Material Producer List

Materials & Tests Division

Polymer Concrete

The following products are pre-qualified in accordance with DMS-6140, “Polymer Concrete for Bridge Joint Systems.”

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The Materials & Tests Division (MTD) reserves the right to test samples to verify compliance with DMS-6140.

For more information, contact MTD’s Rigid Pavements and Concrete Materials Section at (512) 506-5858.
