

# **Concrete Traffic Barrier Fabrication Plants (Multi-Project)**

Material Producer List

Materials and Tests Division-Prefabricated Structural  
Materials Section

## Concrete Traffic Barrier Fabrication Plants (Multi-Project)

The following multi-project fabrication plants [as defined in Item 424, "Precast Concrete Structures (Fabrication),"] that produce precast concrete traffic barrier have been approved according to DMS-7350, "Qualification Procedure for Multi-Project Fabrication Plants of Precast Concrete Traffic Barrier."

When temporary barrier is to be furnished and retained by the Contractor, barrier from non-approved sources or previously used barrier may be provided if the Contractor submits written certification as specified in Item 512. The Engineer may approve the use of this barrier per the criteria stated in Item 512.

The Department reserves the right to conduct random sampling and testing and visual inspections of materials from approved concrete traffic barrier multi-project fabricators. Department representatives may sample and inspect material from the fabrication plant or the project site. MTD's Prefabricated Structural Materials Section (PSTR) reserves the right to test samples to verify compliance with Items 512 and 514. Refer to the next page for approved fabricator monogram stamps.

For more information, contact MTD's PSTR at (512) 993-7117.

### Reference

Refer to the Department's *Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges* for information on the following:

- Item 512, "Portable Concrete Traffic Barrier"
- Item 514, "Permanent Concrete Traffic Barrier"

Producer Code	Fabricator	Location
99714	Austin PreStress Co.	Austin, TX
99725	Bexar Concrete Works I. Ltd.	San Antonio, TX
98365	Jobe Precast Prestressed Concrete	El Paso, TX
98394	Summit Precast Concrete, LLC	Navasota, TX
99707	Tricon Precast, Ltd.	Houston, TX
