

Barrier Reflectors and Object Markers

Material Producer List
Materials and Tests Division

Barrier Reflectors and Object Markers

The following manufacturers of delineators, object markers, and barrier reflectors have complied with the requirements of DMS-8600, "Delineators, Object Markers, and Barrier Reflectors."

The materials listed below are pre-qualified for use when DMS-8600 is referenced. These materials require no further testing before use unless deemed necessary by the Project Engineer or the Materials and Tests Division (MTD). Tex-725-I, "Sampling Delineator and Object Marker Reflector Units," describes the sampling method.

The Department reserves the right to conduct random sampling of pre-qualified, certified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. MTD reserves the right to test samples to verify compliance with DMS-8600.

For qualification on the MPL contact DMS_Prequal@txdot.gov following the pre-qualification procedure of DMS-8600. For additional information, contact the MTD's Coatings, Calibration and Traffic Materials Section at (512)-221-4998.

A Buy America Status of "Compliant" indicates the manufacturer has certified the listed product is compliant with 23 CFR 635.410 and 2 CFR part 184 (as part of the Gold Star certification program) as classified by the Buy America Material Classification Sheet for projects federally obligated after October 1, 2025. Products with a Buy America Status of "Project Level Certification Required" require producer certification documentation for product delivered to each project.
