<sup>1</sup>FHWA FY2024-FY2026 Obligation Authority projections and associated reimbusements are per the Infrastructure Investment and Jobs Act (IIJA). After FY2026, projections are based on a FAST OA levels. See page 4 for additional information. <sup>2</sup>FY2027 – FY2029 Proposition 1 transfers are listed at the planning purposes levels. Base forecast assumes a more conservative approach of \$1.9 billion per fiscal year due to volatility of oil and natural gas.

<sup>1</sup> HWA FY2024-FY2026 Obligation Authority projections and associated reimbusements are per the Intrastructure Investment and Jobs Act (IIJA). After FY2026, projections are based on a FAST OA levels. See page 4 for additional information. <sup>2</sup> FY2027 – FY2029 Proposition 1 transfers are listed at the planning purposes levels. Base forecast assumes a more conservative approach of \$1.9 billion per fiscal year due to volatility of oil and natural gas.

State Highway Fund	Assumptions
Revenues	
Vehicle Registration Fee	Traditional (non-electric vehicle (Non-EV) Vehicle Registration Fees (VRF) are projected using 2.2% growth rates for FY2025-FY2027 then blend with TTI's TRENDS model in remaining years. SB 505, 88th Legislature, Regular Session, imposed an additional fee for registration of an electric vehicle (EV) with a gross vehicle weight of 10,000 pounds or less, effective September 1, 2023. EV estimates use a blend of Slow and Bloomberg NEF (BNEF) growth rate scenarios provided in the TRENDS model.
State Motor Fuels Tax	State Motor Fuels Tax (MFT) utilizes a growth rate of 1.78% for FY2025-FY2027, which is based on a combined growth rate of 1.56% growth for gasoline and 2.40% for diesel. Projections beyond FY2027 incorporates the TRENDS model year over year rate of change. The TRENDS model uses vehicle miles traveled (VMT) for both personal and commercial vehicles divided by the projected average fleet wide miles per gallon (MPG). The estimated number of gallons is then multiplied by the fuel tax rate, then 75% of total revenue is apportioned to the state highway fund.
Lubricant Sales Tax	The Comptroller's Certification Revenue Estimates (CRE) was used for Lubricant Sales Tax deposit for FY2024-2025 and then a 1% year over year growth rate was applied for subsequent years after FY2025.
FHWA Reimbursement	Federal Obligation Authority (OA) is the portion of the National Highway Trust Fund (HTF) expected to be allocated to Texas for federally eligible roadway project. FY2024 actual and FY2025-FY2026 projected OA are based on the Infrastructure Investment and Jobs Act signed into law on November 15, 2021. From FY2027 and subsequent years, OA projections revert to 2020 Fixing America's Surface Transportation Act (FAST) funding levels which are then adjusted for growth. Actual federal reimbursements in a given year will not match the OA for that year because they are comprised of reimbursements for progress payments made on both existing and new projects. FHWA reimbursements also includes COVID funding appropriated to Texas for highway project development and delivery.
Local Reimbursements	Local reimbursements are projected at the amount of match typically required each year (\$40M), plus any remaining reimbursements on local projects that have already been awarded. Local funds beyond the required match in future years are added to the forecast at the time of the letting, and are not reflected here.
Certificate of Title Fees	Certificate of Title Fee revenue transferred to State Highway Fund per HB 4472, 87th Legislature for use in congestion mitigation and air quality improvement projects in nonattainment areas and affected counties.
Miscellaneous Revenue	Miscellaneous revenue includes a summarized total of all taxes and fee revenue deposited into the State Highway Fund estimates. The growth rate is assumed to be 1.0% per year.
Depository Interest	Interest is based on the projected cash balances of the State Highway Fund. Projected balances are determined through anticipated revenues and expenditures each year. If balances drop and become negative, interest for that month is assumed to be zero as TxDOT would issue short-term borrowing to cover negative cash balances.
Other Federal Funds	Other Federal Funds are reimbursement programs for Aviation, Public Transportation and Traffic Safety. Because those funds are tied to specific existing program levels, which are expected to remain constant the next few years, there is no assumption of growth. FY2024 Includes COVID funding directed towards public transpiration and aviation services.
Other Agency Revenue	Since FY2016, most of the adaptive signals in Figure Management and a strategy and the pairs dataptive index of the session moving those agencies' appropriations to General Revenue and out of the State Highway Fund due to legislation from the 84th Legislative Session moving those agencies' appropriations to General Revenue and out of the State Highway Fund due to legislation from the 84th Legislative Session moving those agencies' appropriations to General Revenue and out of the State Highway Fund. The remaining dollar amounts are for Special Vehicle Permit fees and Motor Vehicle Certificates collected by the TxDMV as projected by the 2024-2025 CRE with a growth rate of 2% for future years.
Expenditures Other Agencies and Fund Transfers	Includes Cost Allocation Program (SWCAP) and SHF transfers to the Texas Mobility Fund beginning in FY 2022 pursuant to HB 4472, 87th Legislature in replacement of the Certificate of Title Fees.
TxDOT Non-Letting	Non-letting expenditures are engineering, right-of-way, public transportation, administration, aviation, existing non-traditional projects, and other programs for which TxDOT receives funding. The 2024-2025 General Appropriation Act expenditure levels were used as the base for the forecast. Non-letting expenditures also include State Highway Fund (Proposition 14) debt service.
TMF Taxes & Fees	
<u>Revenues</u> Taxes and Fees	Revenue projections were based on the 2024-2025 CRE and includes adjustments for Driver License Fees from the 86th Legislature, SB 616 fiscal impact. Certificate of Title Fees ended in FY2022 and pursuant to HB 4472, 87th Legislature, these are replaced with a transfer in from the State Highway Fund.
Build America Bonds	Determined by the debt service partial reimbursement agreement entered into with the Federal government as part of the Build America Bond Subsidy program.
Expenditures TxDOT Non-Letting	Estimates for project development were added to utilize TMF taxes and fees funds while maintaining sufficient balances to fulfill TMF bond debt service requirements. Also includes TMF debt service (which is determined by the debt service repayment schedules), public transportation, aviation, other existing non-traditional projects and grants to ports and county transportation infrastructure projects.
Proposition 1 Oil & Gas Severance	
Revenues Transfer In	The FY2025-FY2026 transfers are projected based on the 2024-2025 CRE. FY2027 – FY2043 transfers will depend upon future oil and gas production tax revenue levels along with future legislative action. Due to its volatility, for planning purposes, FY2027 - FY2029 are presented as a scenario based on a five year average of actual and potential transfers (FY2022-FY2026) and excludes highest/lowest transfers within that five year period. After FY2029, transfers are based on a ten year average of actual and projected transfers (FY2017-FY2026) and exclude highest/lowest transfers within that ten year period. Proposition 1 transfers are set to expire in Dec. 31, 2042 (FY2043) per provisions in HB2230, 88th Legislature, RS.
Expenditures TxDOT Non-Letting	Assumes 20% of the total transfer amount is available for project development and 80% for letting. Also includes expenditures for existing non-traditional projects.
Proposition 7 Sales and Use Taxes <u>Revenues</u> Transfer In	Section 7-c(a) directs the Comptroller to deposit to the credit of the SHF \$2.5 billion of the net revenue derived from the state sales and use tax under Chapter 151 of the Tax Code in excess of \$28 billion. FY2025- FY2026 transfers were estimated according to the 2024-2025 CRE. FY2027 – FY2042 assume the full \$2.5 billion per year transfer from sales and use taxes. SCR2, 88th Legislature, RS extended the expiration date to Aug. 31, 2042 (FY2042). Section 7-(c)) directs the Comptroller to deposit to the credit of the SHF 35 percent of the revenues collected from the tax imposed on the sale, use, or rental of a motor vehicle under Chapter 152 of the Tax Code that exceed \$5 billion. FY2024 – FY2026 transfers were estimated according to the 2024-2025 CRE and assumes collection grow at a rate of 6% after that. SCR2, 88th Legislature, RS extended the expiration date to Aug. 31, 2039 (FY2039).
Expenditures TxDOT Non-Letting	Assumes 20% of the total transfer amount is available for project development and 80% for letting. Proposition 7 pays the Proposition 12 debt service for forecast purposes. It is assumed this will continue until the Proposition 7 expiration in 2042 and will revert to general revenue after that.
Other Revenue Interest	Interest is based on the projected cash balances of the various restricted funds. Projected balances are determined through anticipated revenues and expenditures each year. The timing and obligations of projects using bond proceeds will be adjusted to fully utilize them. SH 121, SH 161 and SH 130 project selection is on-going, and unless toll revenue sharing or loan repayments extend beyond FY2035, interest is not projected on balances past FY2035 (SH 121) and FY2024 (SH161), based on the likely event that most or all of the funds are utilized before then.
Toll Revenue Sharing	Toll Revenue Sharing projections were based on estimates provided by the Region and/or outside entity associated with the program.
Build America Bond Subsidies Prop 14 Prop 12	Determined by the debt service partial reimbursement agreement entered into with the Federal government as part of the Build America Bond Subsidy program; available only for debt service. Determined by the debt service partial reimbursement agreement entered into with the Federal government as part of the Build America Bond Subsidy program; available only for debt service.
Total Project Awards	Annual letting volumes represent the total dollar amounts of contracts awarded or expected to be awarded, not the actual expenditure that fiscal year. Actual expenditures for those projects will occur over time, with typical project lives spanning from 1 – 5 years. The letting schedule is refined as necessary to maintain positive cash flows for all department funds. Therefore the amount that can be let in a particular fiscal year will differ from a simple sum of the revenues as the letting amount must consider several factors including existing cash balances, existing commitments, and projected payout curves for projects to be let. The amounts listed include estimates for all TXDOT fund sources, including Propositions 1 and 7.
FHWA Obligation Authority	Federal Obligation Authority (OA) is the portion of the National Highway Trust Fund (HTF) expected to be allocated to Texas to obligate projects eligible for FHWA reimbursements. FY2024 actual and FY2025- FY2026 projected OA are based on the Infrastructure Investment and Jobs Act signed into law on November 15, 2021. From FY2027 and subsequent years projections revert to 2020 Fixing America's Surface Transportation Act (FAST) funding levels, which are then adjusted for growth. Actual federal reimbursements in a given year will not match the OA for that year because they are comprised of reimbursements for progress payments made on both existing and new projects.
