Lead (Pb) Nonattainment or Maintenance Areas			
Collin County	Portion of Collin County in the Frisco City area	Transportation conformity does not apply for the Lead NAAQS	Attainment Maintenance <sup>13</sup>
Sulfur Dioxide (SO <sub>2</sub> ) Nonattainment or Maintenance Areas			
Freestone County	Portion of Counties	Transportation conformity does not apply for the SO <sub>2</sub> NAAQS	Nonattainment <sup>14</sup>
Anderson County			
Howard			
Hutchinson			
Navarro			
Panola County			
Rusk County			
Titus County			

## Appendix A

The following table shows the revision history for this guidance document.

<b>Revision History</b>	
<b>Effective Date Month, Year</b>	<b>Reason for and Description of Change</b>
April 22, 2025	Version 30 was released. On April 17, 2025, FHWA approved the El Paso MPO's Amended RMS 2050 Metropolitan Transportation Plan (MTP) and 2025-2028 TIP, effective April 17, 2025.
November 20, 2024	Version 29 was released. On October 18, 2024, FHWA approved the 2025-2028 STIP with the exception of the South East Texas Regional Planning Commission Metropolitan Planning Organization's (SETRPC-MPO's) TIP. On November 18, 2024, FHWA approved SETRPC-MPO's 2045 Metropolitan Transportation Plan (2050 MTP) and 2025-2028 TIP.
July 22, 2024	Version 28 was released. On June 20, 2024, EPA reclassified the DFW, HGB, and SAT 2015 ozone nonattainment areas from moderate to serious with an effective date of July 22, 2024.
December 7, 2023	Version 27 was released. On June 30, 2023, the D.C. Circuit Court issued a decision to reverse the EPA's multistate attainment area designation, which reverted El Paso County back to its prior attainment designation.
November 21, 2023	Version 26 was released. FHWA approved the South East Texas Regional Planning Commission Metropolitan Planning Organization's (SETRPC-MPO's) new conformity determination for their existing 2045 MTP and 2023-2026 TIP, effective November 20, 2023. This regional conformity determination restarts the four-year conformity clock; however, since this regional conformity determination is associated with the existing plan and not a new one, the five-year plan update clock has not restarted and is still set to expire on November 21, 2024.
November 2, 2023	Version 25 was released. FHWA approved Houston-Galveston MPO's 2045 Regional Transportation Plan Update (2045 RTP Update) and 2023-2026 TIP, effective November 1, 2023.
August 4, 2023	Version 24 was released. FHWA approved AAMPO's 2050 Metropolitan Transportation Plan (2050 MTP) and 2023-2026 TIP, effective August 3, 2023.
March 17, 2023	Version 23 was released. Footnotes pertaining to the re-designation of the 2008 ozone nonattainment areas of DFW and HGB from serious to severe were elaborated upon to include the specific designation of severe-15 nonattainment for the 2008 NAAQS, as identified in EPA's Greenbook.
January 10, 2023	Version 22 was released. FHWA approved DFW's Mobility 2045 – 2022 Update and 2023-2026 TIP, effective December 15, 2022.
December 2, 2022	Version 21 was released.

Revision History	
	FHWA/FTA approved the 2023-2026 STIP, effective November 18, 2022.
November 8, 2022	Version 20 was released. FHWA/FTA approved ELP's RMS 2050 MTP and RMS 2023-2026 TIP, effective November 4, 2022.
October 7, 2022	Version 19 was released. EPA re-designated the 2008 ozone nonattainment areas for DFW and HGB from serious to severe, effective November 7, 2022. <sup>15</sup> EPA re-designated the 2015 ozone nonattainment areas for DFW, HGB, and SAT from marginal to moderate, effective November 7, 2022. <sup>16</sup>
December 30, 2021	Version 18 was released. EPA designated El Paso County as marginal nonattainment for the 2015 ozone standard, effective December 30, 2021.
August 3, 2021	Version 17 was released. FHWA/FTA issued joint approval of the 2021-2024 STIP on July 22, 2021. Also updated SO <sub>2</sub> nonattainment designations as identified in EPA's Greenbook.
March 20, 2020	Version 16 was released. EPA clarified in their final rule for HGB SIP Revision <sup>17</sup> that designations and classifications for revoked 1979 and 1997 ozone standards were also revoked, and therefore have no designation.
November 22, 2019	Version 15 was released. FHWA approved SAT's Mobility 2045 and BMT's MTP 2045. Also updating TIP/STIP conformity dates to coincide with new plans.
August 23, 2019	Version 14 was released. EPA re-designated the 2008 ozone nonattainment areas for DFW and HGB from moderate to serious.
August 2, 2019	Version 13 was released. FHWA approved BMT's Revised 2040 MTP and HOU's 2045 Regional Transportation Plan.
February 16, 2019	Version 12 was released. Updates status of the 1997 ozone designations for HGB and DFW since South Coast ruling became effective on February 16, 2019.
November 21, 2018	Version 11 was released. FHWA approved DFW's Mobility 2045.

Revision History	
November 6, 2018	Version 10 was released. FHWA approved ELP's Destino 2045.
September 28, 2018	Version 9 was released. FHWA approved the 2019-2022 STIP. Also adds back in the 1997 ozone standard and updates the attainment status for the lead maintenance area in Collin County.
August 3, 2018	Version 8 was released. This revision incorporates the EPA designations for the 2015 ozone standards.
March 27, 2018	Version 7 was released. FHWA approved ELP's Amended Horizon 2040 MTP.
December 20, 2016	Version 6 was released. FHWA approved the 2017-2020 STIP.
September 8, 2016	Version 5 was released. FHWA approved DFW's Mobility 2040 MTP.
September 14, 2015	Version 4 was released. FHWA approved Houston's 2040 Regional Transportation Plan.
December 11, 2014	Version 3 was released. The reason for the change is that an update to the table was needed because FHWA and FTA approved the 2015-2018 STIP.
June 5, 2014	Version 2 was released. This document has been updated to account for the approval of EL Paso's 2040 Metropolitan Transportation Plan. June 5, 2014 is both the date of the regional conformity determination by FHWA/FTA for the new MTP and the effective date for the new MTP.

<sup>1</sup> The term "initial" here refers to the original conformity date for the current plan which started its 4-yr conformity clock. This is the date that should be used in the environmental review document.

<sup>2</sup> The TIP/STIP conformity date is the determination for the initial STIP or for the plan that starts the 4-yr clock.

<sup>3</sup> DFW and HGB were reclassified from serious to severe nonattainment for the 2008 ozone NAAQS, effective November 7, 2022 (Federal Register: October 7, 2022, Vol. 87, No. 194, page 60927). DFW and HGB are classified as severe-15 nonattainment for the 8-hour 2008 ozone NAAQS (EPA Green Book, 8-Hour Ozone (2008) Nonattainment Area State/Area/County Report).

<sup>4</sup> DFW, HGB, and SAT were reclassified from marginal to moderate nonattainment for the 2015 ozone NAAQS, effective November 7, 2022 (Federal Register: October 7, 2022, Vol. 87, No. 194, page 60898). They were subsequently and voluntarily reclassified from moderate nonattainment to serious nonattainment, effective July 22, 2024 (Federal Register: June 20, 2024, Vol. 89, No.119, page 51829).

<sup>5</sup> Conformity to 1997 ozone standard is required by February 16, 2019; however, a less stringent analysis was performed (e.g., no regional travel or emissions analysis).

<sup>6</sup> EPA clarified in their final rule for HGB SIP Revision (Federal Register: February 14, 2020, Vol. 85, No.31, page 8411) that designations and classifications for revoked 1979 and 1997 ozone standards were also revoked, and therefore have no designation.

<sup>7</sup> DFW and HGB were reclassified from serious to severe nonattainment for the 2008 ozone NAAQS, effective November 7, 2022 (Federal Register: October 7, 2022, Vol. 87, No. 194, page 60927). DFW and HGB are classified as severe-15 nonattainment for the 8-hour 2008 ozone NAAQS (EPA Green Book, 8-Hour Ozone (2008) Nonattainment Area State/Area/County Report).

<sup>8</sup> DFW, HGB, and SAT were reclassified from marginal to moderate nonattainment for the 2015 ozone NAAQS, effective November 7, 2022 (Federal Register: October 7, 2022, Vol. 87, No. 194, page 60898). They were subsequently and voluntarily reclassified from moderate nonattainment to serious nonattainment, effective July 22, 2024 (Federal Register: June 20, 2024, Vol. 89, No.119, page 51829).

<sup>9</sup> 2015 ozone designation for ELP area becomes effective December 30, 2021 with a 1-year grace period for conformity.

<sup>10</sup> On June 30, 2023, the D.C. Circuit Court of Appeals reversed the nonattainment designation for El Paso County, finding that the EPA's action was impermissibly retroactive (<https://www.epa.gov/ozone-designations/ozone-designations-regulatory-actions>).

<sup>11</sup> 2015 ozone designation for SAT area becomes effective September 24, 2018.

<sup>12</sup> DFW, HGB, and SAT were reclassified from marginal to moderate nonattainment for the 2015 ozone NAAQS, effective November 7, 2022 (Federal Register: October 7, 2022, Vol. 87, No. 194, page 60898). They were subsequently and voluntarily reclassified from moderate nonattainment to serious nonattainment, effective July 22, 2024 (Federal Register: June 20, 2024, Vol. 89, No.119, page 51829).

<sup>13</sup> A small portion of Collin County is designated maintenance for lead, effective September 27, 2017. Transportation conformity does not apply to the lead NAAQS (Federal Register: June 29, 2017, Vol. 82, No. 124, page 29426).

<sup>14</sup> A portion of these counties are designated nonattainment for SO<sub>2</sub>. Transportation conformity does not apply to the SO<sub>2</sub> NAAQS.

<sup>15</sup> Federal Register: October 7, 2022, Vol. 87, No. 194, page 60927.

<sup>16</sup> Federal Register: October 7, 2022, Vol. 87, No. 194, page 60898.

<sup>17</sup> Federal Register: February 14, 2020, Vol. 85, No.31, page 8411.
