

Geogrid for Base / Embankment Reinforcement

Material Producer List

Construction Division – Materials & Pavements Section

Geogrid for Base / Embankment Reinforcement

The following products are pre-qualified in accordance with DMS-6240, “Geogrid for Base / Embankment Reinforcement.”

The Department reserves the right to conduct random sampling and testing of pre-qualified materials to verify performance and Specification compliance and to perform random audits of documentation. Department representatives may sample material from the project site and the warehouse.

For more information, contact the Construction Division’s Geotechnical, Soils, and Aggregates Branch at (512) 506-5907.

Producer	Type	Product Name	Expires
