

Welcome to the 2024 Texas Steel Quality Council Meeting

November 12, 2024

Texas Steel Quality Council

A joint owner-industry forum, comprised of the following:

- TxDOT design, fabrication, erection engineers
- Inspectors
- FHWA bridge engineers
- Academics
- Steel mill representatives
- Design consultants
- Steel bridge fabricators, detailers, and trade association representatives

Texas Steel Quality Council

The Council meets regularly in an open forum to discuss best practices for achieving the most economical and easily constructed steel bridges.

Open and informed participation by representatives from all aspects of steel bridge design/construction is instrumental to the Council's success, and the Council welcomes and encourages all comments.

Texas Steel Quality Council

The Preferred Practices for Steel Bridge Design, Fabrication, and Erection is the primary means by which the Council's consensus is relayed.

Search: "TxDOT Preferred Practices"

It provides guidance that helps steel bridge designers working on TxDOT projects achieve optimal quality and value.
