Re: Agency Meeting: North Houston Highway Improvement Project, Environmental Impact Statement

Dear Mr. Lambert:

The Texas Department of Transportation (TxDOT) will hold a meeting for cooperating agencies for the North Houston Highway Improvement Project. An Environmental Impact Statement (EIS) is being prepared for this project, in accordance with the National Environmental Policy Act of 1969, to analyze potential direct, indirect, and cumulative effects to the human and natural environment that may occur from the construction and operation of proposed transportation improvements in the project area.

The purpose of the meeting is to present the Proposed Recommended Alternative for the proposed project and receive comments. The proposed project would add four managed lanes to I-45 from Beltway 8 (BW 8) North to I-10, would realign sections of I-45, I 10, and US 59 in the downtown Houston area, and would improve connections to SH 288 and US 59 south of downtown. The purpose of the proposed project is to enhance safety, create additional roadway capacity to manage congestion, and to improve mobility and operational efficiency by better accommodating increasing traffic volumes. The proposed improvements would require additional right-of-way. Maps will be available to show the proposed project's recommended alignment. The information presented will be available on the project website www.IH45NorthandMore.com (Quick Link: 4th Public Meeting Documents).

If your agency has not formally agreed to be a cooperating agency, we extend this invitation to become a cooperating agency with TxDOT in the development of the EIS for the proposed project. Your agency's involvement would entail only those areas under its jurisdiction, and no direct writing or analysis by your agency will be necessary for the document's preparation.

You and other agency representatives are invited to attend a focused meeting for agency discussion regarding the project, prior to the next public meeting. The agency meeting will be held as follows:

Re: Agency Meeting: North Houston Highway Improvement Project, Environmental Impact Statement

Dear Mr. Curry:

The Texas Department of Transportation (TxDOT) will hold a meeting for cooperating agencies for the North Houston Highway Improvement Project. An Environmental Impact Statement (EIS) is being prepared for this project, in accordance with the National Environmental Policy Act of 1969, to analyze potential direct, indirect, and cumulative effects to the human and natural environment that may occur from the construction and operation of proposed transportation improvements in the project area.

The purpose of the meeting is to present the Proposed Recommended Alternative for the proposed project and receive comments. The proposed project would add four managed lanes to I-45 from Beltway 8 (BW 8) North to I-10, would realign sections of I-45, I 10, and US 59 in the downtown Houston area, and would improve connections to SH 288 and US 59 south of downtown. We suggest your agency's role in the development of the above project should include the following as they relate to your area of expertise:

1. Provide meaningful and early input on defining the proposed project's need and purpose, determining the range of alternatives to be considered, and the methods and level of detail required in alternatives analysis.
