

Professional Engineering Procurement Services (PEPS) Division
Solicitation No. 601CT0000006256
Questions & Answers (Q&A)
Q&A Posting Date: May 28, 2025

Ref #	Provider Question	TxDOT Answer
1.	Will pavement coring services be required? If so, which precertification category will include them?	This information will be available once the solicitation is posted in Bonfire, in the Services to be Provided by the Engineer draft document
2.	Is the OSOW analysis solely for pavement consumption?	This information will be available once the solicitation is posted in Bonfire, in the Services to be Provided by the Engineer draft document.
3.	Is the support for the OSOW consumption analysis and permitting program intended to be based on TSD/GPR data analysis, or is it expected to be an independent task unrelated to the TSD/GPR data?	No, OSOW consumption analysis will be an independent effort. When TSD/GPR data are available, it can be used in OSOW consumption analysis.
4.	What other non-listed work categories are anticipated under the RFP?	There are no Non-Listed Work Categories (NLC's) anticipated for this procurement. Once posted, refer to the RFP since this is subject to change.
