

# Early Start of Construction

Rev. 01  
Release Date: 04/30/2024

# Early Start of Construction Training

This is a self-directed overview of Design-Build contracting based on Version 6.0 of the Programmatic Documents

This symbol where shown on a slide provides reference to the Section of the Programmatic Documents

Sample

## Early Start of Construction (ESOC) Training Goals

- ✓ Understand what constitutes Early Start of Construction (ESOC)
- ✓ Understand the ESOC process and requirements

# Table of Contents

**10** | Definition and Overview

**11** | Packaging Requirements and  
Procedures

**13** | Submittals

**20** | Resources

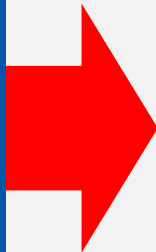

# 1. Definition and Overview

## Early Start of Construction (ESOC) Definition

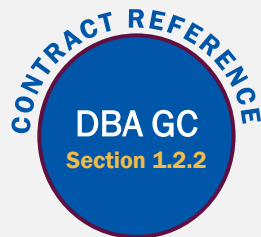

ESOC is any construction activity performed in accordance with construction packages issued by the DB Contractor for construction without receiving TxDOT's written statement of no exceptions taken with the Design Manager's and Professional Services Quality Assurance Manager's (PSQAM) certification of compliance.

ESOC packages are  
not RFC documents

Any ESOC work is  
performed at DB  
Contractor's risk

DB Contractor shall make any necessary modifications to already completed construction activities at its sole cost and expense without any entitlement to time extensions or adjustments in the Price

## Overview - ESOC Drivers

**Accelerated  
groundbreaking**

**Schedule  
commitments**

**Timing and  
efficiency of DB  
Contractor's  
available resources**

**Cash flow**

## 2. Package Requirements and Procedures

## ESOC Package Contents

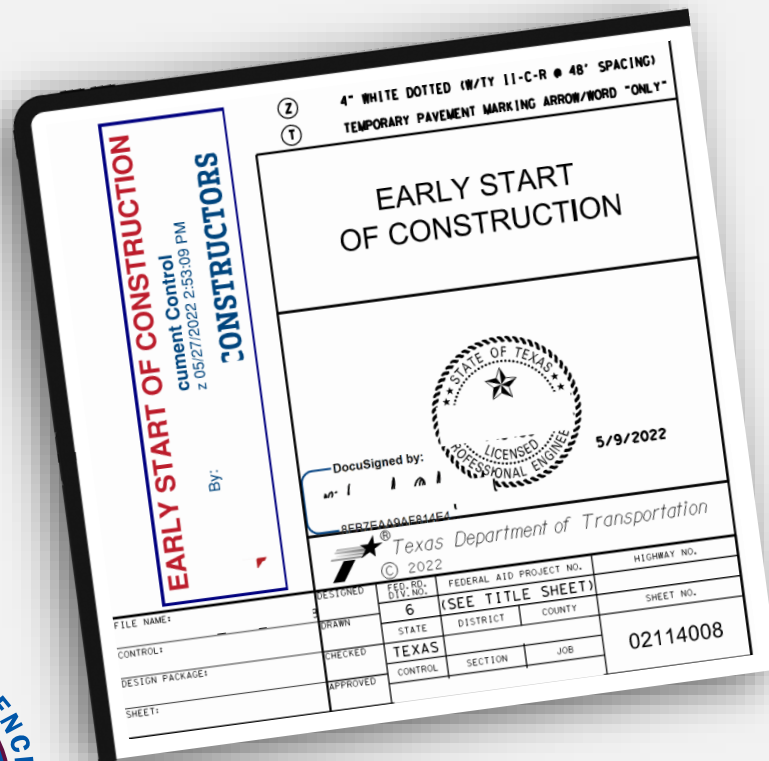

Work eligible for inclusion as ESOC:

- ✓ Rough Grading
- ✓ Drainage
- ✓ Temp Drainage
- ✓ Demo/Removal Plans
- ✓ Temporary Pavement
- ✓ ROW Plans
- ✓ SWPPP
- ✓ Utilities

## Conditions for Release of ESOC packages

DB Contractor may release ESOC packages for construction if DB Contractor has satisfied all conditions for issuance of NTP2 and commencement of construction relating to the Work to be performed.

### Requirements:

TxDOT approval of the Professional Services Quality Management Plan (PSQMP)

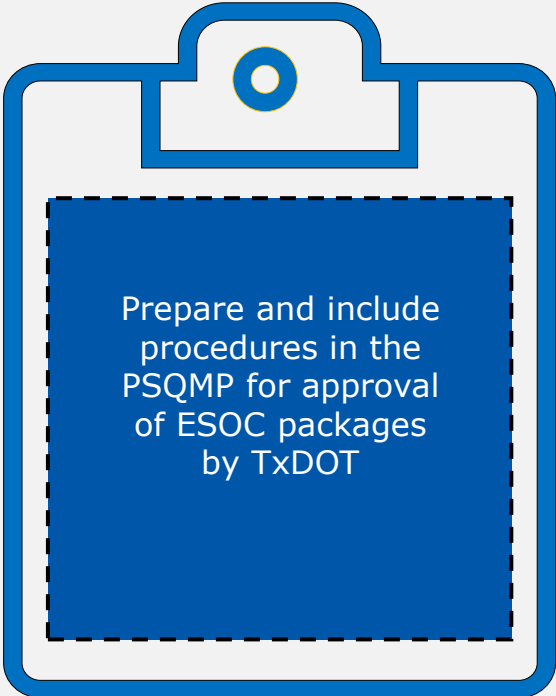

TxDOT approval of the Construction Quality Management Plan (CQMP)

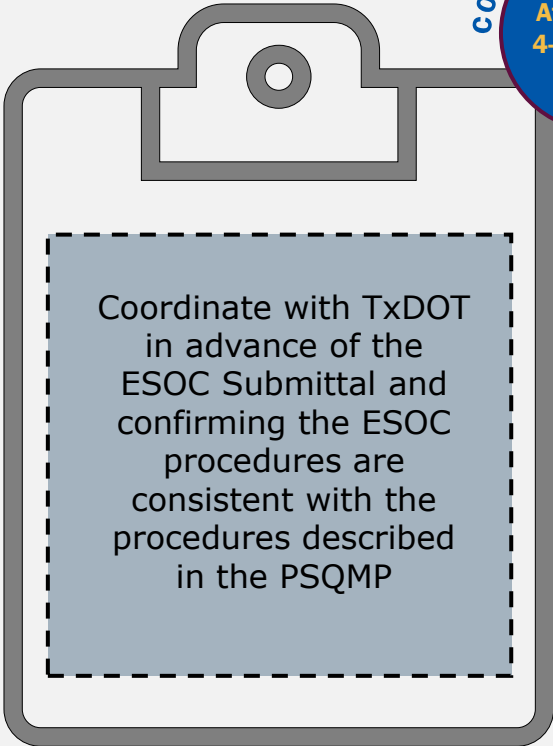

Approval of the PBS3 and Schedule of Values identifying the ESOC Work

## PSQMP Requirements for ESOC Submittals

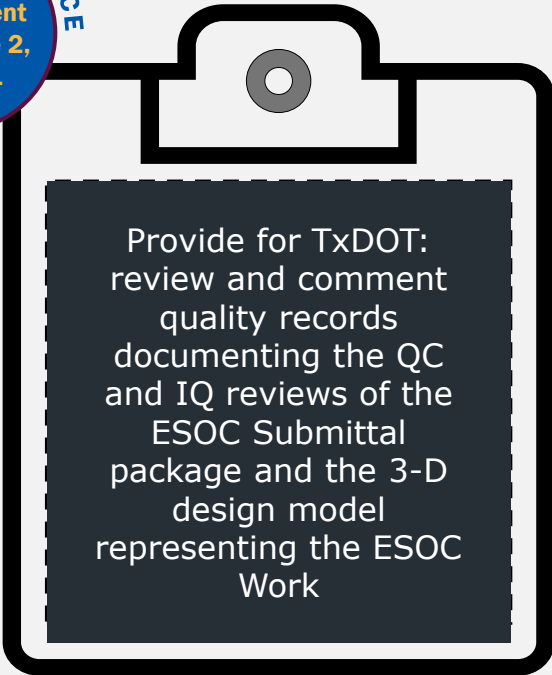

Prepare and include procedures in the PSQMP for approval of ESOC packages by TxDOT

Coordinate with TxDOT in advance of the ESOC Submittal and confirming the ESOC procedures are consistent with the procedures described in the PSQMP

CONTRACT REFERENCE  
DBA GC  
Attachment  
4-1, Table 2,  
QCP 11

Provide for TxDOT: review and comment quality records documenting the QC and IQ reviews of the ESOC Submittal package and the 3-D design model representing the ESOC Work

## Packages and Procedures

### List of proposed ESOC packages

- Submitted before the Design Submittal Packaging Plan
- Includes description of packages
- Must obtain TxDOT's approval of list and description prior to submittal of the Design Submittal Packaging Plan

### DB Contractor requested packages

TxDOT may defer ESOC for any portion of the Work requested for ESOC by the DB Contractor

### ESOC Procedures

TxDOT and the DB Contractor agree on Project specific responsibilities and workflows then the DB Contractor incorporates them into the PSQMP

- Distribution of Construction Documents
- Addressing comments
- Implementing design changes
- Other

# 3. Submittals

# Design Submittal Packaging Plan

- DB Contractor must include the approved list of ESOC Submittal packages in the Design Submittal Packaging Plan
- DB Contractor hosts a Packaging Plan and Schedule Workshop to explain and discuss proposed design submittal packages
- Includes the work limits, work type, and schedule for each submittal
- ESOC Packages are included if applicable

DESIGN PACKAGING AND SUBMITTAL PLAN					
Wave	Wave Content	Stage	Current Start	Original Duration	Current Finish
1	Aesthetics and Landscape Plan	Preliminary	8-Nov-23	10	19-Nov-23
	Corridor Structure Type Study and Report				
	General Notes/Specifications				
	Standards				
2	Environmental Re-eval for ATC	Final	10-Dec-23	10	23-Dec-23
	Aesthetics and Landscape Plan				
	Corridor Structure Type Study and Report				
	General Notes/Specifications				
3	Standards	Preliminary	17-Jan-24	10	28-Jan-24
	Environmental Re-eval for ATC				
	Hydraulics Report				
	Roadway Package				
4	Drainage Package	Preliminary	8-Mar-24	10	21-Mar-24
	Roadway Removal Package				
	Bridge Package 1 (01, 03A, 06, 08A)				
	Walls Package 1				
5	Permanent ITS	Preliminary	21-Mar-24	10	4-Apr-24
	Permanent Lighting				
	Permanent Signs, Signals, Striping				
	MOT Phase 1A, 1, 2				
6	SWPPP Phase 1A, 1, 2	ESOC	17-May-24	8	26-May-24
	Temporary ITS Phase 1A, 1, 2				
	Roadway Package (Early Package)				
	Drainage Package (Early Package)				
6	Roadway Removals Package (Early Package)	ESOC	17-May-24	8	26-May-24

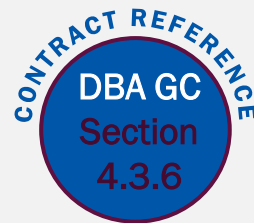

## Submittal Schedule

All ESOC packages must be submitted within 180 days after Notice to Proceed 2 (NTP2) or shall not be considered ESOC

Partial DB GC Table 4-3: QMP Submittals to TxDOT

Submittals	Submittal Schedule	Department Action	Reference Section
QMP – Professional Services Quality Management Plan	Prior to submitting design packages for TxDOT review	Approval	4.3.3
Design Submittal Packaging Plan	Prior to the first Professional Services Submittal	Approval	Attachment 4-1
Early Start of Construction procedures	Prior to Work	Approval	Attachment 4-1
List of proposed ESOC Submittal packages	Prior to submittal of the Design Submittal Packaging Plan	Approval	Attachment 4-1
ESOC Submittal packages	No later than 180 days after NTP2	Review and Comment	Attachment 4-1

## ESOC Package Submittals

All items, elements or portions of the work constructed in ESOC packages, which are then permanently incorporated into the Work, must be incorporated into RFC packages for TxDOT concurrence.

Preliminary  
Design

Final ESOC  
Design

Issued for  
ESOC

Record Documents  
(including QC/QA  
documentation)

## ESOC Package Submittals - Continued

ESOC Packages shall include at a minimum:

- ☐ Standards and Specifications including General Notes
- ☐ Construction specifications
- ☐ Typical sections
- ☐ Horizontal and vertical drainage system
- ☐ Related elements of the drainage system

CONTRACT REFERENCE  
DBA GC  
Attachment 4-1,  
Table 2, QCP 11

## ESOC Package Submittals – cont.

ESOC Packages shall include at a minimum:

- ☐ Related elements of the traffic control plan (TCP) specifically applicable during the term of the ESOC construction scope
- ☐ Subsurface geotechnical investigations and recommendations
- ☐ Slope stability analysis and recommendations
- ☐ Settlement monitoring program
- ☐ Preliminary structure general plans (if a structure is within the element or portion of the nonstructural Work)

CONTRACT REFERENCE  
DBA GC  
Attachment 4-1,  
Table 2, QCP 11

# TxDOT Review & Comment

Prior to release of the ESOC package for construction comments shall be addressed to TxDOT's satisfaction if:

Work is not in conformance with the Contract Documents

Work could be considered a hazard to public health and safety

## TxDOT Review and Comment

- Is not a QC or QA review
- Does not direct solutions
- Does not shift risk to TxDOT
- TxDOT concurrence is not provided for ESOC packages

## 4. Resources

# Contract Reference Documents

## Design-Build Agreement (DBA)

contains DB specific and traditional contract language. Allows flexibility for district specific language.

## Design-Build General Conditions (DB GC)

Items 1-9 of the DB Specifications are the Design-Build General Conditions and provide the static terms and conditions for Design-Build contracts.

## Design-Build Specifications Items 10-28 (DBS)

contains DB specific and traditional contract language. Allows flexibility for district specific language.

---

## Capital Maintenance Agreement General Conditions (CMA GC)

Items 1-8 of the CAM Specifications are the CMA General Conditions and provide the static terms and conditions for Design-Build contracts.

The CMA Specifications are included in item 9 contains provisions for maintenance during construction & options for maintenance after substantial completion.
