.

Toll Rates: Based on demand projections and subject to Commission approval, it is estimated that the toll rates charged will be as follows:

Price per Mile	2019 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.50
Low	\$0.10	\$0.20

Minimum Toll: Pursuant to the managed lanes policy, the initial maximum toll will be \$0.10. The estimated toll will be established and adjusted (increased) with NTC approval. The maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the NTC managed lanes policy, which requires that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged.
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Construction Payment: There will be no construction payments.

Public Hearing: TxDOT will hold a public hearing concerning the disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the regional Office of the Chief of Staff, 10835 Walnut Hill Lane, Dallas, Texas 75236. An open house will be held from 9:00 a.m. - 5:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments: Concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Debra Lu, P.E., Dallas District Office, 4777 E. Highway 60, Mesquite, Texas 75150-6848, or by email to debra.lu@dotd.texas.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District Office at 4777 E. Highway 60, Mesquite, Texas 75150-6848, and can be accessed on TxDOT's website at <http://www.txdot.gov/interstates/635/>. Copies of the draft DBC also may be purchased from TxDOT's Dallas District Office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 330-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish. If interpretation will be provided, see interpretation fee sheet; communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

VARSITY

From PAGE SIX

from that and reigning district champions Horn, the teams traded punches for four consecutive years. After Horn tied it with a touchdown but only 1:03 left, Mesquite marched right back down the field and earned a signature win when Ivan Pava kicked a 43-yard field goal as time expired for a 31-17 victory.

The Pirates suffered a hiccup against Rockwall-Heath, but bounced right back with a 41-0 win over North Mesquite and a 34-14 victory over Tyler Lee to earn their first playoff berth since 2013 in one of the biggest turn-arounds in the state.

STORY OF THE YEAR

MIBD athletic director Steve Bragg reflects longtime Mesquite 100 Athlete Program for three years announced his retirement in December at the conclusion of the 2018-2019 school year. It capped a long tenured history with MIBD.

A graduate of North Mesquite, he got his start with the Stallions as an assistant football coach from 1998-1999. During that time,

he was also the head boys soccer coach, guiding North Mesquite to the state tournament in 1988 and 1997.

From there, he moved across town to take over as the offensive coordinator at Patent from 1999-1999.

After a stint of one-year head coaching stints at Pritchett and Commerce, Bragg returned to North Mesquite as the head coach, where he served from 2001-2009 before being promoted to Athletics Director in 2007.

During his 13 years in the position, Bragg served as the district chair for D5A/11/0A/13/AA/BA/DI District 7-6A. Under his leadership, MIBD has been recognized statewide and regionally as a top athletic program. MIBD, the first public school district in the nation to be given a concussion Return-to-Play Policy, was also a leader in drug and steroid testing and enlightening policies for athletes. All of those safety measures have become state-mandated.

In 2015, he was instrumental in creating the Mesquite Athletics Hall of Honor and announcing the inaugural class representing our district's first century of athletic excellence.

In February, MIBD announced the promotion to Athletics Director of Rudy Groves, who had been serving as the head football coach at Patent since 2013.

WEEK 6

From PAGE SIX

in Horvath and Mesquite sophomore Diamond Oliver and Ned Hayes and sophomore Riana Hensley. But there are also holes to fill and it will be tough to knock off Rockwall and Rockwall-Heath, who both return their starting pitchers, as well as senior-led on longhorns.

Permy has been a state power in recent years and it is hard to see them getting dethroned with the return of most valuable player Bryan Gaskoebler, offensive player of the year. Tinty Coates and defensive player of the year Yvonne Hollingsworth.

But Patent should push for at least the second spot with a solid nucleus that includes senior Makyla Gennitt, the utility player of the year, Austin Chesney and Hollingsworth. But Patent should push for at least the second spot with a solid nucleus that includes senior Makyla Gennitt, the utility player of the year, Austin Chesney and Hollingsworth.

Patent might be best equipped to make a run at the 15A crown. The Pirates finished just one game back of Pava's this spring and the Jackrabbits finished six all-district performers.

Patent has a nice nucleus with two experienced arms in seniors Steven Fink and Jackson Huber, as well as seniors Michael Barkley, Coleman Camp, Malik Henderson, Malik Henderson and Justin Clark and junior Adam Byrd. If they can get a couple of more pieces to add to that mix, the Pirates will be in great shape to make a run at their first district title since 1991.

Rockwall-Heath and Rockwall run away from the park in 11-6A and it will be tough to reel them back in as they have consistently been able to reload.

Patent rolled to an undefeated 10-0, championship in the spring, but if they are going to make it three-district titles in a row, it will be with a new cast, as they graduated eight all-district starters.

Horvath has a nice 1-0 track on the mound with Cole Hines and Cole Denton, and while they also expect to return shortstop Elijah San Juan and catcher Hudson Parker, they will need some newcomers to step up to provide additional offensive punch.

North Mesquite has had its share of solid distance runners in recent years and last fall, senior Benoit Vaquero placed third at the 11A meet. Horn and Rockwall

Wynn took sixth at the district competition, while Mesquite sophomore Jaden Haggberth is another runner to keep an eye on after qualifying for the regional meet in her inaugural campaign.

The baseball girls finished second at last year's 10-6A meet and did so largely with younger runners. Sophomores Gracie Leonard and Courtney Rowland placed in the top five in their first seasons and senior Abbie Chesno, juniors Aaron Satterfield and Benary Thompson and sophomore Madison Ramirez were all in the top 15.

The Patent boys have a long tradition of success in cross country with three state titles in their earlier in the early 1990s. They have remained one of the top teams in the area and are poised to continue that with senior Benjamin Aguilar and juniors Juan Martinez, Alan Flores and Owen Valdivia.

West Mesquite has also made strides in recent years and expects to return top contributors in senior Mason Thomas and Juan Martinez, junior Joe Morales and sophomore Josue Escamilla-Gonzalez, who placed fifth at district as a freshman.

It is a similar story for the Wrangler girls, who return senior Stephanie Ouello and junior Sarah Madala and junior Michelle Pava as they look to build on their career-up finish at the 11-6A meet.

GROWER-JEFFERS

New Texas voting law could affect down-ballot races

Continued from Page 6B

University College's Center for Public Policy and Political Studies, Republicans in the 2010 presidential election got 9% of the statewide straight-ticket vote, compared to 40% for Democrats. Last year it was a wash, with both parties getting nearly 50% of the straight-ticket vote.

The report looked at the 49 counties that produced 80% of the party-line vote.

It noted that 67% of the votes cast in the Senate race between Republican incumbent Ted Cruz and former U.S. Rep. Al Franken were straight-ticket votes.

Cruz got 48.8% of the straight-ticket vote, the study found. But he only garnered 40.7% of the swing vote, which made his race close.

Yes, the Democratic share of the vote is rising in Texas, but the close contests of 2018 were also highlighted by independent voters choosing some Democrats.

In the Collin County House district represented by Republican Matt Shaheen, he beat Democrat Sharon Hirsch with only 50% of the vote, even though the GOP got 66% of

Republican Rep. Ron Simmons (center) campaigned in October 2018 to retain his seat in the Texas House. He lost to Democrat Michelle Beckley, who drew more swing voters than he did even though he had more straight-ticket votes.

the straight-ticket vote. The result suggests Hirsch got support from independents and crossover Republicans, while benefiting from O'Rourke's Paul Piper campaign.

In Denton County, Republican incumbent Ron Simmons got 50,000 straight-

ticket votes, which was 1,000 more than his opponent, Democrat Michelle Beckley. Simmons lost the race because, among swing voters, Beckley received 1,618 votes, while he had 8,060. The Austin County majority Cabbage study found.

The new law was designed to stem the Democratic tide in urban areas, but it could impact Republicans in their stronghold and statewide.

There's no doubt Dallas County Democrats have thrived because of straight-ticket voting.

Consider House District 108 in North Dallas and the Park Cities, where Republican incumbent Morgan Meyer beat Democrat Joaquin Calzadilla by 24 votes.

In Dallas County, Democrats had more than 10,000 straight-ticket votes that Republicans, making areas in the county that were once solid red vulnerable to takeover.

So the new law could impact not only next year's House District 108 race, but other contests in swing districts.

Supporters of eliminating straight-ticket voting, including the editorial board of *The Dallas Morning News*, insist the movement is not about targeting one political party. They have elected lady voters and have urged candidates not to hide behind party labels.

But Republican lawmakers were spared to avoid straight-ticket voting after losing close elections in urban areas, not the election of unqualified candidates.

That was evident in 2018, when Ryan Patrick, the son of

Lt. Gov. Dan Patrick, lost a close Harris County judicial race to Democrat Richard Johnson. President Donald Trump later appointed Patrick as U.S. attorney for the Northern District of Texas.

It's not surprising that after Patrick's loss, lawmakers in 2017 outlawed party-line voting.

In a new era of voting is underway in Texas.

The real test will come in 2022, when in some cases there will be over 100 races to sort. The 2018 midterm ballot in parts of Dallas County had more than 140 potential contests and referendums.

If lawmakers really cared about voters, they would have vetoed that improperly staged judicial race to clarify election ballots.

Until then, Texas voters will be subject to long lines, increased wait times and the laughable process of racing through the ballot by picking candidates with their favorite letter and to candidate number B or H.

"Most voters don't vote the candidates anymore," Young said. "They vote for labels."

Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 535 (I-535) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION Pursuant to the authority granted under Texas Transportation Code, Chapter 652, Subchapter C, the Texas Department of Transportation (TxDOT) has selected proposals and is currently soliciting offers for the design, construct, operate and maintain (DCOM) of the proposed project. The project will include the design, construction, operation and maintenance of the project and the operation and maintenance of the project. The project will include the design, construction, operation and maintenance of the project and the operation and maintenance of the project.

Under the DCOM, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. For more information regarding this project, please contact the TxDOT project manager at 1-800-455-7282. For more information regarding the project, please contact the TxDOT project manager at 1-800-455-7282.

Forwarded to Transportation Code Chapter 652, Subchapter C, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing: TxDOT intends to fund the project with federal and state funding sources. For more information regarding the project financing, please contact the TxDOT project manager at 1-800-455-7282.

Contractor Obligations: TxDOT will not be held responsible for any financial obligations of the contractor. For more information regarding the contractor obligations, please contact the TxDOT project manager at 1-800-455-7282.

Method for Determining Bid Prices: The bid prices will be determined by the contractor in accordance with the proposed project specifications. For more information regarding the bid prices, please contact the TxDOT project manager at 1-800-455-7282.

Contracting Practices: TxDOT will not be held responsible for any contracting practices of the contractor. For more information regarding the contracting practices, please contact the TxDOT project manager at 1-800-455-7282.

Termination for Convenience: TxDOT has the right to terminate the DCOM at any time without cause. If TxDOT elects to terminate the DCOM, TxDOT will pay the contractor for the design and construction work already performed under the DCOM and the cost of terminating the contract.

Bid Dates: Based on current proposals and subject to transportation conditions, it is anticipated that the bid dates will be held on:

Price per Mile	2019 (1.5 Miles x \$)	2020 (1.5 Miles x \$)
High	\$0.50	\$0.50
Low	\$0.50	\$0.50

Methodology for Bids to be Offered: Pursuant to the proposed project specifications, the bid prices will be determined by the contractor in accordance with the proposed project specifications. For more information regarding the bid prices, please contact the TxDOT project manager at 1-800-455-7282.

Discretionary Payments: There will be no discretionary payments.

Public Hearing: TxDOT will hold a public hearing regarding the disclosure of financial information for the I-535 LBJ East Project on Monday, July 16, 2018, at 10:00 a.m. at the TxDOT Project Office, 1500 West Loop West, Suite 1500, Dallas, Texas 75243. An open house will be held from 10:00 a.m. to 4:00 p.m. on Monday, July 16, 2018, open to the public. For more information regarding the public hearing, please contact the TxDOT project manager at 1-800-455-7282.

Questions and Comments: Questions regarding the financial disclosure will be accepted by TxDOT at the public hearing. Questions and comments should be submitted to TxDOT by 4:00 p.m. on Monday, July 16, 2018. For more information regarding the public hearing, please contact the TxDOT project manager at 1-800-455-7282.

For adult children caring for parents...

Mom's losing her memory and she's home alone.

Three Simple Facts of Memory Loss

- Common behavioral symptoms may include loss of appetite, wandering, sleeplessness, agitation, anxiety and aggression
- Tasks like handling money and paying bills are troublesome
- Processing thoughts and communication becomes more difficult

While memory loss, most notably Alzheimer's, is irreversible... you can see that your mom lives into her fullest potential at MacArthur Hills. Our "top flight" care team (that's us) provides highly personalized attention 24/7... allowing you to help her remain socially active, physically well-cared for, and purposefully engaged in the rewarding lifestyle she will experience daily.

MacArthur Hills
Assisted Living • Memory Care • Independent Villas

Your love for family has found a home.

Now Open!
Ask about our "Beraca" Memory Care that serves high functioning, physically active residents.

La matrícula y cuotas en UT Austin para un estudiante de Texas es de \$13,34 por año.

UT Austin promete colegiatura gratis a partir del 2020

Por BEBERAH ALLEN/ DNN

Austin — En una decisión que duplicará varias veces el número de estudiantes que obtienen subsidios a su educación superior, el campus de Austin de la Universidad de Texas cubrirá la matrícula completa para cualquier estudiante cuyo ingreso familiar total sea \$68,000 o menos a partir del curso de 2020.

Los funcionarios de UT Austin señalan que el nuevo compromiso de ayuda financiera cubrirá la matrícula y las tarifas para un estimado de 8,000 estudiantes, o el 24 por ciento del cuerpo estudiantil de primer año. Los estudiantes de segundo año son elegibles.

La Junta de Regentes del sistema de la Universidad de Texas usó el dinero por un monto de \$200 millones del Fondo Universitario Permanente del estado — una donación estatal para los sistemas UT y Texas A&M — con el propósito de crear este programa de asistencia financiera de UT Austin para personas con bajos ingresos y estudiantes de ingresos moderados.

Este anuncio se añade al programa Com Promise Avanzado de Texas de UT Austin

que comenzó en el otoño de 2018 y cubrió la matrícula completa y cuotas para los estudiantes con familias que ganan \$30,000 al año. Ese programa cubrió a unos 4,000 estudiantes.

El presidente de UT Austin, Greg Fenves, agradeció los regentes por hacer que la universidad fuera más accesible y accesible para estudiantes de bajos ingresos.

“El presidente ejecutivo Elliot Eisinger me dijo que la accesibilidad de la universidad es uno de los problemas más críticos que afectan a todos los sectores”, dijo Fenves. “Dirigida a su liderazgo y la acción de la Junta, esta nueva donación constituirá un gran paso para hacer que nuestra universidad sea accesible para estudiantes talentosos de Texas de todos los orígenes y regiones”.

Los funcionarios de UT Austin señalaron que la expansión de la asistencia financiera hasta en la necesidad se extiende a las familias de ingresos medios. La escuela observó que el ingreso promedio de un hogar en Texas en 2017 era de \$69,306. La matrícula y las cuotas en UT Austin para un estudiante universitario residente del estado es \$13,34 por año.

El republicano Dennis Bonnen en el líder de la legislatura en Texas.

Comité impulsa al GOP

Líder de legislatura dice que quiere presentar ‘leyes inteligentes y conservadoras’

Por JAMES BARRAGAN/ DNN

Austin — Dennis Bonnen, líder de la Cámara de Representantes republicana, anunció el lunes la creación de un comité de acción política para buscar la reelección de republicanos a la cámara baja de la legislatura de Texas en las elecciones del año próximo.

Tras concluir recientemente su primera sesión legislativa como líder de la cámara, el republicano de Arlington puso en marcha el PAC, Texas Lead, con \$3 millones de su propio fondo de campaña.

“La próxima sesión legislativa fue considerada una de las más fructíferas de la historia moderna”, dijo Bonnen en un comunicado de prensa.

“Lo que logramos no hubiera sido posible sin los miembros republicanos de la Cámara de Representantes que lucharon sin descanso para llevar hasta la recta final políticas inteligentes y conservadoras. Si hemos de continuar estos logros en futuras sesiones legisla-

tivas, debemos hacer todo lo que esté en nuestro poder para hacer resurgir a los legisladores republicanos que lo hicieron realidad”.

Retener la Cámara de Representantes en 2020 es una prioridad de los republicanos, ya que los demócratas, alienados por sus triunfos en las elecciones del año pasado, quieren recuperar la mayoría en esa cámara por primera vez desde 1933.

Pero para hacerlo, los demócratas podrían que romper los 12 escaños que juraron en la pasada elección y ganar nueve más.

Al final de la sesión, Bonnen aludió a los legisladores no hacer campaña contra sus colegas en la Cámara de Representantes, incluido los demócratas, para distraerlos del día de recha de su partido, que lo criticó por ser muy condescendiente con el partido minoritario.

Pero también puso en apuro a los demócratas, ya que necesariamente tendrán que arremeter contra los legisladores republicanos para ganar la mayoría.

El comunicado del PAC hizo alusión en el objetivo de hacer resurgir a los republicanos y retener la cámara, pero no hizo mención de que hubiera que combatir a los legisladores demócratas.

Permiten uso médico de la marihuana

Ley entró en vigor en junio

Por LAUREN McGAUGHY/DNN

Austin — Los texanos pueden disponer de productos derivados de la marihuana para uso médico, aunque necesitan una receta de un dispensario autorizado.

El gobernador Greg Abbott refrendó el día de junio una ley para ampliar la disponibilidad de productos de marihuana de uso médico en Texas.

Abbott firmó el Proyecto de Ley 3703 que había sido aprobado en la Cámara de Representantes durante la legislatura pasada.

Los especialistas médicos podrán recetar productos derivados de la marihuana para tratar la esclerosis múltiple, mal de Parkinson, esclerosis lateral amiotrófica, cáncer terminal, autismo y muchos tipos de convulsiones.

Anteriores leyes estatales solo autorizaban recetar productos médicos de cannabis a personas con epilepsia intractable, que en Texas solo pueden tener bajos niveles de tetrahidrocannabinol (THC), el ingrediente psicoactivo.

Tales productos no se pueden fumar.

En Texas, el único dispensario de venta de marihuana de uso médico solo en forma de aceite e inhalador.

Los defensores de la marihuana eligieron la forma de ley.

“El cannabis es una medicina efectiva para muchos pacientes que padecen condiciones médicas debilitantes”, dijo Heather Paolo, director de Texas for Responsible Marijuana Policy, el viernes.

“La HB 3703 representa un paso positivo hacia una política racional de uso de cannabis médica, pero desafortunadamente todavía deja fuera a millones de familias texanas que podrían beneficiarse de acceder a ella legalmente”.

La autora de la iniciativa, la representante Stephanie Klick, republicana por Fort Worth, es enfermera registrada y promovió la promulgación de la Ley de Uso Médico del Cannabis.

La participación en el Senado de Texas, la doctora de urgencias Dorra Campbell, dijo durante el debate que su legislador se vio solo una pequeña enmienda a la actual ley de uso de marihuana con fines médicos.

“La formulé en términos muy estrechos para tener alguna certeza y no parecerme a algo que pueda tener consecuencias no buscadas”, dijo Campbell, republicana por New Braunfels.

Las leyes sobre cannabis fueron uno de los grandes temas tratados en la sesión legislativa 2019 que concluyó el 27 de mayo.

NUEVAS SOLICITUDES DE DART

REBUILD DART'S LIGHT RAIL VEHICLE (LRV) HVAC COMPONENTS B-2050595

Delta Area Rapid Transit (DART) ha estado a esperar emitir estas solicitudes en los próximos 30 a 60 días.

Departamento de Transportación de Texas
Aviso de Audiencia Pública Divulgación de Información Financiera
Proyecto Carretera Interestatal 635 (I-635) LBJ East

SELECCIÓN DE SERVIDORES FINANCIEROS: Conforme a la autoridad otorgada por el Código de Transporte de Texas (Capítulo 205, Subcapítulo C) el Departamento de Transportación de Texas (TxDOT) por los fines en virtud de este anuncio y mencionado en la siguiente es una invitación para solicitar propuestas de oferta y participación (RFP) por sus bienes en efectivo y servicios asociados de construcción de la sección I-635 LBJ East por sus bienes en efectivo y servicios asociados, construcción y mantenimiento de la Carretera Interestatal 635 (I-635) en el Estado de Texas en el Corredor de Ocaso Proyecto I-635 LBJ East. El subcapítulo C) otorga permiso y permite el mantenimiento de los bienes inmuebles de propiedad pública durante el desarrollo del proyecto. El proceso de selección de proveedores comienza con la publicación de este anuncio en el sitio web de compras y mantenimiento de bienes inmuebles de propiedad pública del TxDOT, con un plazo de 12 meses de duración y después, el contrato de una duración continua y renovable por el monto de \$1,000,000.00 al 30 de mayo de 2020 de la fecha de finalización de la oferta de información financiera. El contrato otorga a los proveedores de bienes inmuebles de propiedad pública la opción de participar en el proyecto I-635 LBJ East bajo el Plan de Bienes de Bienes Inmuebles de Propiedad Pública. El contrato de bienes inmuebles de propiedad pública se otorga por un monto de \$1,000,000.00 al 30 de mayo de 2020. Este anuncio de información financiera es para proporcionar a los proveedores de bienes inmuebles de propiedad pública la oportunidad de participar en el proyecto I-635 LBJ East.

Nota: TxDOT, el trabajo de construcción de la sección I-635 LBJ East en el Corredor de Ocaso y el proyecto de desarrollo de bienes inmuebles de propiedad pública en el Corredor de Ocaso. Antes de iniciar el trabajo de desarrollo de bienes inmuebles de propiedad pública en el Corredor de Ocaso, el Departamento de Obras y Mantenimiento de Bienes Inmuebles de Propiedad Pública debe aprobar el Proyecto I-635 LBJ East bajo el Plan de Bienes de Bienes Inmuebles de Propiedad Pública. El proyecto de desarrollo de bienes inmuebles de propiedad pública se otorga por un monto de \$1,000,000.00 al 30 de mayo de 2020.

Conforme al Código de Transporte (Capítulo 205, Subcapítulo C) TxDOT está publicando información financiera sobre el proyecto de construcción de la sección I-635 LBJ East por sus bienes en efectivo y servicios asociados.

Construcción de Proyecto: TxDOT tiene la intención de llevar a cabo el Proyecto con fondos de financiación federal y estatales. No se ha autorizado ni autorizar ningún contrato para adquirir bienes, servicios, partes y materiales al Proyecto.

Ubicación de Proyecto: TxDOT realizará obras en el Proyecto I-635 LBJ East basadas en la Dirección Actual del Corredor de Transporte Regulado (RTP), con sus ejes en ambos sentidos de flujo de tráfico.

Método de Selección: Todas las ofertas de bienes inmuebles de propiedad pública serán recibidas por la Comisión de Bienes Inmuebles de Propiedad Pública de Texas (CBIPT) en el sitio web de compras y mantenimiento de bienes inmuebles de propiedad pública del TxDOT. La selección de proveedores de bienes inmuebles de propiedad pública se otorga por un monto de \$1,000,000.00 al 30 de mayo de 2020. Este anuncio de información financiera es para proporcionar a los proveedores de bienes inmuebles de propiedad pública la oportunidad de participar en el proyecto I-635 LBJ East.

Información Contactada: TxDOT tiene el derecho de aceptar cualquier oferta de bienes inmuebles de propiedad pública. No hay intención de un RFP. Información de contacto: TxDOT tiene el derecho de aceptar cualquier oferta de bienes inmuebles de propiedad pública. No hay intención de un RFP.

Información de Contacto: TxDOT tiene el derecho de aceptar cualquier oferta de bienes inmuebles de propiedad pública. No hay intención de un RFP.

Notas: TxDOT tiene el derecho de aceptar cualquier oferta de bienes inmuebles de propiedad pública. No hay intención de un RFP.

Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of a design-build contract (DBC) and the associated capital maintenance agreement (CMA) that includes the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to "grandfather" and permit the reconstruction of the existing one tolled managed lane in each direction as part of the project scope. The project will include the full reconstruction and widening of the facility from eight to ten general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635-I-30 interchange. On May 30, 2019, in Minute Order 116486, the Texas Transportation Commission (Commission) determined that the proposal submitted by Pogues Link Constructors (DB Contractor) provides the apparent best value to TxDOT and authorized TxDOT to commence and complete negotiations necessary to finalize the DBC and CMA.

Under the DBC, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its sole option to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 371, subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing: TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Tolling: TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates: The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for fixed schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to the managed lane policy, tolls for the initial 180-day period will be no greater than the maximum toll rate described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rate will be established to maintain a minimum average managed lanes speed of 60 mph.

Competing Facilities: TxDOT has the right to build any facilities at any time. There are no terms in the DBC related to competing facilities and there are no penalties associated with their construction.

Termination for Convenience: TxDOT has the right to terminate the DBC at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBC and the costs of terminating subcontracts.

Toll Rates: Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows:

Price per Mile	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.52
Low	\$0.30	\$0.53

Methodology for increasing toll rates: Pursuant to the managed lanes policy, the initial maximum toll rate is \$0.70/mile. The established rate will be evaluated and adjusted, if warranted, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:
If demand is low, such as during off-peak hours, a lower toll rate will be charged.
If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments: There will be no concession payments.

Public Hearing: TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Oaks Church of Christ, 10895 Walnut Hill Lane, Dallas, Texas 75238. An open house will be held from 8:00 a.m. – 8:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lu, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-0043, or by e-mail to grace.lu@dotd.texas.gov. These comments will be accepted until 5:00 p.m., August 1, 2019. Copies of the draft DBC will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-0043, and can be accessed on TxDOT's website at https://www.txdot.gov/inside-txdot/division/debt/strategic_projects/altm-patve-database/dbc_east/tp.html. Copies of the draft DBC also may be purchased from TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 390-4480. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Thai Barbecue Duck Kebabs - Photo courtesy of Family Features

Spice up summer with grilled kebabs

Family Features

Thai Barbecue Duck Kebabs

Prep time: 15 minutes plus 2-4 hours marinating
Cook time: 10 minutes
Serves: 4

- 1 cup soy sauce
- 1/2 cup rice vinegar
- 1/2 cup brown sugar
- 1/4 cup honey
- 2 teaspoons sesame oil
- 1 teaspoon fresh ginger, minced
- 2 teaspoons fresh garlic, minced
- 2 teaspoons red chili pepper, finely minced
- 1/4 cup cilantro, minced
- 1 Maple Leaf Farms All Natural Boneless Duck Breasts, thawed and skin removed
- 2 teaspoon cornstarch
- 2 teaspoons cold water
- 1 red bell pepper, cored, seeded and cut into 2-inch chunks
- 12 green onions, cut into 1-inch pieces
- 2 sweetpotatoes, cut into 1-inch thick slices

The Asian marinade in this Thai Barbecue Duck Kebabs recipe coats crunchy vegetables and chunks of juicy tender duck with a sweet and tangy glaze. The combination of charred, colorful vegetables and smoky, grilled duck can leave your family and friends asking for more.

Find more grilling recipes and tips for cooking with duck at <http://www.mapleleaf.com>.

In a bowl, whisk soy sauce, rice vinegar, brown sugar, honey, sesame oil, ginger, garlic, red chili pepper and cilantro, set aside.
Heat grill to medium heat. Drain duck and discard its marinade.
Thread duck on skewers, alternating with pieces of red bell pepper, green onion and zucchini.
Grill skewers 3-4 minutes on each side. When done, duck should be slightly pink in center.
Serve kebabs with warm temperature sauce.

Grilling with fresh ingredients

Family Features

Grilling season provides simple opportunities to put flavorful foods on the table, but it doesn't have to be a lengthy cooking process. By planning ahead, having the right equipment on hand and using ready-to-go ingredients, home cooks can quickly put family meals together.

With an option like Smithfield Marinated Fresh Pork, which is perfectly seasoned

Grilled Pork Kebabs with Tzatziki Sauce - Photo courtesy of Family Features

and ready to throw on the grill, you can have a delicious meal ready in 30 minutes or less. Available in a variety of flavors and quality cuts, it's

ideal for grilling, making it suitable any night of the week. To get ready for your next grilling occasion, try something new like Grilled Pork Kebabs with Tzatziki Sauce or Grilled Pork and Potato Planks.

To help make this a successful grilling season, visit <http://www.smithfieldgrilling.com> for more grilling tips and a chance to win \$1,000.

Grilled Pork and Potato Planks - Photo courtesy of Family Features

Grilled Pork and Potato Planks

Prep time: 15 minutes
Cook time: 20 minutes
Serves: 4

- Nonstick cooking spray
- 2 Smithfield Marinated Garlic and Cracked Black Pepper Pork Tenderloins
- 1 medium Idaho Gold or red potatoes, cut lengthwise into 1/4-inch thick slices
- 2 tablespoons canola oil
- 1/4 cup shredded reduced-fat or regular sharp cheddar cheese
- 1/2 cup sour cream
- 1/4 cup finely chopped green onions

Heat charcoal or gas grill to medium; spray grates with nonstick cooking spray. Grill tenderloins until internal temperature reaches 150 °F, turning occasionally, about 10 minutes.

Brush both sides of potato slices with oil; grill 15-20 minutes until just tender, turning occasionally. Remove potatoes and pork from grill.

Top potatoes with cheese, sour cream and onions. Serve with tenderloins cut into 1/4-inch thick slices.

Grilled Pork Kebabs with Tzatziki Sauce

Prep time: 15 minutes
Cook time: 10 minutes
Serves: 4

- 1 Smithfield Marinated Garlic & Herb Pork Loin Filet, cut into 1 1/4-inch cubes
- 1 small sweetpotato, cut into 1/2-inch thick slices
- 2 large red bell peppers, cut into 1 1/4-inch pieces
- 1 large red onion, cut into 1 1/4-inch wedges
- Bamboo skewers, soaked in water 30 minutes
- Olives oil
- 1 medium cucumber, peeled
- 1 clove garlic, minced
- 1 1/2 cups whole milk Greek yogurt
- 1/2 lemon juice
- 2 teaspoons chopped fresh dill weed

1/2 teaspoon sea salt
Freshly ground black pepper
Chopped fresh parsley

Heat grill to 375 °F. Alternately thread fresh pork cubes, zucchini, peppers and onions onto bamboo skewers. Brush kebabs lightly with olive oil.

In food processor, process cucumbers and garlic until finely chopped. Drain liquid from cucumbers. Stir cucumbers with yogurt, lemon juice, dill, sea salt and pepper. Refrigerate until ready to use.

Grill fresh pork skewers approximately 10 minutes, turning occasionally, until char marks form and pork is cooked through. Garnish skewers with parsley and serve with tzatziki sauce for dipping.

AFFIDAVIT OF PUBLICATION

THE STATE OF TEXAS

COUNTY OF DALLAS

Before ME, the undersigned authority, on this day personally appeared the person whose name is subscribed below, who being by me first duly sworn, upon oath deposed and said:

That this affiant is a duly authorized officer or employee of **The DALLAS EXAMINER** which is a newspaper of general circulation in Dallas, Texas and published in DALLAS COUNTY, Texas.

The attached states that the advertisement (**TXDOT 635 Financial PH Notice**) placed by **Halff & Associates 7-18-19** in The Dallas Examiner newspaper.

James C Beltr

Authorized Officer or Employee

SWORN TO AND SUBSCRIBED BEFORE ME, this the 18th day of July, 2019

Sebastina L Jones

Notary Public, State of Texas

CALENDAR OF EVENTS

**JULY 22
FIRST DAY FOR
CITY COUNCIL
CANDIDATES
TO FILE**
8 a.m.
City Secretary Office,
1815 N. Gateway Ave.
First day for City Council candidates to file to be placed on the ballot. For more info visit cityclerk.mesa.com or call 972.216.4344.

**JULY 25
NIBBLES & SIPS**
6-8 p.m.
Opal Lawrence Historical Park, 711 E. Kenney St.
Historic Mesquite invites you to learn about upcoming projects and volunteer opportunities while enjoying free snacks and drinks.

**JULY 27
THE MARKETPLACE**
9 a.m.-2 p.m.
Downtown Square, 158 N. Main St.
Come by to shop produce, crafts and culinary items from local vendors and merchants. Every second and fourth Saturday through November. Learn more at TheMarketPlaceDFW.com.

**AUG. 5, 19
CITY COUNCIL
MEETING**
7 p.m.
City Hall, Council Chamber, 707 N. Gateway
City Council meetings are held on the first and third Monday of each month. The meetings are rescheduled to the second Tuesday when it conflicts with a City holiday that falls on a Monday meeting date.

AUG. 10
City Council meeting
7 p.m. City Hall, Council Chamber, 707 N. Gateway

**JULY 25
DINOSAUR PROGRAM**
2-3 p.m.
Mesquite North Branch Library, 2600 Oates Drive
Presented by the Heard Natural Science Museum & Wildlife Sanctuary. Discover how fossils are created, their importance, dinosaur facts and adaptations. Recommended for ages 12 and under. For information, call the North Branch Library at 972-681-0465.

DOGGIE SPLASH DAY
9 a.m.-Noon
Vason Pool, 2913 Oates
All dogs and their owners are invited to this event. A great opportunity for dogs and their owners to cool off, compete for prizes, or just play at the pool.

**SEPT. 28
GUTS AND GORY
ZOMBIE FUN RUN**
5-7 p.m.
Ernie-Galloway Day Camp, 3188 Lawton Road
This fun run will replace the Guts and Glory obstacle course and fun run held the last two years.

DANNY GOKEY
6 p.m.
Savoyade FBC (The Vale), 3818 N. Belt Line Road, Savoyade
Country's anticipated artist Danny Gokey is hitting 25 cities on the second leg of his nationwide tour. Coming off the release of his fifth studio album, Gokey will be performing new music by hit ballad artist Billie Eilish, a single, "Shame" from his 2018 album as well as Christian Alpha's Billboard chart number one, "Tell Your Heart to Beat. Again." "We're" and "Shape of My Heart."

**SEPT. 13
MOVIES
IN THE PARK**
7-10 p.m.
Fossil Bluff Pavilion, 1001 New Market Road
This month's movie is "The Incredibles 2." There will also be a Touch A Truck event. Preview entry information includes music, dancing and games.

BLOOD

From PAGE TWO

Through the campaign, the letters A, B and O - letters that make up the main blood groups - disappeared from popular brands to revitalize what happens when blood goes missing from hospital shelves during blood shortages.

Despite an encouraging response to the campaign, blood donations still fell short of expectations in June, resulting in more than 24,000 fewer donations than needed, more than 700 fewer here in the Southeast Blood Services Region, and causing a significant draw-down of the Red Cross blood supply.

"Blood is only available when generous blood donors roll up a sleeve to give, and right now, all donors - especially those who have never given or haven't given in a while - are urged to make an appointment to give today," Sunmark added.

How to help:
Donors of all blood types, especially type O, are urged to make an appointment to donate using the Blood Donor App, at RedCrossBlood.org or by calling 1-800-RED CROSS (1-800-732-3767).

Donation appointments and completion of a Rapid-Pass online health history questionnaire are encouraged to help reduce the time it takes to donate.

Those interested in joining a blood drive can learn more and sign up to sponsor a drive this summer by visiting RedCrossBlood.org/BloodDrives.

PROJECT

From PAGE ONE

"First Street Station is a railroad station about to become reality," said Dianne DeVries, Texas Development Authority Beverly Abel. "This project fits in so many ways to improve our downtown infrastructure, among them flexible transit space and solid infrastructure to support growing business base."

According to the plan, at least 100 new jobs are expected to be created from the construction of the downtown station and improvement of the surrounding area.

The Texas Department of Transportation (TxDOT) awarded the project to be awarded to a contractor to begin construction in late 2019 or early 2020 and to be completed in late 2024. The project includes the design, construction and installation of the station building, platform, tracks, and other infrastructure. TxDOT will also be responsible for the design, construction and installation of the station building, platform, tracks, and other infrastructure.

Texas Department of Transportation
Notice of Public Hearing Disclosure of Financial Information
Interstate Highway 635 (I-635) LBJ East Project

DISCLOSURE OF FINANCIAL INFORMATION: Pursuant to the authority granted under Texas Transportation Code, Chapter 225, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of a proposer for award of design-build contract (DBG) and the associated right-of-way maintenance agreement (RMA) for the design, development, construction, and potential maintenance of Interstate Highway 635 from US 75 to I-30 in Dallas County (I-635 LBJ East Project). The department has agreed to "grant" and permit the reconstruction of the existing one-tolled managed lane in east direction as part of the project scope. The project will include the full reconstruction and widening of the facility from right to left general purpose lanes and the full reconstruction of the existing tolled managed lanes, for a total of 12 general purpose and tolled managed lanes, construction of continuous frontage roads, and improvements to the I-635/I-30 interchange. On May 30, 2019, (Minute Order 115486, the Texas Transportation Commission (Commission) determined that it approved the award of the contract to the proposer selected by the Commission. The Commission also approved the award of the contract to the proposer selected by the Commission. The Commission also approved the award of the contract to the proposer selected by the Commission.

Under the DBG, construction work will begin in late 2019 or early 2020 and the project is scheduled to be substantially completed in late 2024. No later than a specified time prior to completion, TxDOT may exercise its option to require the DB Contractor to provide partial maintenance services for the I-635 LBJ East Project under a CMA for up to three consecutive five-year terms. TxDOT owns and will continue to own the project.

Pursuant to Transportation Code, Chapter 271, subchapter D, TxDOT is publishing financial information regarding the project and providing notice of a public hearing that will be held regarding the financial disclosure.

Project Financing: TxDOT intends to fund the Project with federal and state funding sources. No debt has been or will be assumed to acquire, design, construct, operate and maintain the Project.

Duration of Taking: TxDOT will collect tolls on the I-635 LBJ East Project based on the most current Right-of-Way Transportation Council (RTC) policy, even though there is no debt to repay.

Method for Setting Toll Rates: The initial toll rates will be set by the Commission in accordance with the managed lanes policy established by the RTC. The policy provides for the schedule pricing during the first six months and dynamic pricing thereafter. Pursuant to its managed lane policy, tolls for the initial 180-day period will be no greater than the maximum tolls described below. After that initial period, the toll rates will be based on user demand, as described below. The toll rates will be established to maintain a minimum average managed lane speed of 50 mph.

Competing Facilities: TxDOT has the right to build any facilities at any time. There are no tolls on the DBG related to competing facilities and there are no penalties associated with their construction.

Termination by Commission: TxDOT has the right to terminate the DBG at any time without cause. If TxDOT wishes to exercise the right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBG and the costs of terminating subcontractors.

Toll Rates: Based on demand projections and subject to Commission adoption, it is estimated that the toll rates charged will be as follows:

	2023 (in today's \$)	2040 (in today's \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.55

Methodology for increasing toll rates: Pursuant to the managed lane policy, the maximum toll rate is \$0.70/mile. The established rate will be evaluated and adjusted, if necessary, with RTC approval. This maximum toll rate cannot be exceeded during the first 180 days after traffic operations commence on the managed lanes. After the first 180 days, dynamic pricing goes into effect, as required by the RTC managed lane policy, which means that, after the first 180 days:

- If demand is low, such as during off-peak hours, a lower toll rate will be charged;
- If demand is high, such as during peak commute times, a higher toll rate will apply.

Concession Payments: There will be no concession payments.

Public Hearing: TxDOT will hold a public hearing concerning this disclosure of financial information for the I-635 LBJ East Project on Thursday, July 18, 2019 at the Highland Cafe Church of Christ, 10805 Walnut Hill Lane, Dallas, Texas 75238. An open house will be held from 8:00 p.m. - 8:00 p.m., and the formal presentation will take place starting at 7:00 p.m.

Questions and comments concerning the financial information will be accepted by TxDOT at the public hearing. Questions and comments may also be submitted to TxDOT by U.S. mail addressed to Ms. Grace Lo, P.E., Dallas District Office, 4777 E. Highway 80, Mesquite, Texas 75150-9842, or by e-mail to grace.lo@dotdallas.com. These comments will be accepted until 5:00 p.m., August 1, 2019, unless special circumstances exist. Copies of the draft Disclosure of Financial Information will be made available for viewing at the public hearing and at TxDOT's Dallas District office located at 4777 E. Highway 80, Mesquite, Texas 75150-9842, and can be accessed on TxDOT's website at www.txdot.gov/finance/information-disclosure. Copies of the draft Disclosure of Financial Information will also be made available for viewing at the public hearing and at TxDOT's Dallas District office at the cost of reproduction. TxDOT will consider all properly submitted questions and comments and will prepare a summary and analysis of the comments received. The summary and analysis will be posted on TxDOT's website and made available upon request. Persons interested in attending the hearing(s) who have special communication or accommodation needs are encouraged to contact the TxDOT Dallas District Public Information Office at (714) 520-4450. Requests should be made at least 72 hours prior to the public hearing. The public hearing will be conducted in English and Spanish interpretation will be provided; any requests for other special communication needs should be made at least 72 hours prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

KILIMANJARO

From PAGE ONE

provide mental and physical therapy for each veteran, Freedom Peak 1, the name of the expedition, was one of the largest U.S. veteran treks to date.

The Freedom Peak 1 journey included 10 veterans from Texas, New York, California and Southern Carolina. The organization originally chose 11 veterans to climb the mountain, but because of injuries and other circumstances, only 10 were able to make the trip.

Marine veteran Sgt. John Hardin, the Warrior's Keep co-founder and executive director, said the process of choosing people to climb up Kilimanjaro was very selective. Starting in September 2018, there were three phases of selection which included an interview section. People from all different backgrounds, ages, times served were chosen to participate in the training process for the climb.

During training, there were five phases throughout the weekends and weekdays to help prepare. Hardin described how since not everyone was able to come to training all the time because of work and family, social media

proved to be a large connector among the veterans where they could communicate their personal preparation for the trek.

"With everyone being so dispersed from all sides of the country, it's hard to engage in physical communication all the time, so we put it on the trailheads to push themselves for the challenge every day," Hardin said.

After the training was over, the Warrior's Keep flew the veterans to Tanzania for what could be one of the most challenging missions of their lives.

"I knew it would be difficult to climb up the mountain," Hardin said, "but when I actually started climbing, I found it to be the hardest thing I had ever done in my entire life."

Mount Kilimanjaro is the tallest mountain in Africa standing at 19,340 feet. Many of the team members' bodies and minds were put to the ultimate test on the trip, Hardin noted.

After the trek, Hardin mentioned the climb urged all the veterans to push themselves by their highest mental and physical potential.

In the end, the team achieved literally what no other group that large has done before.

"One of the best parts about this was that none of us knew each other going into it. But I have made some good friends throughout the trek, and we'll be successful journey," Hardin said.

DONATION

From PAGE ONE

make," Wenter said. "On behalf of myself, the company, the employees and our staff, we're grateful to be in Mesquite and to have the opportunity to be a part of this project."

Randy Lennix, of the Mesquite Veterans Memorial Committee, said they're thankful to everyone who has given to this project.

"We are breaking ground in November, and that's exciting news. After 11 years of work, it's a pleasure to be able to do this for our veterans," he said.

The Mesquite Veterans Memorial is a community-wide effort to build a new Veterans Memorial in Mesquite. The current Veterans Memorial, established in 1975, is at the flagpole in Heritage Square located in historic downtown Mesquite.

A new campaign, led by the city, is using the progress made by the Mesquite Memorial Committee to launch further public awareness and funding to build a new Veterans Memorial.

For more information on the memorial and how to contribute, visit cityofmesquite.com/1949/Mesquite-Veterans-Memorial.

INTERSTATE HIGHWAY 635 (I-635) LBJ EAST PROJECT

Public Hearing

Thursday, July 18, 2019 at Highland Oaks Church of Christ

- Yes I wish to make a statement during the "opportunity for public comment" portion of this hearing.

[Please Print Clearly]

Name: Susan Morgan

Address: 9227 Dove Meadow Dr

City: Dallas State: TX Zip: 75243

Please check and complete all applicable items:

I am an elected official: _____
Entity and Title

I am a public official: _____
Agency and Title

I am a media representative for: _____

I am a property owner in the vicinity of the proposed project.

I am a business operator in the vicinity of the proposed project.

I am a commuter or an interested citizen.

**In addition, per Texas Transportation Code Section 201.811(a)(5),
please check each box below that applies to you:**

I am employed by TxDOT.

I do business with TxDOT.

I could benefit monetarily from the project or other item about which I am commenting.

* Please return this form to the **sign-in table**. Do not place in comment box.

P R O C E E D I N G S

MS. CLEMENS: Ladies and gentlemen, if you want to go ahead and have a seat, we'll go ahead and get started.

All right. We'll go ahead and get started. Good evening, ladies and gentlemen. It is now 7 p.m., please be seated and we will begin tonight's public hearing.

My name is Ceason Clemens, I am the Deputy District Engineer for the Dallas District office of the Texas Department of Transportation, or TxDOT. We appreciate your interest in the Interstate Highway 635 Lyndon B. Johnson Freeway project or the I-635 LBJ East Project and welcome each of you.

We want to express our appreciation to Highland Oaks Church of Christ for the use of this facility tonight.

Before proceeding further, I'd like to introduce elected and public officials who are in attendance tonight or who were able to stop by during the open house.

First, with Deputy Mayor Pro Tem Adam McGough's office, we have Christina Collins here tonight. With the City of Garland, Mayor Pro Tem Rich Aubin. We also have Dallas County Commissioner Theresa

1 Daniel. Thank you.

2 Have I overlooked anyone? We appreciate
3 your attendance and we thank you for your interest in
4 this project.

5 I also want to introduce the people who have
6 official responsibility during tonight's hearing.

7 Members of the Department and consultant team, please
8 stand. Most of them are in the back.

9 They are available to answer your questions
10 and discuss your concerns regarding the project. Once
11 we adjourn, please feel free to visit with the staff
12 about the project.

13 We'd also like to thank those of who had an
14 opportunity to attend the open house earlier this
15 evening. As you arrived, you were given the opportunity
16 to register your attendance for this hearing on the
17 sign-in sheets at the registration table which allows us
18 to record tonight's participation.

19 You were also given an opportunity to fill
20 out a verbal comment registration form, which provides
21 you the opportunity to express your interest in this
22 project through a verbal statement during tonight's
23 opportunity for public comments portion of this hearing.

24 Our registration forms are the yellow sheets
25 at the front registration table which serves as a

1 written record of tonight's participation. If you did
2 not register and would like to, please do so during the
3 upcoming recess.

4 This public hearing is being convened to
5 disclose the financial information regarding the
6 design-build contract for the I-635 LBJ East Project
7 from east of United States Highway 75, or US-75, to
8 south of Interstate Highway 30, or I-30.

9 The table of contents is a summary of the
10 topics to be addressed during this public hearing. We
11 will describe the project; provide an update on the
12 environmental status of the project; outline the
13 procurement history and the financial information about
14 the project; provide information about the managed lane
15 policy and tolling information; describe the next steps
16 in the project; and we will conclude by opening up the
17 floor to public comments.

18 I would like to note that we will also
19 display this slide for your reference at the end of the
20 presentation. If you'd like to provide oral comments
21 today, please sign in at the registration table to
22 speak.

23 A court reporter is here this evening to
24 record all comments. Written statements may be prepared
25 and submitted tonight. They will also be accepted until

1 5:00 p.m. on August 1, 2019, at the address located on
2 the back of the written comment form. This form is
3 located at the registration table.

4 If you did not receive one as you came in,
5 please feel free to get one after the hearing. You may
6 also e-mail written comments to Grace Lo at
7 grace.lo@TxDOT.gov. Please address the subject line of
8 the line of e-mail to I-635 Financial Hearing. A
9 summary and analysis of the oral and written comments
10 will be made publicly available at the I-635 LBJ East
11 Web site.

12 Now I would like to explain the process for
13 this hearing. The state and federal governments have
14 various laws, regulations, and guidelines that outline
15 the processes whereby public awareness of project
16 planning can be assured.

17 As a part of our public involvement process
18 in developing highway projects, we hold public meetings
19 and hearings as a means of providing public information
20 to those people who are going to be affected by a
21 project and for those who have a need to be aware of the
22 project.

23 This public hearing is being held to receive
24 formal statements from the public regarding the
25 financial status of the project that may be of concern

1 to any individual or group.

2 All of the oral and written statements
3 received will be given careful consideration in the
4 final development of this project.

5 Before TxDOT may enter into a contract for
6 the construction of this project through a design-build
7 contract, the Department is required to hold a public
8 hearing concerning the disclosure of financial
9 information published pursuant to Transportation Code,
10 Chapter 371, subchapter D.

11 The purpose of this hearing is to disclose
12 and provide an opportunity for public comment on the
13 financial information for the project. A notice of this
14 hearing has been published in various newspapers.

15 The presentation will conclude the formal
16 session of the public hearing. As I mentioned earlier,
17 a court reporter will be available after the
18 presentation to transcribe your individual oral
19 comments, if you choose to provide them, or you may also
20 provide written statements tonight or to the TxDOT
21 Dallas District office by August 1, 2019.

22 The public hearing will provide a record of
23 public participation. A written summary and analysis,
24 including responses to comments, along with a copy of
25 the public hearing transcript, will be posted and

1 available for viewing on TxDOT's Web site and made
2 available upon request.

3 The public involvement process related to
4 the advanced project development and environmental
5 clearance is a separate process providing information
6 different from what will be presented at tonight's
7 public hearing.

8 Federal Highway Administration, or FHWA,
9 environmental clearance for this project has already
10 been received and the environmental history of the
11 project will be discussed in greater detail in the
12 following slides.

13 Now I will begin with an overview regarding
14 the project scope, status, financing, and the contract.

15 The design-build contract for the I-635 LBJ
16 East Project includes the development, design, and
17 construction of an 11-mile section of I-635 from east of
18 US-75 to south of Interstate 30, including the I-635 and
19 I-30 interchange in Dallas County.

20 TxDOT may exercise one or more options to
21 require the design-build contractor to provide capital
22 maintenance services for the project for up to three
23 consecutive five-year terms. TxDOT owns and will
24 continue to own the project.

25 The typical section on the screen is

1 representative of the proposed I-635 roadway
2 configuration. This is intended to represent what the
3 roadway will look like after the project is constructed.
4 This does not necessarily apply to all sections of the
5 project.

6 The project will include the full
7 reconstruction and widening of the facility from eight
8 to ten general purpose lanes and the full reconstruction
9 of the existing grandfathered tolled managed lanes, for
10 a total of twelve general purpose and tolled managed
11 lanes, construction of continuous frontage roads, and
12 improvements to the I-635/I-30 interchange.

13 The department has agreed to grandfather and
14 permit the reconstruction of the existing one tolled
15 managed lane in each direction as part of the project
16 scope.

17 The purpose of the I-635 LBJ East Project is
18 to increase safety and mobility within the I-635
19 corridor, relieve congestion, provide reliable travel
20 times and accommodate projected growth through the
21 region.

22 The original I-635 environmental assessment,
23 or EA, received environmental clearance through a
24 finding of no significant impact, or FONSI, issued by
25 FHWA on January 30, 2003. In April 2017, after making

1 updates to the 2003 design, a re-revaluation was
2 required.

3 It was determined that the 2003 EA-FONSI
4 remain valid. An additional consultative re-evaluation
5 occurred in 2018 to bring the proposed depressed managed
6 lane section to the same level as the general purpose
7 lanes. It was completed in September of 2018.

8 A third re-evaluation on the project's FONSI
9 to clarify the design and construction of the
10 grandfathered existing one tolled managed lane in each
11 direction was approved in May 2019.

12 The proposal process for the project began
13 over a year ago in June of 2018 when TxDOT issued a
14 request for qualifications, or RFQ, for the project.
15 TxDOT received qualification statements. On July 26,
16 2018, TxDOT shortlisted three teams to develop detailed
17 proposals for the project.

18 TxDOT issued the request for proposals, or
19 RFP, to these teams in November of 2018 and received
20 proposals from the teams in March and April of this
21 year.

22 The best value proposer, Pegasus Link
23 Constructors, was announced on May 30, 2019, by the
24 Texas Transportation Commission, and TxDOT is currently
25 in negotiations with them.

1 The proposed project duration is
2 approximately five years from contract execution. As
3 previously mentioned, their proposal also included an
4 optional capital maintenance agreement.

5 TxDOT may exercise its sole option to
6 require Pegasus Link Constructors to provide capital
7 maintenance services for the I-635 LBJ East Project for
8 up to three consecutive five-year terms. TxDOT owns and
9 will continue to own the project.

10 Pegasus Link Constructors is selected as the
11 design-build contractor for the I-635 LBJ East Project.
12 The equity members include Balfour Beatty Infrastructure
13 and Fluor Enterprises.

14 TxDOT intends to fully fund the project with
15 federal and state funding sources and on the screen are
16 examples of those funding categories.

17 TxDOT has not issued or assumed any project
18 debt to acquire right-of-way, design, construct,
19 operate, or maintain the project. There will be no
20 concession payments and TxDOT will collect tolls on the
21 I-635 LBJ East Project based on the most current
22 Regional Transportation Council policy, even though
23 there is no debt to repay.

24 The Regional Transportation Council, or RTC,
25 of the North Central Texas Council of Governments has

1 provided the policy to be used for operations of managed
2 lanes in this region.

3 TxDOT has adopted these policies and will
4 implement them throughout the I-635 LBJ East Project.
5 The policies include, but are not limited to the
6 following:

7 A fixed fee schedule will be applied during
8 the first six months of operations. The toll rate will
9 be set up to a maximum of \$.75 per mile during the fixed
10 fee period. Dynamic pricing will be applied thereafter.
11 Market-based tolls will be used during the dynamic
12 pricing phase.

13 High demand time period will have higher
14 toll rates and low demand time period will have lower
15 toll rates. Single occupant vehicles will pay the full
16 price.

17 Trucks will be allowed to use the managed
18 lanes and will pay a higher rate. High occupancy
19 vehicles, or HOVs, and publicly-operated vanpools will
20 pay the full rate in the off-peak period.

21 HOVs will receive a 50 percent discount
22 during the peak period. Eligible HOVs must pre-register
23 as part of the HOV pre-declaration process.

24 RTC-sponsored public vanpools are permitted
25 to add peak period tolls as eligible expenses. This

1 discount will phase out after the Air Quality Attainment
2 Maintenance Period. Transit vehicles will not be
3 tolled.

4 The toll rate will be established to
5 maintain a minimum of 50 miles per hour average managed
6 lane speed. The initial toll rates will be set by the
7 Texas Transportation Commission in accordance with the
8 managed lane policy established by the Regional
9 Transportation Council of the North Central Texas
10 Council of Governments.

11 The policy provides for fixed schedule
12 pricing during the first six months and dynamic pricing
13 thereafter. The dynamic pricing toll rates will be
14 based on user demand.

15 Under anticipated operation -- operating
16 conditions, the estimated cost in tolls to travel per
17 mile in today's dollars (which are unadjusted for future
18 inflation) are expected to range from \$0.30 to \$.35 in
19 2023. In the year 2040, the range is \$.53 to \$.82 per
20 mile. These ranges reflect the need to manage the speed
21 on managed lanes at all times during the day.

22 Although there is no debt to repay for the
23 project, tolls will be collected on the project based on
24 the current Regional Transportation Council policy.

25 TxDOT has the right to build any facilities

1 at any time. There are no terms in the design-build
2 contract related to competing facilities, and there are
3 no penalties associated with their construction.

4 Pursuant to the contract that TxDOT is
5 negotiating with the Pegasus Link Constructors team,
6 TxDOT has the right to terminate the design-build
7 contract at any time without cause. However, if we
8 decide to do that, TxDOT must pay Pegasus Link
9 Constructors a negotiated settlement amount for any
10 design and construction work already performed under the
11 design-build contract and the costs of terminating
12 subcontracts.

13 The next steps include completing the
14 negotiation and finalizing the contract with Pegasus
15 Link Constructors. The contract documents will then be
16 sent to the Federal Highway Administration for review.

17 We expect to give the design-build
18 contractor notice to proceed with the project in the
19 fall of this year. Construction on the contract is --
20 of the project is expected to begin next year, and we
21 expect the project to be substantially complete in late
22 2024.

23 The contract information developed
24 concerning this project is available upon request for
25 public inspection and copying at the TxDOT Dallas

1 District Office and on the TxDOT Web site. We have also
2 brought a copy of the most current version of the
3 contract with us tonight for your viewing after the
4 hearing.

5 Before we take a ten-minute recess, I would
6 like to mention that we will not attempt to answer your
7 questions while you have the floor during the
8 opportunity for public comment. This procedure is
9 necessary so that everyone is given an opportunity to
10 speak and because your comments will be given due
11 consideration. We would be happy to answer your
12 questions during the recess or even after the hearing.

13 All comments and questions will be fully
14 considered and responded to in the project record. A
15 summary and analysis of comments will be posted on
16 TxDOT's Web site and made available upon request.

17 For the benefit of those who may have
18 arrived late, I would ask the members of the Department
19 and our consultant team staff to please stand.

20 They are available to answer your questions
21 and discuss your concerns regarding the project. As a
22 reminder, if you did not sign in when you came in,
23 please do so. This is for our records in determining
24 attendance at this hearing.

25 At this time, we will take a ten-minute

1 recess and reconvene at 7:27. Thank you.

2 (Break taken from 7:17 p.m. to 7:29 p.m.)

3 MS. CLEMENS: Ladies and gentlemen, if you
4 want to have a seat we'll reconvene the hearing. Thank
5 you.

6 Ladies and gentlemen, we are now reconvening
7 tonight's public hearing. We have made our presentation
8 on the latest available information on the project, and
9 it is now time for us to listen to your comments.

10 Again, please be aware that we will not
11 attempt to respond to your comments or answer questions
12 during this period. All comments will be fully
13 considered and responded to in the project record.

14 Some of you may not want to make a statement
15 from the microphone. In that event, a court reporter is
16 here this evening to record all oral comments. And your
17 written statements will be equally accepted here at the
18 hearing, or until 5:00 p.m. on August 1, 2019, at the
19 address located on the back of the written comment form.

20 This form is located at the registration
21 table. If you did not receive one as you came in,
22 please feel free to get one after the hearing. You may
23 also e-mail written comments to Grace Lo at
24 grace.lo@TxDOT.gov. Please add "I-635 Financial
25 Hearing" in the subject line of the e-mail so that your

1 comment can be recorded and evaluated.

2 Each oral statement presented to the court
3 reporter and each written statement received tonight and
4 on or before Thursday, August 1, 2019, will be responded
5 to in writing in the summary and analysis.

6 The summary and analysis will be posted on
7 TxDOT's Web site and made available upon request when
8 completed.

9 We have a listing of three people registered
10 who would like to make statements. Please limit your
11 speaking time to three minutes. For the official
12 transcript, please clearly state your name and address
13 as you take the floor before proceeding with your
14 statements.

15 The names of speakers will be called in the
16 order they were received. The hearing will adjourn
17 after all who have registered to make verbal comments
18 have been heard. Please use the microphone in the
19 front, Jody has it right here, he'll hand it to you.
20 And please face our court reporter so that we can have
21 an accurate record of your comments.

22 We will begin with Mr. Steve Edwards,
23 followed by Mr. David Jones.

24 MR. STEVE EDWARDS (4303 Via Barcelona,
25 Mesquite, 75150): Thank you. Let me preface my

1 statement by saying that I got halfway satisfied by Mr.
2 Craig back there.

3 My comment was in reference to the managed
4 lanes from the whole -- for the whole stretch. As long
5 as a single managed lane exists on each side, you're
6 going to have frustration.

7 You're going to have people waisting time
8 because they're going to be behind 18-wheelers and
9 slower drivers than in the regular lanes. Maintaining a
10 single managed lane on each side of this stretch of
11 interstate is about as useful as putting screen doors on
12 a submarine.

13 I've experienced way too many times where I
14 got in that managed lane and I was waisting time because
15 there were people in there that really didn't belong in
16 there. I don't think 18-wheelers belong in there and
17 I'm sure a lot of these people have experienced the same
18 frustration.

19 So but I understand from Mr. Craig that
20 there is going to be a lot of room in those managed
21 lanes and eventually, somewhere down the line, they may
22 become two lanes on each side. If that's the case, that
23 will be fine. But all I can say to that is the sooner
24 the better.

25 MS. CLEMENS: Thank you, Mr. Edwards.

1 (Applause.)

2 MS. CLEMENS: Next we have Mr. David Jones,
3 followed by Ms. Susan Morgan.

4 MR. DAVID JONES: I'm David Jones, my
5 address is 6510 Clubhouse Circle in Dallas, 75240.

6 I'm actually a private developer here in
7 Dallas and a broker. I just want to make a couple of
8 comments about the design-build contract itself.

9 One of the things that is obvious if you
10 read the contract is that the staging yard, which is the
11 21 acres, plus or minus, at the southeast corner of 75
12 and 635 is going to continue to be used as a staging
13 yard for the next five years.

14 For whatever it's worth, that piece of
15 property is probably one of the most valuable pieces of
16 property for a redevelopment parcel that exists in DFW
17 as we speak.

18 And one of the reasons I know is because
19 I've made two offers on the property to TxDOT in which
20 they basically considered the offers but ultimately
21 ended up saying that they were not going to offer the
22 property for sale because they were going to make it
23 available for the contractor at no cost to basically use
24 as a staging yard for the construction of the east
25 extension of LBJ.

1 The value of that property on the open
2 market through a bid process is well in excess of \$20
3 million. So I would dare say that that property is
4 going to probably be the most expensive staging yard in
5 the history of construction in Dallas, Texas.

6 I'd like for somebody to review that, take a
7 look at that instead of the fact there's not other
8 alternatives. I actually presented two alternative
9 locations for the consideration and ultimately I think
10 the contractors looked at it and decided that that
11 really wasn't as beneficial, for whatever reason, I'm
12 not sure, I could guess, but I'm not sure. So that's my
13 concern, and I'd like for somebody to take a look at
14 that.

15 MS. CLEMENS: Thank you, Mr. Jones. Next,
16 we have Ms. Susan Morgan.

17 MS. SUSAN MORGAN: My name is Susan Morgan,
18 I live at 9227 Dove Meadow, Dallas, 75243. I've been
19 involved with TxDOT and the North Central Texas Council
20 of Governments on this project for quite some time, but
21 many of my neighbors have been involved with it even
22 longer.

23 I'm just here to say I want to appreciate
24 everything that TxDOT has done, working with the
25 engineers, has been really an excellent process for me

1 over the last thirteen years that I've been involved.

2 We've had some difficulties. We've gotten
3 through them. And we are where we are and on behalf of
4 my neighbors and friends and the rest of the community
5 in Lake Highlands, we just want to say we're really
6 excited to get this thing kicked off. So thank you so
7 much.

8 MS. CLEMENS: Thank you, Ms. Morgan.

9 (Applause.)

10 Is there anyone else who would like to come
11 forward to make a statement? All right. Ladies and
12 gentlemen, we sincerely appreciate your attendance and
13 interest concerning the I-635 LBJ East Project.

14 Your questions, comments, and concerns will
15 receive careful consideration. If you want to stay and
16 look at the contract, we'll have people around to assist
17 you.

18 The court reporter is also available to take
19 your individual oral comments, but the formal portion of
20 the hearing is officially adjourned. Thank you and have
21 a good evening.

22 (End of public hearing at 7:36 p.m.)

23

24

25

1 STATEMENT OF DOROTHY FERGUSON

2 (VERBAL STATEMENT DICTATED TO COURT REPORTER PRIOR TO
3 COMMENCEMENT OF THE PUBLIC HEARING.)

4 THE COURT REPORTER: What is your name and
5 address?

6 MS. DOROTHY FERGUSON: Dorothy Ferguson, I
7 am actually, I have just moved out of the Lake Highlands
8 area. I'm at 6211 Northwest -- West Northwest Highway,
9 No. 1806, and my ZIP code is 75225.

10 As this program is a very important program,
11 and quite honestly we have some major difficulties with
12 portions of our transportation area as it is, I think it
13 was poor judgment to plan this without at least advising
14 or sending out something showing possibilities and
15 allowing people to think about it.

16 I think that better things could be done,
17 maybe through our colleges in their design effort so
18 they can try to keep things where we don't have that
19 ridiculous over, high thing down on 35 in downtown.

20 It doesn't make a lot of sense to continue
21 to pour more concrete. They keep telling you to plant
22 more trees, and the only thing I've seen TxDOT do lately
23 is cut trees down so.

24 I think that we have some major issues here
25 and we're not anti. We understand that something needs

1 to be done. But the more input and the more we all talk
2 about it and discuss it, the better off we're all going
3 to be.

4 I don't know how else to say that. I don't
5 know how you feel, but just, I drive 635 and 75 every
6 day. And I have, I'm (indiscernible) advertising so I'm
7 on there. And they've got seven on-ramps that feed on
8 right at 75 going south.

9 And it's just -- it's not feasible. No
10 wonder you have accidents. And then the off-ramp
11 feeding off 75 to go onto 635 going east causes a major
12 mess over there and then you -- everything backs up
13 immediately.

14 And we need to really eliminate a number of
15 the on-ramps and off-ramps and particularly there should
16 never be an off-ramp going up to the traffic light. I
17 guess I can go home now.

18 My dad built highways. H.P. Zachary, in
19 fact, my dad designed the diamond crusher that crushed
20 the gravel for the highways and stuff like that. I've
21 been around highways for a lot. I thought it was almost
22 an insult and I think the state has made a major mess.

23 I think we ought to have a Texas Highway
24 Department and I think a subordinate ought to be highway
25 maintenance and toll roads, I think that without a lot

1 of high paid people running both those areas.

2 And we don't have people working but we can
3 certainly use them at the Texas Highway department going
4 around. We could do that. We could train people to be
5 -- have pride in their area. Now they just think
6 everybody else does it.

7 So if we start doing our own work and try to
8 develop a little rapport I think it would be better. We
9 don't make changes and we don't do things to create
10 problems. But when we do, we've got to recognize it.
11 It's probably my husband's fault. My husband died May
12 the 17th.

13 He is probably thinking you just don't have
14 enough to do, but I've always thought things could be
15 better. I don't like to criticize things, I just think
16 things could be better. Thank you.

17 And is there a possibility you can get an
18 account of what goes on here? The only reason is my --
19 the lady that has the PDI that does the highway
20 situation, she works with them for the location of
21 plants and stuff like that in our area, she's on
22 vacation, my city councilman is on vacation.

23 I'd love to see the colleges challenge some
24 of the people, young men, because I think that would be
25 new thinking. Engineers ought to be actually, do

1 something that is already been precise.

2 (End of Ms. Ferguson's statement.)

1 STATEMENT OF MS. PATRICIA LAWRENCE

2 11311 AUDELIA AT I-635, DALLAS

3 (VERBAL STATEMENT DICTATED TO REPORTER AFTER
4 THE PUBLIC HEARING WAS COMPLETED.)

5 MS. PATRICIA LAWRENCE: Our location is an
6 incredibly hectic stop. We have an exit at that
7 location and I'm concerned that at the moment we have a
8 median where it allows us a somewhat safe way to make a
9 left turn heading toward Forest, from our location.

10 The way they've proposed it now, it
11 virtually eliminates a left turn because there's no
12 median, no way to have a safe place to cross six lanes
13 of traffic. So it virtually limits us to a right turn
14 only onto the freeway.

15 And my concern was it's a heavy traffic
16 area. We have 172 units just in my complex alone.
17 There's like four other complexes plus a lot of duplex
18 facilities there. And so anyway, I'm more concerned
19 with how we can exit where we live.

20 Because my guess would be you're talking a
21 thousand cars in that little spot alone, approximately.
22 And we have been -- we don't have the option really of a
23 safe left turn from our location.

24 And there's school buses, there's kids, and
25 across is a DART station. So it makes it -- and there

1 's little shops and all this other. It makes it really
2 difficult if you want to cross all the way to those
3 locations because there's a tiny distance between our
4 exit and the traffic light and 635.

5 And you've got traffic -- if I counted how
6 many lanes of traffic that was when you count north,
7 south, east, west, now we're talking, I don't know, 25
8 lanes or something. Would it be about that many?

9 We're talking maybe four, there may be four,
10 eight, you know, another two more, that's ten, another
11 one to exit, there's six on ours so that's maybe fifteen
12 lanes coming in all directions in a tiny space. And so
13 I'm really more concerned about how do we enter and
14 exit. Entering is going to be hard.

15 The other problem is there's a bend in the
16 road and from where we exit, there's a bend in the road
17 so there's sort of a blind spot to our left. And so
18 there's a poor visibility which may be a safety hazard
19 as well.

20 And so those are some of my issues. We are
21 in this tiny spot where everybody's making all these
22 decisions in a tiny area. They're all in cars. And so
23 I'll write what I think, and I'll actually send photos
24 as well so they can look at that.

25 And the other thing is I'd love to see it

1 develop. I'm happy that they're doing this. I just
2 want to make sure our spot is safe because it's this
3 tiny, hugely congested area.

4 And with that location, if they could really
5 pretty it up and connect us somehow to the DART station
6 and make it like a Mockingbird station kind of thing, it
7 would be lovely. But right now they're shutting us off
8 basically, or making it -- we can't make a left turn.

9 We just won't be able to make a left turn
10 safely. And with the curve in the blind spot, it's
11 going to be really weird. We're happy about this, we
12 really are.

13 We just want to make sure, when I saw that,
14 I was very surprised they didn't put a median between
15 all the three lanes coming one direction and the three
16 going the other direction.

17 I would have put a median there, there's a
18 median now and they're taking it away. We're scared now
19 as it is, but this makes it even harder. And so and
20 there's lot of traffic, believe it or not, going in and
21 out of there.

22 It looks like there isn't, but there really
23 is. You have to live there to know that it's a hugely
24 heavy trafficked area. Thank you so much. We're happy
25 about this though. It's happening because it did need a

1 pretty development and it also just needs to be a safe
2 development.

3 (End of Ms. Lawrence's statement.)

4 (End of verbal statements.)

2374-01-190; 2374-01-191; 2374-02-171

Thursday, July 18, 2019

The Texas Department of Transportation is seeking your comments on the proposed project. All written comments are welcome. **All written comments must be received by Thursday, August 1, 2019.**

Please Print

THIS IMPORTANT PROJECT IS NEEDED FOR THE EAST DALLAS & GARLAND AREAS. IT WILL IMPROVE TRAFFIC MOVEMENT AND SHOULD OPEN UP AREAS ADJACENT TO THE HIGHWAY FOR NEW ECONOMIC DEVELOPMENT. PLEASE DO NOT ALLOW OUR ELECTED OFFICIALS TO POSTPONE IT ANY MORE. IT HAS BEEN RIDICULOUS HOW PEOPLE IN AUSTIN HAVE DICTATED THE TERMS AND REPEATEDLY GOT THIS PROJECT SIDETRACKED. WE WOULD REALLY PREFER TWO TOLLED LANES IN EACH DIRECTION, BUT WE WILL LIVE WITH WHAT THE IDIOTS NEGOTIATED. MAKE IT HAPPEN AND GET ON WITH IT!!

(Per Texas Transportation Code, §201.811(a)(5)): Please check each of the following boxes that apply to you:

- I am employed by TxDOT.
- I do business with TxDOT.
- I could benefit monetarily from the project or other item about which I am commenting.

To: Grace Lo
Subject: 635 East toll rates

This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Ms Lo,

I am writing to express my displeasure with the toll rates that are planned for LBJ east. I do not support the toll lanes being included at all but since they were grandfathered why not just build the one lane which was agreed to and not pay for all the concrete to lay the empty lane next to it. These rates could be much lower if we weren't paying to pave the extra lane.

That being said I found that the rates proposed are exceptionally high in my opinion. I do not support these proposed rates and would like to see them lowered. I am not a supporter of the demand charges. They go up past the average persons ability to pay!

Best regards,
Jim Bookhout

- Please expand the "Grandfathered" Managed Lanes to two lanes in each direction. It is only a matter of time that these lanes will be necessary. I am happy to contact any state &/or local representatives in order for this to happen & express the need too.

- Please share with us the incentives & penalties for Pegasus Link Constructors for early, on time & late completion. Additionally, how can we ensure, that during construction that the signage, safety, cones, barricades, etc., is paramount to successful completion of this project.

Please Print The project purpose slide #8 bullet #4 states "to accommodate projected growth through the region." Based on the principles of growth instead of the single "grandfathered" lane in the HOV/managed lanes, TXDOT should seek to have two lanes (each way) instead of only one lane. We know the area is growing rapidly and two lanes (or more) will be needed in the future. Do it now instead of later. In consideration, currently between 75 + 35 the managed lanes include 2-3 lanes each way so it would make sense to continue this through the scope of this project too.

Please Print There is a huge population of residents who will not be allowed to use the managed lanes and exit efficiently if they are driving home from 635 East towards Ferguson Rd. Currently there is an exit at Ferguson and also La Prada. The new proposed construction does not include an exit from the managed lane and so residents would be forced to exit at Plano Rd or after La Prada which is very far and inefficient.

Opportunity for Public Comment

Ms. Ceason Clemens, P.E.

Please limit your speaking time to no more than 3 minutes so that everyone who wishes to speak may have an opportunity to do so.

The Texas Department of Transportation is seeking your comments on the proposed project. Both verbal and written comments are welcome. If you would like to speak during the "Opportunity for Public Comment" portion of the hearing, indicate your desire to do so on a verbal comment registration form. The court reporter will also be available to take verbal comments during the open house.

Written comments may be submitted this evening or sent to the following address: TxDOT Project Manager, Ms. Grace Lo, P.E., TxDOT Dallas District, 4777 E. US Highway 80, Mesquite, TX 75150. All written comments must be **received or postmarked no later than Thursday, August 1, 2019**, to be considered and included in the official public hearing record.

Please note that you will not receive a direct response to verbal or written comments. All verbal and written statements will be responded to in writing in the Summary and Analysis. The Summary and Analysis will be posted on TxDOT's website and made available upon request when completed.

Public Comment Instructions

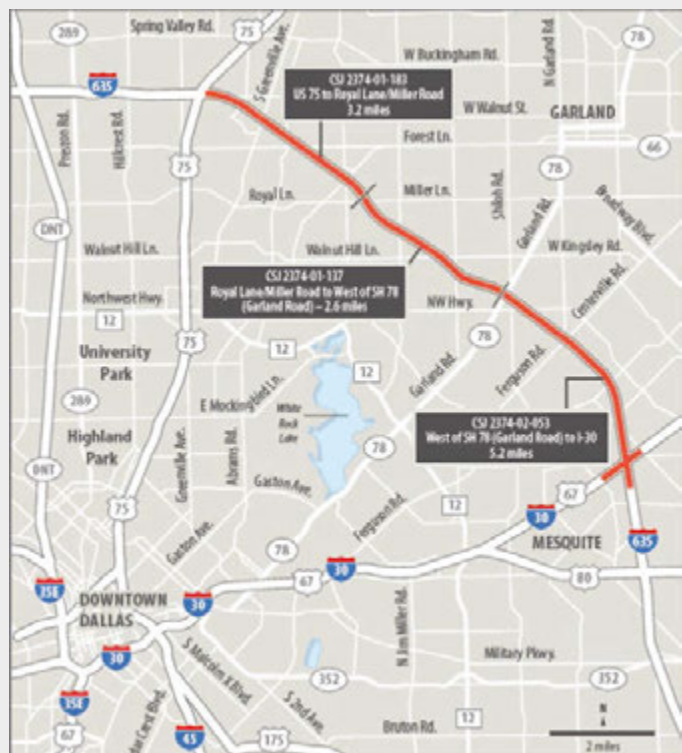

- Oral comments tonight:
 - Please sign-in at the registration table to speak.
 - A court reporter is available to document oral comments.
- Written comments may be submitted tonight here at the hearing and also be mailed to:
Grace Lo, P.E.
Dallas District Construction
TxDOT Dallas District Office
4777 Highway 80 East
Mesquite, Texas 75150
- E-mail written comments to grace.lo@txdot.gov with the subject line “I-635 Financial Hearing”
- Written comments must be postmarked and/or e-mailed by August 1, 2019.
- Summary and analysis of comments will be posted TxDOT’s webpage at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>

Public Hearing Purpose

- Describe the I-635 LBJ East Project.
- Describe financial information for the project.
- Provide an opportunity for the public to comment on the financial information.

Project Overview

- **Design-Build (DB) Contract** to develop, design and construct an approximately 11-mile section of I-635 from east of US 75 to south of I-30, including the I-30 interchange.
- **Capital Maintenance Agreement (CMA)**
 - TxDOT may exercise one or more options to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project for up to three consecutive five-year terms.

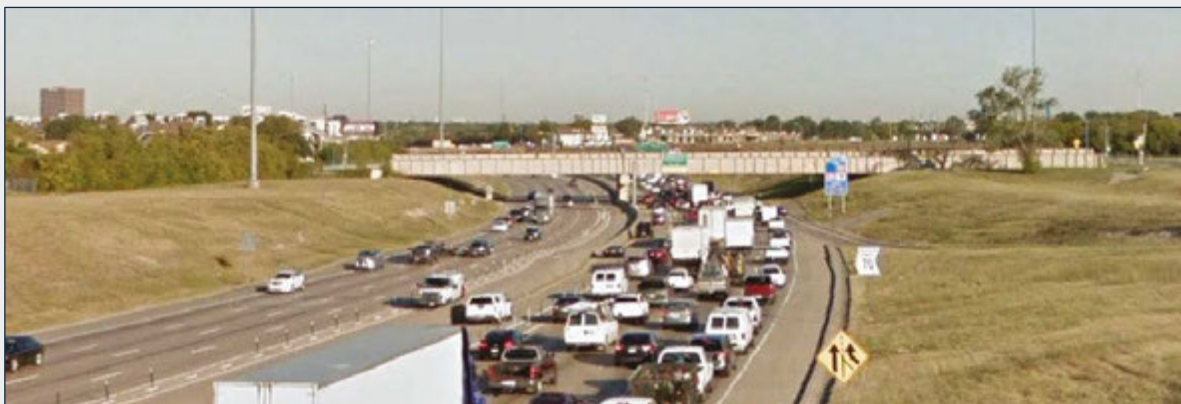

Project Overview

- Full reconstruction and widening of the general purpose lanes from eight (8) lanes to ten (10) lanes
- Full reconstruction of the “grandfathered” existing two (2) tolled managed lanes
- A total of twelve (12) general purpose and tolled managed lanes
- Construction of continuous frontage roads
- Reconstruction of the I-30/I-635 interchange

Project Purpose

- Increase safety and mobility
- Relieve congestion
- Provide reliable travel times
- Accommodate projected growth through the region

Environmental History

- Original I-635 Environmental Assessment (EA):
 - Finding of No Significant Impact (FONSI) issued – January 2003

- Re-Evaluation #1:
 - 2003 EA-FONSI remained valid – April 2017

- Consultative Re-Evaluation #2:
 - 2003 EA-FONSI remained valid – September 2018

- Re-Evaluation #3:
 - 2003 EA-FONSI remained valid – May 2019

Procurement History

- Two-step process was used to determine the best-value proposer
- Request for Qualifications (RFQ) Phase:
 - June 8, 2018 – Issued RFQ
 - July 26, 2018 – Short-listed three of four proposers
- Request for Proposals (RFP) Phase:
 - November 9, 2018 – Issued final RFP
 - March 15, 2019 – Received three technical proposals
 - April 15, 2019 – Received three financial proposals
 - May 30, 2019 – Recommended Conditional Award to Pegasus Link Constructors
- August 2019 – Anticipated contract execution
- Late 2024 – Anticipated substantial completion

Pegasus Link Constructors

Equity Members:

Balfour Beatty Infrastructure, Inc.

Fluor Enterprises, Inc.

Project Financing

- TxDOT intends to fully fund the project with federal and state funding sources. No debt has been or will be assumed to acquire right-of-way, design, construct, operate and maintain the project.
 - Anticipated funding sources include, but are not limited to:
 - Category 2, Metropolitan and Urban Area Corridor Project Funds
 - Category 4, Statewide Connectivity Corridor Project Funds
 - Category 5, Congestion Mitigation and Air Quality Improvement Funds
 - Category 7, Metropolitan Mobility and Rehabilitation Funds
 - Category 11, District Discretionary Funds
 - Category 12, Strategic Priority Funds
 - Appropriation 13035
- There are no concession payments.
- TxDOT will collect tolls on the I-635 LBJ East managed lanes based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Methodology for Increasing Toll Rates:

- A fixed-fee schedule will be applied during the first six (6) months, up to a maximum of \$0.75 per mile
- Dynamic pricing will be applied after the six (6)-month fixed-fee period
 - Market-based tolls will apply
 - Peak (rush) hour/high demand times will have higher toll rates
 - Off-peak/low demand times will have lower toll rates
 - Single-occupancy vehicle will pay the full rate
 - Trucks will be allowed to use the managed lanes and will pay a higher rate
 - High-occupancy vehicles (HOV) and vanpools will pay the full rate in the off-peak period
 - HOV vehicles will receive a 50% discount during the peak period; eligible HOVs must pre-register
 - RTC-sponsored public vanpools are permitted to add peak-period tolls as eligible expenses
 - Transit vehicles will not pay tolls
- Toll rate will be established to maintain a minimum 50 mph average managed lane speed
- The complete policy is available online at: <https://resources.nctcog.org/trans/committees/rtc/index.asp>

Source: NCTCOG

Estimated Toll Rates

- The initial toll rates will be set by the Texas Transportation Commission in accordance with managed lanes policy established by the Regional Transportation Council of the North Central Texas Council of Governments.
- Under expected operating conditions, the anticipated toll rates are:

Price per Mile	2023 (in today s \$)	2040 (in today s \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.53

Contractual Provisions

- **Competing Facilities**
 - TxDOT has the right to build any facilities at any time.
 - There are no terms in the DB Contract related to competing facilities and there are no penalties associated with their construction.

- **Termination for Convenience**
 - TxDOT has the right to terminate the DB Contract at any time without cause.
 - If TxDOT elects to exercise this right:
 - TxDOT must pay the DB Contractor for the design and construction work already performed under the DB Contract and the costs of terminating subcontracts.

Next Steps

- Complete negotiation with Pegasus Link Constructors and finalize the contract

- Contract review by:
 - Federal Highway Administration

- Notice to Proceed is expected in Fall 2019

- Construction expected to begin next year

- Substantial completion expected in late 2024

10 minute recess

Comment period following recess

Recess

Public Comment Instructions

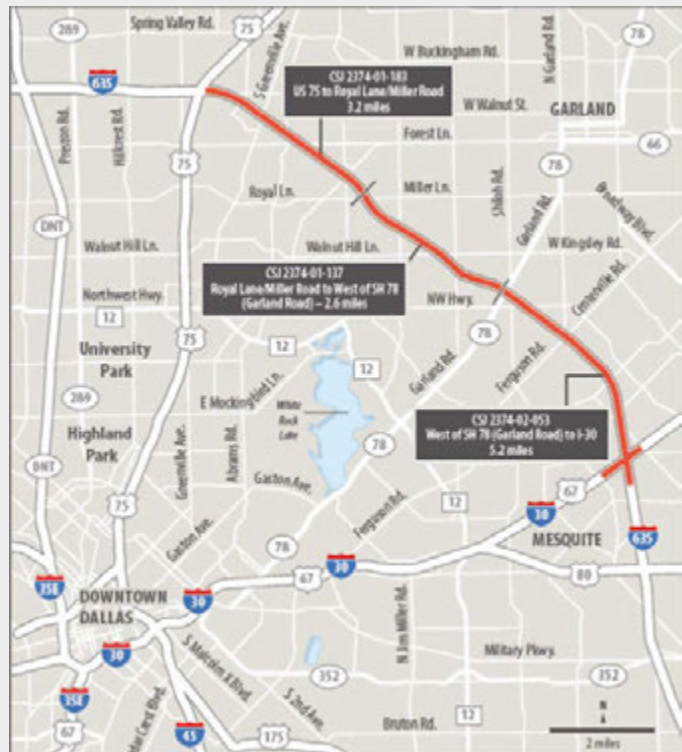

- Oral comments tonight:
 - Please sign-in at the registration table to speak.
 - A court reporter is available to document oral comments.
- Written comments may be submitted tonight here at the hearing and also be mailed to:
Grace Lo, P.E.
Dallas District Construction
TxDOT Dallas District Office
4777 Highway 80 East
Mesquite, Texas 75150
- E-mail written comments to grace.lo@txdot.gov with the subject line “I-635 Financial Hearing”
- Written comments must be postmarked and/or e-mailed by August 1, 2019.
- Summary and analysis of comments will be posted TxDOT’s webpage at <https://www.txdot.gov/inside-txdot/division/debt/strategic-projects/alternative-delivery/lbj-east/rfp.html>

Public Hearing Purpose

- Describe the I-635 LBJ East Project.
- Describe financial information for the project.
- Provide an opportunity for the public to comment on the financial information.

Project Overview

- **Design-Build (DB) Contract** to develop, design and construct an approximately 11-mile section of I-635 from east of US 75 to south of I-30, including the I-30 interchange.
- **Capital Maintenance Agreement (CMA)**
 - TxDOT may exercise one or more options to require the DB Contractor to provide capital maintenance services for the I-635 LBJ East Project for up to three consecutive five-year terms.

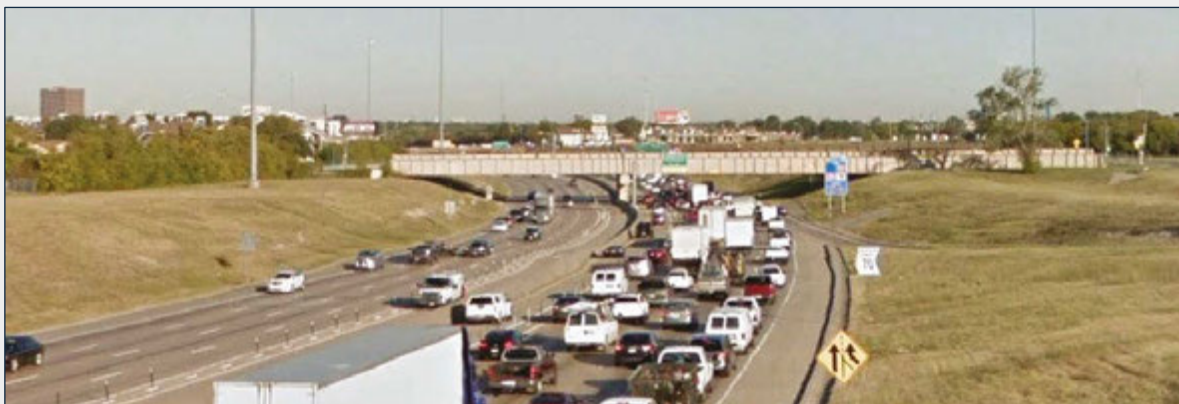

Project Overview

- Full reconstruction and widening of the general purpose lanes from eight (8) lanes to ten (10) lanes
- Full reconstruction of the “grandfathered” existing two (2) tolled managed lanes
- A total of twelve (12) general purpose and tolled managed lanes
- Construction of continuous frontage roads
- Reconstruction of the I-30/I-635 interchange

Project Purpose

- Increase safety and mobility
- Relieve congestion
- Provide reliable travel times
- Accommodate projected growth through the region

Environmental History

- Original I-635 Environmental Assessment (EA):
 - Finding of No Significant Impact (FONSI) issued – January 2003

- Re-Evaluation #1:
 - 2003 EA-FONSI remained valid – April 2017

- Consultative Re-Evaluation #2:
 - 2003 EA-FONSI remained valid – September 2018

- Re-Evaluation #3:
 - 2003 EA-FONSI remained valid – May 2019

Procurement History

- Two-step process was used to determine the best-value proposer
- Request for Qualifications (RFQ) Phase:
 - June 8, 2018 – Issued RFQ
 - July 26, 2018 – Short-listed three of four proposers
- Request for Proposals (RFP) Phase:
 - November 9, 2018 – Issued final RFP
 - March 15, 2019 – Received three technical proposals
 - April 15, 2019 – Received three financial proposals
 - May 30, 2019 – Recommended Conditional Award to Pegasus Link Constructors
- August 2019 – Anticipated contract execution
- Late 2024 – Anticipated substantial completion

Pegasus Link Constructors

Equity Members:

Balfour Beatty Infrastructure, Inc.

Fluor Enterprises, Inc.

Project Financing

- TxDOT intends to fully fund the project with federal and state funding sources. No debt has been or will be assumed to acquire right-of-way, design, construct, operate and maintain the project.
 - Anticipated funding sources include, but are not limited to:
 - Category 2, Metropolitan and Urban Area Corridor Project Funds
 - Category 4, Statewide Connectivity Corridor Project Funds
 - Category 5, Congestion Mitigation and Air Quality Improvement Funds
 - Category 7, Metropolitan Mobility and Rehabilitation Funds
 - Category 11, District Discretionary Funds
 - Category 12, Strategic Priority Funds
 - Appropriation 13035
- There are no concession payments.
- TxDOT will collect tolls on the I-635 LBJ East managed lanes based on the most current Regional Transportation Council (RTC) policy, even though there is no debt to repay.

Methodology for Increasing Toll Rates:

- A fixed-fee schedule will be applied during the first six (6) months, up to a maximum of \$0.75 per mile
- Dynamic pricing will be applied after the six (6)-month fixed-fee period
 - Market-based tolls will apply
 - Peak (rush) hour/high demand times will have higher toll rates
 - Off-peak/low demand times will have lower toll rates
 - Single-occupancy vehicle will pay the full rate
 - Trucks will be allowed to use the managed lanes and will pay a higher rate
 - High-occupancy vehicles (HOV) and vanpools will pay the full rate in the off-peak period
 - HOV vehicles will receive a 50% discount during the peak period; eligible HOVs must pre-register
 - RTC-sponsored public vanpools are permitted to add peak-period tolls as eligible expenses
 - Transit vehicles will not pay tolls
- Toll rate will be established to maintain a minimum 50 mph average managed lane speed
- The complete policy is available online at: <https://resources.nctcog.org/trans/committees/rtc/index.asp>

Source: NCTCOG

Estimated Toll Rates

- The initial toll rates will be set by the Texas Transportation Commission in accordance with managed lanes policy established by the Regional Transportation Council of the North Central Texas Council of Governments.
- Under expected operating conditions, the anticipated toll rates are:

Price per Mile	2023 (in today s \$)	2040 (in today s \$)
High	\$0.35	\$0.82
Low	\$0.30	\$0.53

Contractual Provisions

- **Competing Facilities**
 - TxDOT has the right to build any facilities at any time.
 - There are no terms in the DB Contract related to competing facilities and there are no penalties associated with their construction.

- **Termination for Convenience**
 - TxDOT has the right to terminate the DB Contract at any time without cause.
 - If TxDOT elects to exercise this right:
 - TxDOT must pay the DB Contractor for the design and construction work already performed under the DB Contract and the costs of terminating subcontracts.

Next Steps

- Complete negotiation with Pegasus Link Constructors and finalize the contract

- Contract review by:
 - Federal Highway Administration

- Notice to Proceed is expected in Fall 2019

- Construction expected to begin next year

- Substantial completion expected in late 2024

10 minute recess

Comment period following recess
