

Summary of Chapter 21 Proposed Changes

The Texas Department of Transportation (department) proposes amendments to §21.25, State Participation in the Relocation of Certain Publicly-Owned Utility Facilities, that allow a water supply or sewer service corporation organized and operating under Water Code, Chapter 67, to qualify for the department's program for reimbursing certain costs of the relocation of utility facilities required for a state highway project. These amendments conform the rules to amendments made to Transportation Code, §203.092(a-4), by S.B. 2601, 88th Regular Session, 2023.
